C E BUCKLAND,
Offg Chief Secy to the Govt of Bengal

is pleased to grant to Messrs Kilburn and Company, of No 4 Fairlie Place, Calcutta, acting on behalf of the Calcutta Electric Supply Corporation, Limited, a license to supply electricity in the 'additional added area' of Calcutta, as specified in the second of the Schedules referred to in the license

No 51M P I —Notification (ii) —The following license under the Calcutta Electric Lighting Act, IX of 1895, which has been granted to Messrs Kilburn & Co, of No 4 Fairlie Place, Calcutta, on behalf of the Calcutta Electric Supply Corporation, Limited, under authority of Government of Bengal Notification No 50M P I dated 2nd April 1901, is published for information in terms of Rule IX of the rules promulgated with this Department Notification No 66, dated 24th March 1896

D JOSCELYNE,
Secy to the Govt of Bengal

THE CALCUTTA ELECTRIC LIGHTING LICENSE (ADDITIONAL ADDED AREA), 1901

The undertakers for the purpose of this license are Messrs Kilburn & Co, on behalf of "The Calcutta Electric Supply Corporation, Limited," being a Company registered under the English Companies Act, 1862 and 1890, with limited liability, and having its registered office at Mansion House Buildings, London, E C, with a local office, and accredited Agents, at 4 Fairlie Place, Calcutta

THE CALCUTTA ELECTRIC LIGHTING LICENSE (ADDITIONAL ADDED AREA) 1901

PRELIMINARY

1 This license may be cited as the Calcutta Electric Lighting License, 1901

2 This license is to be read and construed subject, in all respects to the provisions of the Calcutta Electric Lighting Act, 1895, and the several words, terms and expressions, to which, by that Act, meanings are assigned, shall have, in this license, the same respective meanings, provided that in this license

The expression "the Act" shall mean the said Calcutta Electric Lighting Act, 1895

The expression "energy" shall mean electrical energy, and for the purposes of applying the provisions of the Act to this license, electrical energy shall be deemed to be an agency within the meaning of electricity as defined in the Calcutta Electric Lighting Act, 1895

The expression "power" shall mean electrical power, or the rate per unit of time at which energy is supplied

The expression "main" shall mean any electric line, which may be laid down by the undertakers in any street or public place, and through which energy may be supplied, or intended to be supplied, by the undertakers, for the purposes of general supply

The expression 'service line" shall mean any electric line through which energy may be supplied or intended to be supplied by the undertakers, to a consumer, either from any main, or directly from the premises of the undertakers

The expression "distributing main" shall mean the portion of any main which is used for the purpose of giving origin to service lines for the purposes of general supply

The expression 'general supply" shall mean the general supply of energy to ordinary consumers, and, unless otherwise specially agreed with the local authority, to the public lamps, but shall not include the supply of energy to any one or more particular consumers under special agreement

The expression "area of supply" shall mean the area within which the undertakers are, for the time being, authorised to supply energy under the provisions of this license

The expressions "first schedule," "second schedule," "third schedule," and "fourth schedule" shall mean the first, second, third, and fourth schedules to this license annexed, respectively

The expression "deposited map" shall mean the map of the area of supply deposited with the Local Government by the undertakers, together with the license, and signed by *A B*

For the purpose of this license, the word "plan" shall be held to mean a plan drawn to a horizontal scale of at least 1 inch to 100 feet, and a section drawn to a vertical scale of at least 1 inch to 10 feet, with such detail, plan and section as may be necessary

3 This license shall come into force, and have effect, upon the day when the notification, confirming this license, is published in the *Calcutta Gazette*, which date is, in this license, referred to as "the commencement of this license," and this license shall continue in force from that date until the 20th day of October 1918

Address and description of the undertakers

4 The undertakers for the purpose of this license are—Messrs Kilburn & Co, on behalf of The Calcutta Electric Supply Corporation, Limited, being a Company registered

under the English Companies Act, 1862 and 1890, with limited liability and having its registered office at Mansion House Buildings, London, E C, with a local office, and accredited Agents, at 4 Fairlie Place, Calcutta

Provided that, if the undertaking, or any part thereof, is at any time purchased by, or transferred to, any other body, or persons, in accordance with the provisions of this license, or of the Act such body or persons shall, from the date of such purchase or transfer, be the undertakers in relation to such undertaking, or part thereof, for the purposes of this license, in lieu of the undertakers abovementioned

The undertakers shall not, at any time without the previous consent, in writing of the Local Government, purchase, or acquire the undertaking of or associate themselves with, any other Company or persons supplying, or intending to supply, energy within the City of Calcutta, and before applying for such consent the undertakers shall give one month's notice of the application to every local authority, both in the undertakers, area of supply and also in the area or district in which such other Company or person supplies or intends to supply energy, and every such local authority shall be entitled to be heard with respect to the application

If the undertakers purchase, or acquire, any undertaking or associate themselves with any other Company or person, in contravention of the provisions of this clause, the Local Government may revoke this license upon such terms as it may think just

Area of supply

5 Subject to the provisions of this license the area of supply shall be the whole of the area included in the first schedule, which said area is more particularly delineated upon the deposited map, and thereon coloured blue

6 The undertakers shall not, at any time after the commencement of this license, supply energy, or erect or lay down any electric lines, or works beyond the area of supply otherwise than under a license granted by the Local Government under the Act

If the undertakers supply energy, or erect or lay down, electric lines or works, in contravention of this section, the Local Government may revoke this license on such terms as it may think just

Security and Accounts

7 The undertakers, within a period of six months after the commencement of this license, and before exercising any of the powers by this license conferred on them in relation to the execution of works shall show to the satisfaction of the Local Government that they are in a position fully and efficiently to discharge the duties and obligations imposed upon them by this license throughout the area of supply

The undertakers shall within six months after the commencement of this license, or such extended period as may be approved by the Local Government and before exercising any of the powers conferred on them in relation to the execution of works, deposit or secure to the satisfaction of the Local Government, a sum equal to ten per cent of the probable outlay, subject to a limit of Rs 20 000 in respect of the area of supply, or such sums, in respect of the several local authorities' districts, which are wholly or partly comprised in the area of supply, not exceeding in the aggregate Rs 20 000 as the Local Government may direct

If within any such period as aforesaid, the undertakers fail to show, to the satisfaction of the Local Government, that they are in such a position as abovementioned, or fail to deposit, or secure, such sum or sums, as aforesaid, this license may be revoked by the Local Government as to the whole or, with the consent of the undertakers, any part of the area affected thereby, upon such terms as it may think just

Any sum or sums deposited or secured by the undertakers under the provisions of this section in respect of the area of supply, or of any such district, shall be repaid or released to them, from time to time in equal moieties, when, and so soon as, it may be certified by an Inspector to be appointed by the Local Government that amounts equal to the sums so to be repaid or released have been expended by the undertakers upon works executed for the purposes of the undertaking in such area or district, or that distributing mains have been duly laid down, in accordance with the provisions of this license, in every street or part of a street, specified in that behalf in the second schedule, and situate in such area or district or at such earlier dates, and by such instalments as may, from time to time, be approved by the Local Government

8 The undertakers shall, except with the special approval of the Local Government, to be previously given, at all times keep accounts of the capital employed for the purposes of the undertaking, distinct from the accounts kept by them in respect of any other undertaking or business

Nature and mode of supply

9 Subject to the provisions of this license and the Act, the undertakers may supply energy within the area of supply for all public and private purposes as defined by the Act provided as follows:—

(a) Such energy shall be supplied only by means of some system which shall be approved of by the Local Government, and subject to such regulations and

conditions for securing the safety of the public, and for insuring a proper and sufficient supply of energy, as the Local Government may, from time to time, impose

(b) The undertakers shall, in the use of electric power for the working of any tram way under the provisions of this license, employ either insulated metallic returns or uninsulated metallic returns of low resistance, save in the case of any tramways or tramroads worked by the undertaking, in which the motive power may be entirely self-contained

(c) The undertakers shall take all reasonable precautions in constructing placing, and maintaining their electric lines and circuits, and other works of all descriptions, and also in working their undertaking so as not injuriously to affect by fusion or electrolytic action, any gas or water pipes, or other metallic pipes structures, or substances

(d) The exercise of the powers by this license conferred with respect to the use of electric power, shall be subject to the regulations set forth in this license, or under the said Act, and to any regulations which may be added thereto, or substituted therefor, respectively, by any order which the Local Government may make from time to time as, or when they may think fit, for regulating the employment of insulated metallic returns of low resistance for preventing fusion or injurious electrolytic action of, or on, gas or water pipes or other metallic pipes, structures or substances and for minimising as far as is reasonably practicable injurious interference with the electric wires, lines and apparatus of other parties and the currents therein, whether such lines do, or do not, use the earth as a return

(e) The undertakers using electric power contrary to the provisions of this license or to any of the regulations set forth in the said Act or to any regulation added thereto, or substituted therefor, by any order made by the Local Government under the authority of this license or of the said Act shall, for every such offence, be subject to a penalty not exceeding Rs 100 and also in the case of a continuing offence to a further penalty not exceeding Rs 50, for every day during which such offence continues after conviction thereof

Provided always, that whether such penalty has been recovered or not the Local Government, in case, in their opinion the undertakers, in the use of electric power under the authority of this license have made default in complying with the provisions of this license, or of the said Act or with any of the regulations aforesaid may, by order, direct the undertakers to cease to use electric power and thereupon the undertakers shall cease to use electric power, and shall not again use the same unless with the authority of the Local Government

(f) The undertakers shall take all reasonable and proper precautions in constructing, placing, and maintaining their electric lines circuits and other works of any description, and in using their electric lines, circuits and other works so as not injuriously to interfere with the working of any wire line or apparatus from time to time used for the purpose of transmitting electric power, or of telegraphic, telephonic, or electric signalling communication, or the currents in such wire, line, or apparatus

Provided, always, that the undertakers shall be deemed to take all such reasonable and proper precautions, as aforesaid if and so long as, they adopt and employ, at the option of the undertakers, either such insulated returns, or such uninsulated metallic returns of low resistance, and such other means of preventing injurious interference with the electric wires lines, and apparatus of other parties and the currents therein as the Local Government shall direct, and in giving such directions, the Local Government shall have regard to the expense involved, and to the effect thereof upon the commercial prospects of the undertaking

Provided, also, that at the expiration of two years from the date on which the undertakers commence the public supply of electric power under the terms of this license nothing in this sub-clause shall operate to give any right of action in respect of or to protect any electric wires, lines, or apparatus, or the currents therein, unless, in the construction, erection, maintaining and working of such wires, lines, and apparatus, all reasonable and proper precautions, including the use of an insulated return, have been taken to prevent injurious interference therewith, and with the currents therein, by or from other electric currents

If any difference arises between the undertakers and any other party with respect to anything in this sub-clause contained, such difference shall, unless the parties otherwise agree, be determined by the Local Government, or at the option of the Local Government, by an arbitrator to be appointed by the Local Government, and the costs of such determination shall be in the discretion of the Local Government, or of the arbitrator, as the case may be

(g) Nothing in this sub section shall apply to the use of any electric wire, circuit, or work, of the undertakers, used, or intended to be used, for the supply of energy for electric lighting purposes, or for the purpose of providing motive power for domestic use, so far as such use is limited to such purposes

Works

10 Subject to the provisions of this license and the Act, the undertakers may, from time to time, exercise all or any of the powers conferred on them by this license and the Act, and may break up such streets not repairable by the Local Government or by the local authority, and such railways, tram ways, and bridges (if any), as are specified in the third schedule, and open and break up any sewers, drains, or tunnels within, or under such streets, railways tramways and bridges, so far as such streets, railways, tramways, and bridges may, for the time being be included in the area of supply and be or be upon, land dedicated to public use provided however, as respects any such railway, that the powers hereby granted shall extend only to such parts thereof as pass across or along, any highway on the level

Power for execution of works.

Subject, as aforesaid, the undertakers may also, from time to time construct distributing boxes in any street for the purpose of supplying energy Every such distributing box shall be for the exclusive use of the undertakers and under their sole control, except so far as the Local Government may otherwise order, and shall be used by the undertakers only for the purpose of leading off service lines and other distributing conductors, or for examining, testing, regulating, measuring converting, directing or controlling the supply of energy, or for examining or testing the condition of the mains, or other portions of the works, or for other like purposes connected with the undertaking, and the undertakers may place therein meters, switches and any other suitable and proper apparatus for any of the above purposes and may maintain and use the same All work in connection with such distributing boxes shall be done at such times, and in such manner, as will cause as little obstruction and inconvenience as circumstances permit

11 The undertakers shall not without the express consent of the Local Government, place any electric line above ground, along over, or across any street

Prohibition of overhead wires

If the undertakers place any electric lines in contravention of this section, they shall be liable to a penalty not exceeding one hundred rupees for every such offence, and in the case of a continuing offence, to a further penalty not exceeding fifty rupees for every day, after the first day, during which such offence continues

11*a* Whenever the undertakers shall, with such consent as aforesaid, place any electric line above ground, along over, or across any street, they shall pay to the Corporation of Calcutta for every pole whereon such line shall be supported or carried along, over, or across such street, the annual rent of one rupee and for every tripod whereon such line shall be so supported or carried, as aforesaid, the annual rent of two rupees, such rent to be paid on the first day of January in every year without deduction

12 Where the exercise of any of the powers of the undertakers in relation to the execution of any works (including the construction of distributing boxes) will involve the placing of any works in, under, along or across any street or public bridge repairable by the Local Government or by the local authority, the following provision shall have effect —

Notice of works with plan to be served on the Local Government and local authority

(*a*) One month before commencing the execution of such works (not being the repairs renewals or amendments of existing works of which the character and position are not altered) the undertakers shall serve the notice upon the Local Government or the local authority, prescribed by section 7 of the Act describing the proposed works together with a plan of the works, showing the mode and position in which such works are intended to be executed, and the manner in which it is intended that such street or bridge, or any sewer drain, or tunnel therein or thereunder, is to be interfered with, and shall, upon being required to do so by the Local Government or the local authority from time to time, give it or them any such further information in relation thereto as it, or they, may desire

(*b*) The Local Government or the local authority may, in its or their, discretion, approve of any such works or plan, subject to such amendments or conditions as may seem fit, or may disapprove the same, and may give notice of such approval or disapproval to the undertakers

(*c*) If the Local Government or the local authority fail to give any such notice of approval or disapproval to the undertakers within one month after the service of the notice upon them, it, or they, shall be deemed to have approved such works and plan

(*d*) Notwithstanding anything in this license or the Act, the undertakers shall not be entitled to execute any such works as above specified, except so far as the same may be of a description, and in accordance with a plan which has been approved, or is to be deemed to have been approved, by the Local Government and the local authority as abovementioned, under this license, but where any such works and plan are so approved or to be deemed to be approved, the undertakers may cause such works to be executed in accordance with such plan, subject, in all respects, to the provisions of this license and of the Act

(e) If the undertakers make default in complying with any of the requirements or restrictions of this section, they shall (in addition to any other compensation which they may be liable to make under the provisions of this license or the Act, make full compensation to the Local Government and the local authority for any loss or damage which it, or they, may incur by reason thereof, and in addition thereto they shall be liable to a penalty not exceeding one hundred rupees for every such default and, in the case of a continuing offence to a further penalty not exceeding fifty rupees for every day after the first day during which such default continues provided that the undertakers shall not be subject to any such penalties as aforesaid if the court having cognizance of the case shall be of opinion that the case was one of emergency, and that the undertakers complied with the requirements of this section so far as was reasonable under the circumstances

For the purposes of this license the word ' plan ' shall be held to mean a plan drawn to a horizontal scale of at least 1 inch to 100 feet, and a section drawn to a vertical scale of at least 1 inch to 10 feet with such detail plan and section as may be necessary

As to breaking up streets not repairable by Local Government or local authority, railways and tramways

13 Where the exercise of the powers of the undertakers in relation to the execution of any works will involve the placing of any works in, under, along, or across any street, or part of a street not repairable by the Local Government or the local authority or over or under any railway, tramway or canal, the following provisions shall have effect, unless otherwise agreed between the parties interested --

(a) Fourteen days before commencing the execution of any such works (not being the repairs renewals or amendments of existing works of which the character and position are not altered), the undertakers shall in addition to any other notices which they may be required to give under this license or the Act serve a notice upon the body or person liable to repair such street or part of a street or the body or person for the time being entitled to work such railway or tramway, or the owners of such canal (as the case may be), in this section referred to as the 'owners' describing the proposed works, and stating the amount of compensation (if any), proposed to be made in respect thereof and the manner in which such compensation is proposed to be paid or secured, together with a plan of the works showing the mode and position in which such works are intended to be executed and placed, and shall, upon being required to do so by any such owners from time to time, give them any such further information in relation thereto as they may desire

(b) Every such notice shall contain a reference to this section, and direct the attention of the owners to whom it is given to the provisions thereof

(c) Within one month after the service of any such notice and plan upon any owners such owners may, if they think fit, serve a requisition upon the undertakers requiring that any question in relation to such works and any other question arising upon such notice or plan as aforesaid, shall be settled by arbitration and thereupon such question shall be settled by arbitration accordingly

(d) In settling any question under this section, an arbitrator shall have regard to any duties or obligations which the owners may be under in respect of such street railway, tramway, or canal and may if he thinks fit, require the undertakers to execute any temporary, or other works, so as to avoid any interference with any traffic, so far as may be possible

(e) Where no such requisition, as in this section mentioned is served upon the undertakers, or where after any such requisition has been served upon them any question required to be settled by arbitration has been so settled the undertakers may, upon paying or securing any compensation which they may be required to pay or secure in the manner proposed by them or settled by arbitration as aforesaid, cause to be executed the works specified in such notice and plan as aforesaid, and may, from time to time, repair, renew and amend the same (provided that their character and position are not altered) but subject in all respects, to the provisions of this license and the Act, and only in accordance with the notice and plan so served by them as aforesaid or such modifications thereof, respectively, as may have been settled by arbitration, as hereinbefore mentioned, or as may be agreed upon between the parties

(f) If the undertakers make default in complying with any of the requirements or restrictions of this section, they shall (in addition to any other compensation which they may be liable to make under the provisions of this license or the Act) make full compensation to the owners affected thereby for any loss or damage which they may incur by reason thereof, and in addition thereto they shall be liable to a penalty not exceeding one hundred rupees for every such default, and, in the case of a continuing offence, to a further penalty not exceeding fifty rupees for every day, after the first day, during which such default continues provided that the undertakers shall not be subject to any such penalties, as aforesaid, if the court having cognizance of the case shall be of opinion that the case was one of emergency, and that the undertakers

complied with the requirements of this section, so far as was reasonable under the circumstances

14 The undertakers may from time to time alter the position of any pipes (not forming part of any main sewer of the local authority), or any wires, being under any street or place authorised to be broken up by them which may interfere with the exercise of their powers under the Act or this license and any body or person may in like manner, alter the position of any electric lines or works of the undertakers being under any such street or place as aforesaid, which may interfere with the lawful exercise of any powers vested in such body or person in relation to such street or place, subject to the following provisions, unless otherwise agreed between the parties interested—

(a) Fourteen days before commencing any such alteration, the undertakers, or such body or person (as the case may be) in this section referred to as "the operators" shall serve a notice upon the body or person for the time being entitled to such pipes, wires, electric lines or works (as the case may be) in this section referred to as 'the owners' describing the proposed alteration and *stating the amount of compensation* (if any), proposed to be made in respect thereof, and the manner in which such compensation (if any) is proposed to be paid or secured together with a plan showing the manner in which it is intended that such alterations shall be made, and shall upon being required to do so by any such owners from time to time give them any such further information in relation thereto as they may desire

(b) Within seven days after the service of any such notice and plan upon any owners, such owners may if they think fit serve a requisition upon the operators requiring that any question in relation to such works, *or any other question arising upon such notice or plan, as aforesaid shall be settled by arbitration and thereupon such question shall be settled by arbitration accordingly*

(c) In settling any question under this section an arbitrator shall have regard to any duties or obligations which the owners may be under in respect of such pipes wires electric lines or works and may if he think fit require the operators to execute any temporary or other works so as to avoid interference with any purpose for which such pipes, wires, electric lines or works are used, so far as may be possible

(d) Where no such requisition as in this section mentioned is served upon the operators, the owners shall be held to have agreed to the notice or plan served on them as aforesaid and in such case or where, after any such requisition has been served upon them, any question required to be settled by arbitration has been so settled the operators, upon paying or securing any compensation which they may be required to pay or secure in the manner proposed by them or settled by arbitration as aforesaid, may cause the alterations specified in such notice and plan, as aforesaid to be made, but subject, in all respects, to the provisions of this license and the Act and only in accordance with the notice and plan so served by them, as aforesaid, or such modifications thereof respectively, as may have been settled by arbitration, as hereinbefore mentioned or as may be agreed upon between the parties

(e) At any time, before any operators are entitled to commence any such alterations as aforesaid, the owners may serve a statement upon the operators stating that they desire to execute such alterations themselves, and where any such statement has been served upon the operators, they shall not be entitled to proceed, themselves to execute such alterations, except where they have notified to such owners that they require them to execute such alterations, and such owners have refused, or neglected to comply with such notification, as hereinafter provided

(f) Where any such statement, as last aforesaid, has been served upon the operators, they shall, not more than forty eight hours, and not less than twenty four hours before the execution of such alterations is required to be commenced, serve a notification upon the owners stating the time when such alterations are required to be commenced, and the manner in which such alterations are required to be made

(g) Upon receipt of any such notification as last aforesaid the owners may proceed to execute such alterations as required by the operators, subject to the like restrictions and conditions as the operators would themselves be subject to in executing such alterations, so far as the same may be applicable

(h) If the owners decline, or, for twenty four hours after the time when any such alterations are required to be commenced, neglect to comply with such notification the operators may, themselves, proceed to execute such alterations in like manner as they might have done if no such statement, as aforesaid, had been served upon them

(i) Expenses incurred by any owners in complying with any notification of any operators under the last preceding sub sections shall be repaid to them by such operators and may be recovered through a court of competent jurisdiction

(j) Any owners may, if they think fit, by any statement served by them upon any operators under this section, require the operators to give them such security for the repayment to them of any expenses to be incurred by them in executing any alterations as abovementioned as may be agreed upon between such owners and operators or, in default of agreement as may be determined by arbitration and where any operators have been so required to give security they shall not be entitled to serve a notification upon the owners requiring them to execute such alterations until such security has been duly given

(l) If the operators make default in complying with any of the requirements or restrictions of this section they shall (in addition to any other compensation which they may be liable to make under the provisions of this license or the Act) make full compensation to the owners affected thereby for any loss, damage or penalty which they may incur by reason thereof, and in addition thereto they shall be liable to a penalty not exceeding one hundred rupees for every such default, and in the case of a continuing offence, to a further penalty not exceeding fifty rupees for every day after the first day during which such default continues provided that the operators shall not be subject to any such additional penalties as aforesaid if the Court having cognizance of the case shall be of opinion that the case was one of emergency and that the operators complied with the requirements of this section so far as was reasonable under the circumstances

Laying of electric line & near pipes of gas water and near sewers drains &c

15 Whenever the undertakers require to dig or sink any trench for laying down any new electric lines (other than service lines), or other works near to which any pipe, sewer drain water course defence or work under the jurisdiction or control of the Local Government or of any local authority, or belonging to any duly authorized Company or any branch or service pipe for the supply of gas or water has been lawfully placed or where any duly authorized Company requires to dig or sink any trench for laying down any new mains or pipes other than service pipes or other apparatus, near to which any lines or works of the undertakers have been lawfully placed, the undertakers or such duly authorized Company (as the case may be), in this section referred to as the "operators" shall unless otherwise agreed between the parties interested give to the Local Government, or local authority or to such duly authorized Company or to the undertakers (as the case may be), in this section referred to as the "owners" not more than forty eight hours', and not less than twenty four hours notice before commencing to dig or sink such trench as aforesaid, and such owners shall be entitled by their officer to superintend the digging or sinking of such trench and the operators shall conform with such reasonable requirements as may from time to time, be made by the owners or such officer for the protection of every such sewer drain, water course, defence pipe electric line, or work, and for securing the same from injury, and they shall also if required to do so by the owners thereof, repair any damage that may be done thereto

If the operators make default in complying with any of the requirements or restrictions of this section, they shall make full compensation to all owners affected thereby for any loss or damage which they may incur by reason thereof and in addition thereto, they shall be liable to a penalty not exceeding one hundred rupees for every such default, and, in the case of a continuing offence to a further penalty not exceeding fifty rupees for every day, after the first day during which such default continues provided that the operators shall not be subject to any such penalty if the court having cognizance of the case shall be of opinion that the case was one of emergency, and that the operators complied with the requirements and restrictions of this section, as far as was reasonable under the circumstances, or that the default in question was due to the fact that the operators were ignorant of the position of the sewer drain, water course, defence pipe electric line or work affected thereby, and that such ignorance was not owing to any negligence on the part of the operators.

16 Seven days before commencing to lay down, or place any electric line, or to use any electric line in any manner whereby the work of telegraphic or telephonic or electric signalling communication through any wire or line lawfully laid down, or placed in any position may be injuriously affected, the undertakers shall, unless otherwise agreed between the parties interested give to the owner of such wire or line, notice in writing, specifying the course nature and gauge of such electric line, and the manner in which such electric line is intended to be used, and the amount, and nature of the currents intended to be transmitted thereby and the extent to, and manner in which (if at all), earth returns are proposed to be used, and any owner entitled to receive such notices may, from time to time, serve a requisition on the undertakers, requiring them to adopt such precautions as may be therein specified in regard to the laying, placing or user of such electric line for the purpose of preventing such injurious affection, and the undertakers shall conform with such reasonable requirements as may be made by such owner for the purpose of preventing the communication through such wire or line from being injuriously affected as aforesaid

If any difference arises between any such owner and the undertakers with respect to the reasonableness of any requirements so made, such difference shall be determined by arbitration

Provided that nothing in this sub section shall apply to repairs or renewals of any electric line, so long as the course nature and gauge of such electric line, and the amount and nature of the current transmitted thereby are not altered

If the undertakers make default in complying with any of the requirements or restrictions of this section, they shall make full compensation to the body or person entitled to any such wire or line, for any loss or damage which they may incur by reason thereof, and, in addition thereto, they shall be liable to a penalty not exceeding fifty rupees for every such default, and, in the case of a continuing offence, to a further penalty not exceeding twenty rupees for every day, after the first day, during which such default continues provided that the undertakers shall not be subject to any such penalties as aforesaid if the court having cognizance of the case shall be of opinion that the case was one of emergency, and that the undertakers complied with the requirements and restrictions of this section so far as was reasonable under the circumstances, or that the default in question was due to the fact that the undertakers were ignorant of the position of the wires or lines affected thereby, and that such ignorance was not owing to any negligence on the part of the undertakers

Compulsory Works

Mains to be laid down in streets specified in schedule

17 The undertakers shall, within a period of two years after the commencement of this license lay down suitable and sufficient distributing mains for the purposes of general supply throughout every street, or part of a street, specified in that behalf in the second schedule and shall thereafter maintain the same

Mains to be laid down in remainder of area of supply

18 In addition to the mains specified in the last preceding section the undertakers shall, at any time after the expiration of eighteen months after the commencement of this order, lay down suitable and sufficient distributing mains for the purposes of general supply throughout every other street, or part of a street, within the area of supply, upon being required to do so in manner by this license provided

All such mains as last abovementioned shall be laid down by the undertakers within six months after any requisition in that behalf served upon them in accordance with the provisions of this license has become binding upon them, or such further time as may in any case, be approved of by the Local Government

If undertakers fail to lay down mains license may be revoked

19 If the undertakers make default in laying down any mains in accordance with the provisions of this license within the periods prescribed in that behalf respectively, they shall be liable to a penalty not exceeding fifty rupees in respect of each such default for each day during which such default continues, and, if the Local Government are of opinion in any case that such default is wilful, and unreasonably prolonged they may themselves or upon the application of the local authority revoke this license as to the whole, or with the consent of the undertakers, any part of the area of supply, or if the undertakers so desire, may, after having given an opportunity to the local authority to make representations and objections with reference thereto, suffer the same to remain in force as to such area or part thereof subject to such conditions as they may think fit to impose and any conditions so imposed shall be binding on and observed by, the undertakers and shall be of the like force and effect in every respect, as though they were contained in this license

Manner in which requisition is to be made

20 Any requisition requiring the undertakers to lay down distributing mains for the purposes of general supply throughout any street or part of a street, under the last preceding sections may be made by six or more owners or occupiers of premises along such street, or part of a street or, where the Local Government or the local authority has the control and management of the public lamps in such street, or part of a street by the Local Government or the local authority

Every such requisition shall be signed by the owners and occupiers making such requisition, or by the Local Government or the local authority (as the case may be) and shall be served upon the undertakers

Forms of requisition shall be kept by the undertakers at their office, and a copy shall be supplied free of charge, to any owner or occupier of premises within the area of supply, and to the Local Government and the local authority, on applying for the same, and any requisition so supplied shall be deemed valid in point of form

Provisions on requisition by owners or occupiers

21 When any such requisition is made by any such owners or occupiers, as aforesaid the undertakers (if they think fit) may, within fourteen days after the service of the requisition upon them, serve a notice on all the persons by whom such requisition is signed, stating that they decline to be bound by such requisition, unless such persons, or some of them, will bind themselves to take a supply of energy for three years, of such amount in the aggregate (to be specified by the undertakers in such notice), as will, at the rates of charge for the time being charged by the undertakers for a supply of energy from distributing mains to ordinary consumers within the area of supply, produce, annually, such reasonable

sum as shall be specified by the undertakers in such notice provided that, in such notice the undertakers shall not be requir d to specify any sum amounting to less than twenty per centum upon the expense of providing, and laying down, the r quired distributing mains and any other mains or additions to existing mains which may be n ce sary for the purpo e of connecting such di tributing mains with the nearest available source of supply

Where such notice is serv d, the requisition shall not be binding on the undertakers unless within fourteen days after the service of such notice n all the persons signing the requisition has been effected, or, in the case of differ nce the del very of the arbitrator's award, there be tendered to the undertakers an agreement severally executed by such persons or some of them binding them to take, for a period of three years at the least such specified amounts of energy, respectively as will in the aggregate at the rates of charge above specified, produce an annual sum amounting to not less than twenty per centum upon the expense of providing and laying down such distributing main, or other mains, as above mentioned nor unless sufficient security for the payment, to the undertakers, of all moneys which may become due to them from such persons under such agreement, is offered to the undertakers (if required by them by su h n tice is aforesaid) within the period limited for the tender of the agreement as aforesaid

If any difference arises between the undertakers and any pers ns signing any such requisition a to the reasonableness of the amount specified by the undertakers in their notice or as to the sufficiency of any security offered to them under the section such difference shall be determined by arbitration

22 Where any such requisition is made by the Local Government or the local authority it shall not be binding on the undertakers unless at the time when such service is effected or within fourteen days there after there be tendered to the undertakers (if required by them) an agreement executed by the Local Government or the local authority and binding them to take for a period of three year at the least, a supply of energy for lighting such public lamps in the street or part of a street in r spect of which such requisition is made as may be under their management or control

Provision [illegible] Government or local authority

23 The undertakers shall forthwith after commencing to supply energy under this licen e cause a map to be made of the area of supply on a horiz ntal scale of at least 1 inch to 100 feet and shall cause to be marked thereon the line of all their then existing mains, service lines and other underground works and distributing boxes and shall once in every year cause such map to be corrected and such additions to be made thereto as will show the line of all their then existing mains service lines and other underground works and distributing boxes

Map of area of supply to be made

24 Every map so made, or corrected for the undertakers, or a copy thereof with the date expressed thereon of the last time when it was so corrected, shall be kept by the undertakers at their principal office within the area of supply and a copy of every such map shall within one month after such map is made or corrected be served by the undertakers upon the Local Government and upon the local authority

Deposit and inspection of maps

Every copy of the said map, as last corrected, which may be served upon the local authority shall be kept by them at their office and shall at all reasonable times be open to the inspection of all applicants, and such applicants may take copies of the same or any part thereof The local authority may demand and take from every such applicant, as aforesaid such fee not exceeding one rupee for each inspection of such map or copy and such further fee not exceeding one rupee, for each copy of the same or any part thereof taken by such applicant, as they may, from time to time prescribe

25 If the undertakers fail to comply with any of the requirements of the last preceding section of this license with respect to maps they shall, for every such offence be liable to a penalty not exceeding one hundred rupees, and to a further penalty not exceeding twenty rupees for every day, after the first day during which such offence continues

Penalty on undertakers in respect of maps &c

Testing

26 The Local Government shall from time to time appoint and keep appointed one or more competent and impartial persons to be electric inspectors for the purpose of inspecting electric lines and works and of certifying meters under this order

Appointment of electric inspectors by Local Government

27 The Local Government shall pay to every electric inspector appointed under this license such reasonable remuneration (if any) as they may from time to time, determine, and such remuneration may be in addition to, or in substitution for, any fees which are directed to be paid to electric inspectors for services rendered by them under this license, as may be settled by the authority by whom such remuneration is determined provided that, where any such remuneration is settled to be in substitution for such fees as aforesaid, such fees shall in lieu of being paid to such electric inspector for his own use be due and paid to him on behalf, and for the use of the Local Government, and shall be deposited by them in the public treasury

Remuneration of electric inspectors.

28 Every electric inspector, if and when required to do so by the authority by whom he is appointed, shall, from time to time, test, for insulation and conductivity, any portion of any main of the undertakers within the area of supply through which energy is or is intended to be, supplied by them provided that such testings shall not be made in regard to any particular portion of a main oftener than once in any three months, unless in pursuance of a special order in that behalf made by the Local Government

Testing of mains

29 Every electric inspector if and when required to do so by any person supplied with energy by the undertakers, shall from time to time, test for insulation and conductivity any service lines by which such energy is supplied and the efficiency of any joints in such service lines, and make such other tests in relation to such service lines as may, from time to time, be approved of by the Local Government

Testing of service lines

30 Notice shall be given to the undertakers before the commencement of any testing by an electric inspector and such testing shall be carried out at such suitable hours as in the opinion of such inspector, will least interfere with the supply of energy by the undertakers, and in such manner as such inspector may think expedient, but except under the provisions of a special order in that behalf made by the Local Government, he shall not be entitled to have access to or interfere with, the mains of the undertakers at any points other than those at which the undertakers have reserved for themselves access to the said mains provided that the undertakers shall not be held responsible for any interruption in the supply of energy which may be occasioned by or required by such inspector for the purpose of any such testing as aforesaid

Mode of testing

31 Every electric inspector shall on the day immediately following that on which any testing has been completed by him under this license, make, and deliver, a report of the results of his testing, to the authority or person by whom he was required to make such testing and to the undertakers, and such report shall be receiveable in evidence

Report of results of testing

If the undertakers or any authority, company, or person are, or is, dissatisfied with any report of any electric inspector, they may appeal to the Local Government against such report, and thereupon the Local Government shall enquire into, and decide upon, the matter of any such appeal, and their decision shall be final and binding on all parties

32 The undertakers shall, at such places within a reasonable distance from any distributing main, establish, at their own cost such reasonable number of testing stations as the Local Government shall deem sufficient, for testing the supply of energy by the undertakers through such main, and shall place thereat proper and suitable instruments of a pattern to be approved by the Local Government and shall connect such stations, by means of proper and sufficient electric lines, with such mains, and supply energy thereto for the purpose of such testing

Undertakers to establish testing stations

33 The undertakers shall set up, and keep upon all premises from which they supply energy by any distributing mains such suitable and proper instruments of such pattern and construction as may be, from time to time, approved of, or prescribed by the Local Government, and shall, from time to time, take, and record, and keep recorded, such observations as the Local Government from time to time prescribe, and any observations so recorded shall be receivable in evidence

Undertakers to keep instruments on their premises

34 The undertakers shall keep in efficient working order all instruments which they are required by, or under this license, to place, set up, or keep at any testing station, or on their own premises, and any electric inspector appointed under this license may, from time to time, examine and record the readings of such instruments at such times, and in such manner as he may be directed by the authority by whom he is appointed, and any readings so recorded shall be receiveable in evidence

Readings of instruments to be taken

35 Any electric inspector appointed under this license shall have the right to have access, at all reasonable hours to the testing places and premises of the undertakers, for the purpose of testing the electric lines and instruments of the undertakers, and ascertaining if the same are in order, and in case the same are not in order, he may require the undertakers forthwith to have the same put in order

Electric inspector may test undertakers instruments

36 The undertakers may, if they think fit, on each occasion of the testing of any main or service line or the testing or inspection of any instruments of the undertakers by any electric inspector, be represented by some officer or other agent, but such officer or agent shall not interfere with the testing or inspection

Representation of undertakers at testings

37 All expenses of testing by an electric inspector, including such reasonable fees to the electric inspector as may, from time to time, be prescribed in that behalf by the local authority, with the approval of the Local Government, shall be paid by the undertakers, unless the report of the electric inspector, or in the case of an appeal, the decision of the Local Government, shows that the local authority, or any body or person supplied with energy, was guilty of any

Expenses of testing

default or negligence, and in such case the expenses of the testing including such fees as aforesaid, shall be ascertained by a court of competent jurisdiction and paid by such local authority body, or person, as the court shall direct

38 The undertakers shall afford all facilities for the proper execution of this license with respect to testing, and the readings and inspection of instruments and shall comply with all the requirements of or under this license in that behalf, and, in case the undertakers make default in complying with any of the provisions of this section they shall be liable to a penalty not exceeding fifty rupees, and in the case of a continuing offence to a further penalty not exceeding ten rupees for every day, after the first day during which such offence continues

Undertakers to give facilities for testing

39 If at any time, it appears to the Local Government that any mains, electric lines or works of the undertakers are defective and not in accordance with the regulations and conditions subject to which the undertakers are for the time being, authorized to supply energy under this license, the Local Government may, by order in writing, require the undertakers to remedy such defect, so as to comply with such regulations and conditions within such period as may be therein limited in that behalf, and if the undertakers make default in remedying such defect within the time so limited, they shall be liable to a penalty not exceeding two hundred rupees for every day during which such default continues provided that if such defect is in the opinion of the Local Government, dangerous to public safety, they may also, by any such order as aforesaid, forbid the use of such main, electric line, or work, from such date as may be specified in that behalf until the defect is remedied, and if the undertakers make use of any such main, electric line or work while the use thereof is so forbidden they shall be liable to a penalty not exceeding one thousand rupees for every day during which such uses continue

Remedying of defects in main &c

Supply

40 The undertakers shall, upon being required to do so by the owners or occupier of any premises situate within fifty yards from any distributing main of the undertakers in which they are for the time being required to maintain a supply of energy for the purposes of general supply to private consumers under this license, or any regulations and conditions subject to which they are authorized to supply energy under this license, give and continue to give, a supply of energy for such premises, in accordance with the provisions of this license, and of all such regulations and conditions as aforesaid, and they shall furnish, and lay, any electric lines that may be necessary for the purpose of supplying the maximum power with which any such owner or occupier may be entitled to be supplied under this license subject to the conditions following (that is to say), the cost of so much of any electric line for the supply of energy to any owner, or occupier as may be laid upon the property of such owner or in the possession of such occupier and of so much of any such electric lines as may be laid for a greater distance than sixty feet from any distributing main of the undertakers, although not on such property, shall be defrayed by such owner or occupier

Undertakers to furnish sufficient supply for owners and occupiers within the area of supply

41 Every owner or occupier of premises requiring a supply of energy shall

(a) serve a notice upon the undertakers specifying the premises in respect of which such supply is required and the maximum power required to be supplied and the day (not being an earlier day than a reasonable time after the date of the service of such notice) upon which such supply is required to commence and

(b) enter into a written contract with the undertakers (if required by them so to do) to continue to receive, and pay for, a supply of energy for a period of at least three years, of such an amount that the rent payable for the same at the rate of charge for the time being charged by the undertakers for a supply of energy to ordinary consumers within the area of supply shall not be less than twenty rupees per centum per annum on the outlay incurred by the undertakers in providing any electric lines required to be provided by them for the purpose of such supply, and give to the undertakers (if required by them so to do) security for the payment to them of all moneys which may, from time to time become due to them by such owner or occupier in respect of any electric lines to be furnished by the undertakers, and in respect of energy to be supplied by them

Provided, always, that the undertakers may, after they have given a supply of energy for any premises by notice in writing require the owner or occupier of such premises, within seven days after the date of the service of such notice, to give to them security for the payment of all moneys which may, from time to time, become due to them in respect of such supply, in case such owner or occupier has not already given such security, or in case any security given has become invalid, or is insufficient and in case any such owner or occupier fail to comply with the terms of such notice the undertakers may if they think fit discontinue to supply energy for such premises so long as such failure continues

Provided also, that if the owner or occupier of any such premises, as aforesaid uses any form of lamp or burner, or uses the energy supplied to him by the undertakers for any purpose or deals with it in any manner so as to unduly or improperly interfere with the efficient supply of energy to any other body or person by the undertakers, the undertakers may if they think fit, discontinue to supply energy to such premises so long as such user continues

Provided also that the undertakers shall not be compelled to give a supply of energy to any premises, unless they are reasonably satisfied that the electric lines fittings and works therein are in good order and condition and not calculated to affect injuriously the use of energy by the undertakers or by other persons

Provided also that in the event of any alterations of or additions to any electric lines fittings or works within such premises as aforesaid all such alterations or additions shall be notified to the undertakers by the occupiers before being connected to the source of supply with a view to their being examined and tested

If any difference arises between any such owner or occupier and the undertakers as to the reasonableness of the amount of any security required to be given, or as to the sufficiency of any security offered under this section or as to the improper use of energy or as to any alleged defect in any lines fittings, or works such difference shall be determined by arbitration

Maximum power.

42 The maximum power with which any such consumer shall be entitled to be supplied shall be of such amount as he may from time to time require to be supplied with not exceeding what may be reasonably anticipated as the maximum consumption on his premises

Provided that where any consumer has required the undertakers to supply him with a maximum power of any specified amount he shall not be entitled to alter that maximum except upon one month's notice to the undertakers and any expenses incurred by the undertakers in respect of the service lines by which energy is supplied to the premises of such consumer or any fittings or apparatus of the undertakers upon such premises consequent upon such alteration shall be paid by him to the undertakers and may be recovered summarily as a civil debt

If any difference arises between any such owner or occupier and the undertakers as to what may be reasonably anticipated as the consumption on his premises such difference shall be determined by arbitration

Supply for public lamps.

43 The undertakers upon receiving reasonable notice from the Local Government or the local authority requiring them to supply energy to any public lamps within the distance of seventy five yards from any distributing main of the undertakers in which they are for the time being required to maintain a current of energy for the purposes of general supply under this license or any regulation and conditions subject to which they are authorised to supply energy under this license, shall give and continue to give a supply of energy to such lamps in such quantities as the Local Government or the local authority may, from time to time require to be supplied

Penalty for failure to supply.

44 Whenever the undertakers make default in supplying energy to any owner or occupier of premises to whom they may be and are required to supply energy under this license, they shall be liable to a penalty not exceeding twenty rupees in respect of every such default for each day during which any such default occurs

Whenever the undertakers make default in supplying energy to the public lamps to which they may be, and are required to supply energy under this license, they shall be liable to a penalty not exceeding twenty rupees in respect of every such default for each such lamp, and for each day during which any such default occurs

Whenever the undertakers make default in supplying energy in accordance with the terms of any regulations and conditions subject to which they are authorised to supply energy under this license they shall be liable to such penalties as may, by such regulations and conditions be prescribed in that behalf

Provided, always that when such default is due to cyclones or floods, or storms, or other causes not under the control of or due to default of, the undertakers, no penalty shall be enforced if the undertakers show due diligence in resuming the supply

Provided that the penalties to be inflicted on the undertakers under this section shall in no case exceed in the aggregate, the sum of five hundred rupees in respect of any defaults not being wilful defaults, on the part of the undertakers for any one day, and provided also that in no case shall any penalty be inflicted in respect of any default if the court having cognizance of the case shall be of opinion that such default was caused by inevitable accident, or *force majeur*, or was of so slight or unimportant a character as not materially to affect the value of the supply

Price

Methods of charging.

45 The undertakers may charge for energy supplied by them to any ordinary consumer (otherwise than by agreement)—

(1) by the actual amount of energy so supplied, or

(2) by the electrical amount contained in such supply, or, unless the Local Government, from time to time, otherwise direct

(3) by the number of hours during which the supply of energy is actually used by such consumer and the maximum power with which he is, for the time being, entitled to be supplied

Provided that, before commencing to supply energy through any distributing main for the purposes of general supply the undertakers shall give notice to the Local Government and to the local authority, by what method they propose to charge for energy supplied through such main, and, where the undertakers have given any such notice they shall not be entitled to change such method of charging, except after one month's notice of such change has been given by them to the Local Government and the local authority, and to every consumer of energy who is supplied by them from such main

Provided, also that when the undertakers have given notice to any consumer of charging him by the number of hours, and the maximum power, in manner above described such consumer, if he objects to that method of charge may, by one months notice in writing require the undertakers to charge him by the actual quantity of energy supplied to him and thereafter the undertakers shall not, except with the consumer's consent, charge him by any other method

46 The prices to be charged by the undertakers for energy supplied by them shall not exceed those stated in that behalf in the fourth schedule in the first second and third sections thereof respectively

Maximum price

Provided that if the Local Government are of opinion that, or the local authority or the undertakers shall, at any time after the expiration of seven years after the commencement of this license make a representation to the Local Government that the prices or methods of charge stated in the said schedule ought to be altered the Local Government after such enquiry as they may think fit may make an order varying the prices, or methods of charge, in lieu thereof and the prices or methods of charge so varied or substituted shall have effect on and after such day as may be mentioned in the order as if they had been stated in the said schedule

Provided also, that the prices and methods of charge for the time being in force, may be altered, in like manner at any time after the expiration of any or every period of seven years after the same were last altered

47 Subject to the provisions of this license and of the principal Act, and the right of the consumer to require that he shall be charged according to some one or other of the methods above mentioned in cases where he is entitled to require a supply the undertakers may make any agreement with a consumer as to the price to be charged for energy, and the mode in which such charges are to be ascertained and may charge accordingly

Other charges by agreement

48 The price to be charged by the undertakers and to be paid to them for all energy supplied to the public lamps and the mode in which such charges shall be ascertained shall be settled by agreement between the Local Government or local authority and the undertakers as the case may be and, in the event of difference by arbitration regard being had to the circumstances of the case, and the distributing or other mains (if any) which may have to be laid for the purpose and the prices charged to ordinary consumers in the district

Price to public lamps

Meters and Apparatus

49 The energy supplied by the undertakers to any ordinary consumers under this license, or the electrical quantity contained in such supply (according to the method by which the undertakers elect to charge), in this license referred to as ' the value of the supply,' shall, except as otherwise agreed between such consumer and the undertakers be ascertained by means of an appropriate meter, duly certified under the provisions of this license

Meters to be used except by agreement

50 A meter shall be considered to be duly certified under the provisions of this license if it be certified by an electric inspector, appointed under this license, to be of some construction and pattern, and to have been fixed, and to have been connected with the service lines, in some manner approved of by the Local Government, and to be a correct meter, and every such meter is, in this order referred to as a "certified meter" provided that, where any alteration is made in any certified meter or where any such meter is unfixed, or disconnected from the service lines, such meter shall cease to be a certified meter, unless, and until, it be again certified as a certified meter under the provisions of this license

Meters to be certified

51 Every electric inspector who may be required by the undertakers, or by any consumer, to examine any meter for the purpose of certifying the same as a certified meter, under the provisions of this license, shall be entitled to demand, from the undertakers, or consumer, so requiring him, and to be paid, such fees as may, from time to time, be determined, in that behalf, by the Local Government, before commencing such examination, and every electric inspector shall, upon being required so to do by the undertakers, or any such consumer, as aforesaid, examine any meter situate within the district for which he is

appointed, if such fees are offered to him, as aforesaid, and shall certify the same as a certified meter if he considers it entitled to be so certified

52 Where the value of the supply is under this license, required to be ascertained by means of an appropriate meter the undertakers shall, if required so to do by the consumer, supply him with an appropriate meter and shall, if required so to do fix the same upon the premises of the consumer and connect the service lines therewith and procure such meter to be duly certified under the provisions of this license and for such purposes, may authorise and empower any officer or person to enter upon such premises, and execute all necessary works, and do all necessary acts provided that, previously to supplying any such meter, the undertakers may require such consumer to pay to them a reasonable sum in respect of the price of such meter or to give security therefor or may require him to enter into an agreement for the hire of such meter as hereinafter provided, and also to pay to them a reasonable sum in respect of the expenses of fixing such meter and connecting it with the service lines, and procuring the same to be certified under this license

Undertakers to supply meters if required

If any difference arises between the undertakers and any consumer under this section, such difference shall be determined by arbitration

53 No consumer shall connect any meter used, or to be used under this license, for ascertaining the value of the supply with any electric line through which energy is supplied by the undertakers, or disconnect any such meter from any such electric line, unless he has given, to the undertakers, not less than forty eight hours notice in writing of his intention so to do, and if any person acts in contravention of this section, he shall be liable for each offence to a penalty not exceeding twenty rupees

Meter not to be connected or disconnected without notice

54 Every consumer of energy supplied by the undertakers shall at all times, at his own expense, keep all meters belonging to him whereby the value of the supply is, under this license, to be ascertained, in proper order for correctly registering such value, and, in default of his so doing the undertakers may cease to supply energy through such meter

Consumer to keep his meter in order

The undertakers shall have access to, and be at liberty to take off remove, test inspect, and replace any such meter at all reasonable times provided that all reasonable expenses of, and incident to any such taking off, removing testing, inspecting, and replacing and the procuring such meter to be again duly certified where such recertifying is thereby rendered necessary, shall if the meter be found to be not in proper order, be paid by the consumer but if the same be in proper order all expenses connected therewith shall be paid by the undertakers

55 The undertakers may let for hire any meter for ascertaining the value of the supply and any fittings thereto, and any other apparatus required for their undertaking, for such remuneration in money, and on such terms, with respect to the repair of such meter or apparatus and fittings and for securing the safety and return, to the undertakers, of such meter or apparatus and fittings as may be agreed upon between the hirer and the undertakers or in case of difference be decided by the Local Government, and such remuneration shall be recoverable by the undertakers summarily as a civil debt

Power to undertakers to let meters

56 The undertakers shall unless the agreement of hire otherwise provides, at all times, at their own expense, keep all meters let for hire by them to any consumer, whereby the value of the supply is ascertained, in proper order for correctly registering such value and, in default of their so doing the consumer shall not be liable to pay rent for the same during such time as such default continues The undertakers shall, for the purposes aforesaid, have access to and be at liberty to remove, test, inspect and replace any such meter at all reasonable times provided that the expenses of procuring any such meter to be again duly certified, where such recertifying is thereby rendered necessary, shall be paid by the undertakers

Undertakers to keep meters let for hire

57 If any difference arises between any consumer and the undertakers as to whether any meter, whereby the value of the supply is ascertained (whether belonging to such consumer or the undertakers), is or is not, in proper order for correctly registering such value, or as to whether such value has been correctly registered in any case by any meter, such difference shall be determined, upon the application of either party by an electric inspector, or, where the Local Government are the consumers, by an officer to be appointed by the Local Government, who shall also order by which of the parties the costs of the proceedings before him shall be paid and the decision of such inspector or officer shall be final and binding on all parties Subject, as aforesaid, the register of the meter shall be conclusive evidence, in the absence of fraud, of the value of the supply

Differences as to correctness of meter to be settled by inspector or Local Government officer

58 Where any consumer, who is supplied with energy by the undertakers from any distributing main, is provided with a certified meter for the purpose of ascertaining the value of the supply and the undertakers change the method of charging for energy supplied by them from such main, the undertakers shall pay to such consumer the reasonable

Undertakers to pay expenses of providing new meters where method of charge altered

expenses to which he may be put in providing a new meter for the purpose of ascertaining the value of the supply according to such new method of charging and such expenses may be recovered by the consumer from the undertakers summarily as a civil debt

Undertakers may place meters to measure supply or to check measurement thereof

59 In addition to any meter which may be placed upon the premises of any consumer to ascertain the value of the supply the undertakers may from time to time, place upon his premises such meter, or other apparatus, as they may desire, for the purpose of ascertaining or regulating either the amount of energy supplied to such consumer, or the number of hours during which such supply is given or the maximum amount of such supply or any other quantity or time, connected therewith provided that such meter shall be of some construction and pattern and shall be fixed and connected with the service lines in some manner approved by the Local Government and shall be supplied and maintained entirely at the cost of the undertakers and shall not except by agreement, be placed otherwise than between the mains of the undertakers and the terminals on the consumer s premises at which the supply is given

Notices, &c

Notices &c may be printed or written

60 Notices, orders and other documents under this license may be in writing, or in print, or partly in writing and partly in print and where any notice order or document requires authentication by the local authority, the signature thereof by the Chairman or Secretary to the local authority shall be sufficient authentication

Service of notices &c

61 Any notice, order, or document, required or authorised to be served upon any body or person under this license or the Act may be served by the same being addressed to such body or person and being left at, or transmitted through the post to, the following addresses respectively —

(a) In the case of the Local Government, the office of the Secretary in the Public Works Department

(b) In the case of any local authority the office of such local authority

(c) In the case of the undertakers, or any other Company having a registered office, the registered office of the undertakers, or such Company

(d) In the case of Company having an office, or offices, but no registered office, any such office

(e) In the case of any other person, the usual or last known place of abode of such person

Where any notice is served by post, it shall be deemed to have been served at the time when the letter containing the notice would be delivered in the ordinary course of post, and, in proving such service, it shall be sufficient to prove that the letter containing the notice was properly addressed and put into the post

A notice order, or document, by this license required, or authorised to be served on the owner, or occupier of any of the premises, shall be deemed to be properly addressed if addressed by the description of the owner or occupier ' of the premises (naming the premises) without further name or description

A notice, order, or document by this license required, or authorised to be served on the owner, or occupier, of premises, may be served by delivering the same or a true copy thereof, to some person on the premises, or if there is no person on the premises to whom the same can with reasonable diligence, be delivered, by fixing the notice on some conspicuous part of the premises

Termination of license by efflux on of time

61A If this license shall not be renewed at the end of the said period of 21 years, for which it is hereby granted, the following provisions shall have effect —

(a) The local authority, or the Local Government, if they think fit, may, by notice in writing require the undertakers to sell, and thereupon the undertakers shall sell to them, the undertaking or such part of it as is within the area of supply, upon terms of paying the then value of all lands building , works materials, and plant of the undertakers suitable to and used by them for the purposes of the undertaking within such area, or part thereof such value being agreed, or estimated by arbitration, on the basis of the value of the undertaking as a going concern

(b) If no purchase is effected by the Local Government or the local authority, under the provisions aforesaid, the undertakers shall be at liberty to sell and dispose of the said undertaking and all lands, buildings, works, materials, and plant, of the undertakers, to such persons and in such manner as, to the undertakers, may seem fit, in their absolute discretion

(c) If no purchase or sale shall be effected, the provisions of clause 65 (e) and (f) shall take effect, so far as they are applicable to the circumstances of this present clause (61A)

Revocation of license

Revocation of license where undertakers are insolvent

62 If, at any time, after the commencement of this license the local authority make a representation to the Local Government, or the Local Government themselves are of opinion that the undertakers have made any default in executing works or supplying energy in accordance with the terms of this license, and that such default is in consequence of the insolvency of the undertakers, and that by reason of such insolvency the undertakers are unable, fully and effectually, to discharge the duties and obligations imposed upon them by this license, the Local Government shall enquire into the truth of such representation and if, upon such enquiry, they are satisfied of the truth of such representation they shall, upon the application of the local authority, or at their own discretion, revoke this license as to the whole, or, with the consent of the undertakers, as to any part of the area of supply

Revocation of license where undertaking cannot be carried on with profit

63 If, at any time, after the commencement of this license, the undertakers represent to the Local Government or the Local Government are of opinion that the undertaking cannot be carried on with profit, and ought to be abandoned, the Local Government shall enquire into the truth of such representation and if, upon such enquiry they are satisfied of the truth of such representation they may, if in their discretion they think fit, revoke this license as to the whole, or (with the consent of the undertakers and of the local authority) as to any part of the area of supply

Revocation of license with consent

64 In addition to any other powers which the Local Government may have in that behalf they may revoke this license at any time with the consent and concurrence of the undertakers and the local authority of the area (if any), upon such terms as the Local Government may think just

Provisions where license revoked

65 If the Local Government at any time revoke this license as to the whole, or any part of the area of supply, under any of the provisions of this license, the following provisions shall have effect —

(a) The Local Government shall serve a notice of such revocation upon the undertakers, and upon the local authority of the area (if any) and shall, in such notice fix a date at which such revocation shall take effect, and, from and after such date, all the powers and liabilities of the undertakers under this license for the supply of energy within such area or part thereof, as aforesaid shall absolutely cease and determine

(b) Within one month after the service of such notice by the Local Government the local authority or the Local Government, if they think fit, may, by notice in writing, require the undertakers to sell and thereupon the undertakers shall sell to them, the undertaking or such part of it as is within such area, or part thereof, as aforesaid upon terms of paying the then value of all land, buildings works materials and plant of the undertakers, suitable to, and used by, them for the purposes of the undertaking within such area, or part thereof, such value being agreed or estimated by arbitration, on the basis of the value of the undertaking as a going concern

(c) Where no purchase is effected by the Local Government or the local authority under the provisions of the last sub section, and any other local authority, company, or person is willing to purchase the undertaking, or such part of it, as aforesaid, the Local Government, if they think fit may, with the consent of the undertakers or without the consent of the undertakers, in case the price is not less than that for which the Local Government or the local authority might have purchased the same under this section, direct that the undertaking, or such part thereof, as aforesaid shall be so transferred

(d) Where any purchase is effected or any transfer is directed under the preceding provisions of this section, the undertaking or part thereof, so purchased or transferred, shall vest in the purchasers or transferees thereof, freed from any debts, mortgages, or similar obligations of the undertakers, or attaching to the undertaking and the revocation of this license, as to the whole of the area of supply, or such part thereof, as aforesaid, shall extend only to the revocation of the rights powers, authorities, duties and obligations of the undertakers from whom the undertaking, or such part thereof, as aforesaid, is purchased or transferred, in relation to the supply of energy within such area, or part thereof, and, save, as aforesaid, this license shall remain in full force within such area, or part thereof, in favour of the Local Government, or local authority, company, or person, by, or to, whom such undertaking, or part thereof, is purchased or transferred, as aforesaid

(e) Where no purchase has been effected, and no transfer has been directed under the preceding provisions of this section, the Local Government, the local authority, or any body or person, who may be liable to repair any street, or part of a street, in which any works of the undertakers may have been placed, may forthwith remove such works with all reasonable care, and the undertakers shall pay, to the Local Government, the local authority, or other such body

or person as aforesaid such reasonable cost of such removal, and of the reinstatement of such street, or part of a street as may be specified in a notice to be served on the undertakers by the Local Government the local authority or other body or person, or, (if so required by the undertakers, within one week after the service of such notice upon them), as may be settled by arbitration

If the undertakers fail to pay such reasonable costs, as aforesaid, within one month after the service upon them of such notice or the delivery of the award of the arbitrator (as the case may be, the Local Government, the local authority or other such body or person, as aforesaid may without any previous notice to the undertakers, (but without prejudice to any other remedy which they may have for the recovery of the amount) sell and dispose of any such works as aforesaid, either by public auction or private sale and for such sum or sums and to such person or persons as they may think fit, and may out of the proceeds of such sale, pay and reimburse themselves the amount of the costs so specified or settled, as aforesaid and of the costs of sale, and the balance (if any) of the proceeds of the sale shall be paid over by them to the undertakers

(f) In case the Local Government, the local authority or any body or person may be entitled to compensation for any damage sustained by them by reason, or in consequence, of the execution of any works within such area or part thereof as aforesaid or the exercise of any powers, by this license granted to the undertakers or for any expenses to which such local authority, body or person may have been put in removing any works of the undertakers within such area or part thereof under the provisions of this license such compensation shall be a first charge on any money that may have been deposited or secured, by the undertakers under the provisions of this license, in respect of such area or part thereof, and which may not have been repaid or released to the undertakers, and such money shall be applied rateably in satisfying such claims, and in every such case the amount of compensation to be paid in respect of the various claims, and the persons to whom it is to be paid, shall be determined by arbitration

General

66 Where any consumer is required under this order to give security to the undertakers, such security may be by way of deposit or otherwise and of such amount as he and the undertakers agree on or as in default of agreement may be determined on the application of either party by a court of competent jurisdiction, which may also order by which of the parties the costs of the proceedings shall be paid and the decision of the said court shall be final and binding on all parties provided that where any such security is given by way of deposit the undertakers shall pay interest at the rate of five rupees per centum per annum on every sum of ten rupees so deposited for every six months during which the sum remains in their hands

Proceedings where approval of Local Government is required

67 Where the approval or consent of the Local Government is given in any case, or where the Local Government makes any order or gives any notice under the provisions of this license or revokes this license, such approval or consent shall be signified, or such order shall be made, or notice given, or revocation made by writing, under the hand of one of the Secretaries or Under Secretaries of the Local Government

Costs of applications for approval or consent of Local Government

68 All costs and expenses of or incident to, application for any approval consent, or order of the Local Government, including the cost of the tests (if any) which may be required to be made by the Local Government for the purpose of determining whether the same should be given or made shall be borne and paid by the applicant or applicants therefor provided, always that where any approval is given by the Local Government to any plan pattern, or specification, they may require such copies of the same as they may think fit, to be prepared, and deposited at their office, at the expense of the said applicant or applicants, and may from time to time, as they think fit, revoke any approval so given, or permit such approval to be continued, subject to such modifications as they may think necessary

Notice of approval of Local Government &c to be given by advertisement

69 Where the Local Government, upon the application of the undertakers give any approval or grant any extension of any time limited for the performance of any duties by the undertakers, or where the Local Government, at their own discretion, or upon the application of the local authority revoke this license as to the whole, or any part of the area of supply notice that such approval has been given or such extension of time granted or such revocation made shall be published, by public advertisement, once, at least in each of two successive weeks in some one and the same local newspaper, by the body by whom such application is made, as aforesaid

70 Where any application is made to the Local Government to extend any time limited for the performance of any duties by the undertakers, notice of such application shall be served on the local authority of the area (if any) by the undertakers, and an opportunity shall be given to such local authority to make representations or objections with reference thereto

Notice of application for extension of time &c to be given to local authority

71 All penalties under this license, the recovery of which is not otherwise specially provided for, may be recovered through a court of competent jurisdiction

Recovery of penalties

72 The undertakers shall be answerable for all accidents, damages and injuries happening through the act or default of the undertakers or of any person in their employment by reason of or in consequence of, any of the undertakers works, and shall save harmless all authorities, bodies and persons by whom any street is repairable, and all other authorities, companies and bodies collectively, and individually and their officers and servants from all damages and costs, in respect of such accidents damages, and injuries

73 The undertakers shall not be at liberty to sell the undertaking or any part or parts thereof without the sanction of the Local Government who shall be entitled to call for, and shall be furnished with, all information they may desire to have relating to, or connected with any proposed sale or the negotiations therefor provided that nothing in this clause shall affect the provisions of clauses 60 or 74

74 Nothing in this license shall prevent the undertakers borrowing money on the security of mortgages of the undertaking or shall make the consent or approval of the Local Government or local authority necessary to the validity or effect of any such mortgage provided that every mortgage of the undertaking shall be deemed to comprise all purchase money which may be paid to the undertakers in the event of any sale or transfer of the undertaking or of any part thereof, under this license and that any mortgage granted by the undertakers shall not be a charge upon the undertaking or any part thereof, in the event of the undertaking or such part being purchased or transferred, as aforesaid and that every mortgage deed granted by the undertakers shall be endorsed with notice to that effect

As to mortgages

75 Nothing in this license shall authorise the undertakers to lay or place any electric line or works in the River Hooghly or affect in any manner the powers of privileges of the Commissioners of the Port of Calcutta

Saving clause as to River Hooghly

76 Nothing in this license shall exonerate the undertakers from any indictment, action or other proceedings for nuisance in the event of any nuisance being caused by them

Undertakers not exempted from proceeding for nuisance

77 Nothing in this license shall exempt the undertakers, or their undertaking from the provisions of, or deprive the undertakers of the benefits of any general Act relating to electricity, which may be passed by the Bengal or Imperial Legislative Council

[illegible] to General Act

78 All questions which under the terms of this license, are to be submitted to arbitration at any time during the subsistence of the license shall be decided by any one person who may be agreed upon by the parties in difference but if they cannot so agree then by a committee of three persons one to be nominated by the undertakers, a second by the other party to the difference, and the third being an independent person selected by the two nominees The decision of the majority shall prevail and be final when all three members are appointed If either party shall neglect, or fail to appoint its member of the committee within 30 days after the happening of the difference or if the two members appointed by the parties hereto shall neglect or fail within the next succeeding 15 days after the expiration of the aforesaid 30 days to appoint the third member, then all questions which would have been raised, or have come before the said committee for decision, shall be decided by such person as the Lieutenant Governor of Bengal may nominate and the decision of such person shall in that case, be final, and binding absolutely, on both parties

FIRST SCHEDULE

(Description of the Area of Supply)

THE area of supply comprises those portions of the town of Calcutta and its suburbs which are included within the several boundaries following namely —

(1) *Northern portion—*

West —A line drawn along high water mark on the bank of the River Hooghly

North —A line drawn from the River Hooghly along the centre of the Foundry Road and the Dum Dum Road up to the Barrackpore Trunk Road

East —A line drawn along the centre of the Barrackpore Trunk Road and the Barrackpore Bridge

South —A line drawn along the centre of South Circular Road and the western end of Bagbazar Street up to the River Hooghly

(2) *North Eastern portion—*

West —A line drawn along the centre of Upper Circular Road from Balliaghatta Road to the Barrackpore Bridge

North and East —A line drawn along high water mark on the west bank of the Circular Canal

South —A line drawn along high-water mark on the north bank of the Balliaghatta Canal, and thence along the centre of Shibtola Road and Balliaghatta Road (west portion) up to Upper Circular Road

(3) *South Eastern portion—*

West —A line drawn along the centre of Russapagla Road

North —A line drawn along the centre of Beltola Road, Hajra Road (north portion) Ballygunge Circular Road (south portion) and Teeljulla Road

East —A line drawn along the boundary of the Diamond Harbour Branch of the Eastern Bengal State Railway up to its junction with the Budge Budge Branch thence along the boundary of the Budge Budge Branch of the said Railway up to the Ghurrea Hat Road, and thence along the centre of the Ghurrea Hat Road

South —A line drawn along the centre of Mollakat Hat Road up to the Russapagla Road

(4) *South Western portion—*

North —A line drawn along high water mark on the bank of the River Hooghly

East —A line drawn from the River Hooghly along the boundary of the Port Trust land to Garden Reach Road and thence along the centre of Garden Reach Road, Metapooker Lane Circular Garden Reach Road and the Western Boundary Road up to the Shahpur Road

South and West —A line drawn along the centre of the Shahpur Road Circular Garden Reach Road and Matiabruj (or Biotali) Ghat Road up to the River Hooghly

SECOND SCHEDULE

(*List of Streets and parts of Streets, throughout which the undertakers are to lay distributing mains within a period of two years after the commencement of this license*)

South Circular Road (Gailiff Street western portion)
Cossipore Road (southern end up to Foundry Road)
Barrackpore Trunk Road (southern end up to Dum Dum Road)
Belgatchya Road (from Circular Road to Circular Canal western bank)
Hulsee Bagan Road
Manicktolla Street (from Circular Road to Circular Canal, western bank)
Gas Street
Balliaghatta Road (from Circular Road to Circular Canal western bank)
Sealdah Station Road

THIRD SCHEDULE

(*List of Streets not repairable by the Local Government, or by the local authority also Railway and Tramways which may be broken up by the undertakers in pursuance of the special powers granted by this license*)

All the streets for which powers are granted are repairable by one or other of the above bodies

Railways —Such portion of the following sections of the Eastern Bengal State Railway as are included within the area defined in the first Schedule, viz, the Chitpore, Northern, Diamond Harbour, and Budge Budge Branches
The Port Commissioners Railway
The Municipal Railway
The British India Steam Navigation Co's Line
The Upper Hooghly Jute Mills Line
Tramways —The Calcutta Tramways Co, Ltd

FOURTH SCHEDULE

THE term 'unit, as used in this schedule shall be deemed to mean the energy contained in a current of one thousand ampères flowing under an electro motive force of one volt during one hour

Section 1

Where the undertakers charge any consumer by the actual quantity of energy supplied to him, they shall be entitled to charge him at the following rates per quarter —For any quantity up to twenty units, rupees twenty only, and for each unit over twenty units, annas twelve only

Section 2

Where the undertakers charge any consumer by the electrical quantity contained in the supply given to him, they shall be entitled to charge him according to the rates set forth in section 1 of this schedule the quantity of energy supplied to him being taken to be the product of such electrical quantity and the standard pressure at the point of junction of the distributing mains, and the service lines by which he is supplied

Provided that, where the undertakers system involves a transformation of the energy supplied on the consumer s premises, the quantity of energy supplied to him may be taken to be the product of such electrical quantity and the standard pressure on the undertakers mains divided by the number expressing the ratio of the transformation employed

Section 3

Where the undertakers charge any consumer by the number of hours during which he actually uses his supply, they shall be entitled to charge him at the rates specified in section 2 of this schedule the quantity of energy supplied to him being calculated on the supposition that the consumer uses the maximum power specified by him under the provisions of this license during all the hours that he has used the supply

IRRIGATION DEPARTMENT

The 2nd April 1901

No 112 —Declaration —Whereas it appears to the Lieutenant Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose viz, for a channel in the village of Madpore pargana Dhekiabazar zilla Midnapore it is hereby declared that for the above purpose a piece of land measuring more or less, 4 bighas 1 cottah 4 chitaks of standard measurement bounded on the north and south by the paddy lands of Soudamini Dassi and Mohendra Nath Pal on the east by a bank of Distributary No 1 and on the west by the paddy lands of Raja Norendra Lal Khan, is required within the aforesaid village of Madpore

This declaration is made under the provisions of section 6 of Act I of 1894, to all whom it may concern

A plan of the land may be inspected in the office of the Executive Engineer Cossye Division, Midnapore

[Third Publication]

The 16th March 1901

No 85 —Notification —In exercise of the powers conferred on him by section 78 of Act III (B C) of 1876 the Hon ble the Lieutenant Governor of Bengal proposes to make the following alterations in the existing rates charged for water supplied from the Sone Canals for hot weather irrigation, under Schedule No IV in Rule 75 of the Revised Water rate Rules for the Sone Canals The revised rates will be applicable to irrigation effected during the hot weather season of 1902 and subsequent years —

SCHEDULE IV

Season Leases—Hot weather

EXISTING RATES			PROPOSED INCREASED RATES

R B BUCKLEY,
Secy to the Govt of Bengal

RAILWAY DEPARTMENT

The 2nd April 1901

No 49R—Notification—The following is published for general information The opinions of the Bengal Government on the report will be submitted to the Government of India

D JOSCELYNE,
Secy to the Govt of Bengal

No 53C S

FROM B K. FINNIMORE, ESQ
Secretary, Calcutta Central Station Committee,

TO THE SECRETARY TO THE GOVERNMENT OF BENGAL,
PUBLIC WORKS DEPARTMENT

Dated Calcutta, the 11th March 1901

SIR,

I AM instructed to make the following report on the part of the Committee appointed to consider the question of erecting a permanent bridge over the Hooghly, and of establishing a Central Railway Station in Calcutta

2 The Committee, when appointed, consisted of the following members —

The Hon ble Mr G Toynbee	President
Mr E Cable Bengal Chamber of Commerce	Members
" John Gemmell, Bengal Chamber of Commerce	Members
Babu Kally Nath Mitra Corporation of Calcutta	Members
Mr A A Apcar, Port Commissioner	Members
" H E Elworthy, Trades Association	Members
" J Ghosal, National Chamber of Commerce	Members
Babu Joy Gobind Law, C I E, British Indian Association	Members
Major J Dyson, I M S, Sanitary Commissioner, Bengal	Members
Mr J Douglas, East Indian Railway	Members
" T R Wynne, Bengal Nagpur Railway	Members
Major W V Constable, R E, Eastern Bengal State Railway	Members
Mr E Staples Bengal Central Railway	Members
" J C Geddes, Howrah Amta Light Railway	Members
" E R Gardiner	Secretary

Subsequently the following changes were made —

On Mr Toynbee's retirement, Mr P Nolan was appointed President

On Mr Cable's departure for Europe in March 1900, Mr McKewan was appointed in his place

While Mr Douglas was on three months' leave, Mr Stone was appointed to act for him in April 1900

While Mr Wynne was away for three months in 1900, Mr Beckett acted for him

On Major Constable going on furlough in April 1900, first Mr Harry Stuart, then Mr Lightfoot, and lately Mr H P Burt acted for him

When Mr Gardiner went on leave in August 1900, Mr Finnimore was appointed Secretary in his place

At the present time, the following gentlemen constitute the Committee —

The Hon'ble Mr Nolan	President
Mr McKewan, Bengal Chamber of Commerce	Members
" John Gemmell, Bengal Chamber of Commerce	Members
Babu Kally Nath Mitra Corporation of Calcutta	Members
Mr A A Apcar, Port Commissioner	Members
" H E Elworthy, Trades Association	Members
" J Ghosal, National Chamber of Commerce	Members
Babu Joy Gobind Law, C I E, British Indian Association	Members
Major J Dyson, I M S, Sanitary Commissioner, Bengal	Members
Mr J Douglas, East Indian Railway	Members
" T R Wynne, Bengal Nagpur Railway	Members
" H P Burt, Eastern Bengal State Railway	Members
" E Staples, Bengal Central Railway	Members
" T C Geddes, Howrah Amta Light Railway	Members
" B K Finnimore	Secretary

3 The Committee regret the delay which has occurred in the completion of their work They met for the first time on the 24th April 1899, and on the 11th of the following month reported to Government that the information laid before them in the form of plans and estimates was insufficient, but that they were ready to submit such a report as they could on the materials supplied, if it were considered better to do so than to await the additional figures called for, and those which they proposed to collect The decision of Government was in favour of further enquiry It will be understood that the scheme to be examined was that of a Syndicate formed in London, and that the Committee expected this body to supply such details as would render professional examination possible The Syndicate declared themselves quite ready to do so, if reasonable expectation were afforded of the adoption of their proposals, but as such encouragement was not given, they did not, in fact, supply the materials wanted Under the circumstances, the Committee did not think it necessary to spend money on local enquiries as to the value of land to be acquired, &c, which would have supplied but a portion of the data requisite

4 The Committee are strongly impressed by the representation of the advantages which would attend the connection by railway of the two termini in Calcutta, that at Howrah, on the right of the river, and that at Sealdah on the left bank Towards these the lines of the west and south of India, and those of East and North Bengal, respectively, converge, and it seems high time that the two systems should be united Passenger traffic is impeded by the fact that the existing stations are on the outskirts of the town, so that the multitude of clerks and other employés who come daily to Calcutta have to make their way to the business quarter as best they can Anything done for their convenience would facilitate trade and the work in public offices it would also bring profit to the railways by increasing traffic in this form The Syndicate in their report also draw attention to the following considerations in favour of such a measure —

(1) The advent of the East Coast and Bengal Nagpur Railways, and the necessity for connecting them by a direct unbroken line of Railway with Calcutta and the Docks, thereby saving the risk, expense and delay of working all their goods traffic by a wagon ferry, which can be worked by daylight only

(2) The necessity of completing the proposed East Indian Railway Burdwan Howrah Chord, or the quadrupling of the existing line, or the alternative Bankura Howrah line, whichever may be decided upon by its natural connection with the Jetties and Docks, *via* the Permanent Bridge and the Junction Railway

(3) The provision of space at Howrah for the necessary extension of the goods depôt there

(4) The connection of the Howrah Mart with the Jetties and Docks by a direct line of rails, necessary to facilitate the export trade, *e g*, by the prompt supply of produce required to complete cargoes, when direct shipment of goods from up country may fail to arrive in time, obviating demurrage, and the delay and expense of boating produce from Howrah to the Docks

(5) The separation of passenger from goods traffic, a necessity long since recognised in all cities of commercial importance, thereby obviating confusion in the main thoroughfares and the inconvenience of passengers having to cross all carted goods at Howrah

Projects for the purpose have been frequently put forward a scheme similar to that of the Syndicate's was approved by a representative Committee and by a Committee of Engineers in 1882

5 For the purpose of connecting the two termini, three plans have been suggested, each possessing distinct advantages The first is that of the Syndicate, which, as has been stated, is practically the same as that approved by the General Committee in 1882 It is for a line through the heart of the city, any nearly direct, with a bridge near to that now in use, and a Central Railwad Station designed to receive the bulk of the passengers to Calcutta, from whatever point they come The Committee at its first meeting resolved that, financial considerations apart, this plan is the best They have approved the site of the bridge and that of the railway station also the general direction of the

railway, as given in the revised scheme of the Syndicate No exception has been taken to any part of the proposed work

6 But the expense of this project will be very heavy, much greater than the Syndicate contemplated when they first proposed to carry it out The original estimate was for Rs 1,50,00,000, the second for Rs 3,46,00,000, the third for Rs 4,12,50,000, while the professional member of the Committee who has examined the subject advises that the cost will not be less than Rs 7,22,00,000 The Syndicate at first asked for aid in the form of a toll of 1½ pies per maund on all goods traffic, excepting minerals, received at, or despatched from, all Calcutta stations of the connected railways, including the Kidderpore Docks This toll was to be taken from the goods indicated whether they used the new railway or not The proposal, which at first sight appears strange, has been justified by reference to the fact that a toll of two pies a maund was imposed by Government under Bengal Act IX of 1871 for the building of the existing bridge at Howrah, that no increase was made in the railway rates when it was put on, and no reduction when it was taken off, so that it was paid by these companies without any burden upon trade The precedent has also been quoted of the Kidderpore Docks toll At a subsequent stage, as the estimates rose in amount, the Syndicate reported that they would also require a Government guarantee of 2½ per cent income on the outlay

7 The Committee are distinctly opposed to levying a toll for the construction of the railway bridge and central station on goods which are not conveyed over any of these works To do so appears to be unreasonable The precedent of 1871 is, indeed, in favour of such a course but it is to be remembered that the toll then imposed was objected to by the Chamber of Commerce the Port Commissioners and the Select Committee of the Legislative Council Moreover, it never took effect in the sense to which the objection of the Committee applies, that is by being really imposed on the goods, for the railways paid it

8 If the proposed toll be abandoned the funds for the work would be most naturally supplied by the railways This is, indeed, the intention of the Syndicate It seems to the Committee perfectly fair to require that the Companies, which undertake to convey goods and passengers to Calcutta, shall do so in a manner suitable to the requirements of traffic, and they believe that there is nothing in the financial position of the railways which suggests that they should be exempted from the operation of this rule And if the railways are to pay, it follows that they should have in their hands the control of the works The claim of the Syndicate to preference on the ground that the scheme is of their devising is met by the fact that the project is nearly as old as the Calcutta Railways, it was examined by a Committee in 1863, and, as has been stated, by two Committees in 1882

9 Unfortunately the representatives of the railways have a decided objection to undertaking the work In view of this fact, it was proposed that if they declined to do so, the toll, which forms the financial basis of the scheme when given into the hands of any other agency, should be approved, with the proviso that the payments should be made out of the general revenue of the railways, and not by any special impost on the goods On this motion the division was as follows —

For	Against
Mr Gemmell Bengal Chamber of Commerce	Mr Lightfoot, Eastern Bengal State Railway
„ Apcar, Port Commissioner	Wynne Bengal Nagpur Railway
„ McKewan, Bengal Chamber of Commerce	Babu Joy Gobind Law, British Indian Association
„ Elworthy, Trades Association	„ K N Mitter, Corporation of Calcutta
„ Nolan, President	Mr J Ghosal, National Chamber of Commerce
	„ Finnimore, Secretary

10 In the face of the reluctance of the railway authorities either to carry out the project or supply the Syndicate with the means of doing so, the Committee see little chance of the scheme in its entirety being sanctioned for immediate execution Under the circumstances, it seems desirable to fall back on the

second of the plans under consideration, that of constructing the bridge and connecting railways in the manner indicated by the Syndicate, but with platform stations only This would obviate a great part of the proposed expenditure, the part saved being that as to the estimate of which there is the greatest uncertainty, namely, the acquisition of land in the heart of the town It would always be possible to add to the project the building of a central station, should this be found necessary meanwhile the greater part of the advantages contemplated would be obtained at a cost on the payment of which by the railways Government might properly insist

11 Messrs Gemmell, Apcar, McKewan and Elworthy thought that a line such as that described might most conveniently be constructed in connection with the proposed new railway from Bankura to Howrah It is well known that some thing has to be done to relieve the congestion on the lower sections of the East Indian Railway, but whether this should be effected by opening out the alterna tive route indicated, or by increasing the permanent way of the existing line, some of the Committee are unable to say In any case, they consider that a scheme for facilitating communications between Howrah and Sealdah has merits of its own, quite independent of those which may attend a project to be carried out elsewhere

12 If the financial objection should prove fatal even to this reduced form of the original scheme, there remains that of a bridge at Cossipore, and a railway by this suburban route, connecting Howrah and Sealdah As pointed out by Mr Wynne, a bridge at Cossipore would be much cheaper than one at Armenian Ghat, as it need not be so raised as to be adapted to the passage of ships, and the river is narrower The land would cost very much less It would, moreover, be more acceptable to the section of the public which dreads the disturbance of householders in their possessions, and the smoke and noise incidental to a central line The Committee were so far unanimous on the subject that out of nine members present, six were in favour of the route, if the other could not be used, while the remaining three found that if there is to be a bridge anywhere in Calcutta, it should be at Cossipore

13 The Government of Bengal have put a number of specific questions to the Committee These are replied to in Appendix I attached to the report

14 The observations or dissents which have been submitted by Mr Wynne, Mr Douglas, Mr Ghosal and Babu Joy Gobind Law are printed in Appendix II

I have the honour to be,

SIR,

Your most obedient servant,

B K FINNIMORE,

Secretary, Calcutta Central Station Committee

APPENDIX I

Replies to the questions put by the Government of Bengal in a Resolution, dated the 12th April 1899, and a letter No 135T—R, dated the 18th June 1900

QUESTIONS	ANSWERS
1 Is it desirable to build a second bridge over the Hooghly ?	Yes.
2 If so, at what site ?	That assigned by the Syndicate is the most convenient, Cossipore is the cheapest. The matter is explained in the Committee's report
3 Whether a Central Passenger Station or marginal stations would be most convenient ?	A Central Passenger Station would be the most convenient
4 Whether the site and area selected by the Syndicate are the best for a Central Station ?	Yes, the amended selection
5 Whether the sum of Rs 1,96,50,000 is considered sufficient to cover the cost of the scheme proposed by the Syndicate ?	No The Syndicate admit that they have increased the estimate for the works originally proposed to be executed to Rs 2,32,96,000, and for what is now thought desirable their estimate is Rs 4,12,50 000 The only expert on the Committee who has recorded an opinion gives reasons for considering all the estimates too low, and he calculates that the cost of the works originally estimated will be Rs. 2,74,25,000, that of the whole project Rs. 7,22,00,000
6 Whether the proposal to execute the scheme through an independent Company should be accepted	No
7 Whether the levying of a toll as proposed by the Syndicate, that is, a toll including goods which do not pass over the new route, is suitable ?	No
8 Whether the means by which it is proposed to construct the new street are to be recommended ?	No
9 Generally, whether the project is one which is likely to be beneficial ?	No, not the Syndicate's project, as it includes arrangements to which the Committee object
10 Could a bridge with its Central Station, Central Railway, including approaches and junctions, be constructed for 275 lakhs ?	Mr Wynne considers the estimate under the mark, but the details supplied are not sufficient to enable the Committee to check the figures fully Mr Wynne's observations are appended to this report
11 Could a roadway or avenue for the purpose of the railway be made for 150 lakhs ?	Probably not The Syndicate in their note of the 20th September 1900 observed that the Municipal Act provides that the value of property subdivided in an insanitary manner shall be taken not on the rack rent, but on the assessment This is not quite correct, ordinary values are, under the Act, based on the assessment, the special provision for land used for a purpose unlawful, or contrary to public policy, is that the value shall be estimated as if the land were used for ordinary purposes And the Act is relevant only when the land is acquired by the Municipality
12 Would a toll on goods at 1¼ pies per maund yield 6½ lakhs ?	Yes, the income is estimated by the Committee at 11 lakhs.
13 Would a toll on coal using the bridge and on parcels bring in 1¼ lakhs ?	Uncertain.
14 Would the proposed toll on passengers yield 4½ lakhs ?	No toll has been proposed on passengers, but it has been assumed that they will pay fares at double the ordinary rate The Committee do not object to the estimate, the data for it are unknown
15 Is the estimate of 8½ lakhs for rentals of sorts supported by reasonable estimates ?	No, it is conjectural. Moreover, the proposed buildings are contrary to provisions of Rule 2, Schedule XVII of Calcutta Municipal Act of 1899 Clive Street at the points where the proposed buildings are to be erected is not more than 30 to 40 feet wide.

QUESTIONS	ANSWERS
	Under Rule 2, Schedule XVII, dwelling houses, which these blocks are intended to be, should not be more than 30 to 40 feet high They are proposed to be five to six storeys high Block A to be five storeys, each 14 feet 6 inches high or 72 feet 6 inches in height, and the others to be six storeys, each 12 feet or 72 feet high Under Rule 40 of Schedule XVII each dwelling room must be 10 feet from floor to the under side of beams it is obvious, therefore, that the blocks cannot be more than three storeys high This will reduce the estimated receipts by one half 2 The new streets shown in the plan are about 25 feet wide under section 356 the width should not be less than 40 feet 3 Under Schedule XVII, Rule 6 4 feet must be left between the building and the street alignment This has not been done in the proposed blocks 4 It is doubtful how far the proposed bridges contravene the spirit, if not the letter, of section 340 of the Act
16 Is the tax on passengers legitimate ?	The Committee are not aware of a proposal to tax passengers
17 Are the Committee satisfied with the new design of the bridge ?	The Committee note the strong approval of Mr Apjohn, and have nothing to say against the design
18 Whether the Central Railway scheme is really wanted at present or in the near future ?	Yes
19 Whether the scheme of tolls proposed is a legitimate means of financing it ?	No
20 Whether the Syndicate's figures are sufficiently approximate to make the scheme a practical one ?	No
21 Whether on the basis of these figures the three railways are willing to contribute to the entire scheme ?	No
22 Whether the Committee recommend a Government guarantee ?	The work should be carried out by the three railways concerned on the terms usual in the case of extensions Owing to the close connection of the railways with the State, this implies financial responsibility to Government, but not what is generally called a guarantee

APPENDIX II

1 Note by MR WYNNE, Agent, Bengal Nagpur Railway
2 „ „ „ DOUGLAS, Agent, East Indian Railway
3 „ „ „ J GHOSAL representing the National Chamber of Commerce
4 „ „ BABU JOY GOBIND LAW, C I E, representing the British Indian Association

1 Mr Wynne s Note

THE proposals of the Syndicate as originally put forward consisted of two separate schemes—

(a) A Railway connecting Howrah with Sealdah with a junction line to the Port Commissioner s Railway including a bridge over the Hooghly at Howrah

(b) An Avenue, called Woodburn Avenue, through which the Railway was to run

The financial arrangements to carry out (a) were based on all the three Railways concerned agreeing to pay a special toll on all goods they carried to and from Calcutta

To carry out (b) the Government of India were asked to sell the land required for the Avenue to a Company for sixty lakhs of rupees If the cost of the land and compensation exceeded this amount, the Corporation were to pay the difference

The Syndicate s second proposals were practically the same as the first with the design of the bridge across the Hooghly altered

The Syndicate s third proposals now under considerati on are also practically the same as regards works to be carried out Where the difference comes in is that the method under which the scheme is to be financed is altered, and Woodburn Avenue is made a part of the Central Railway Scheme, instead of being a proposal to be carried out by a separate Company, with certain liabilities to be borne by the Corporation

	Rs
The cost of the original scheme was estimated at	1,50,00,000
The cost of the scheme under consideration is estimated at	4,12,50,000

The difference in the method put forward for raising the money for the first, second and third proposals is as follows —

The Revenue required to meet the interest on the cost of the first and second pro posals was to be derived from a special toll on all goods carried to and from Calcutta and Howrah by the East Indian Railway, Eastern Bengal State Railway and Bengal Nagpur Railway

In the third proposal now being considered this special toll is still to be levied, but as this will not be nearly sufficient to produce the Revenue necessary to show the scheme is a sound one the Government of India are asked to give some form of guarantee, as the calculations on which two thirds of the Revenue are estimated were such as "would render it difficult to place the undertaking on the English market without some form of guarantee"

The gross Revenue to be earned by an expenditure of Rs 4,12 50,000 of capital is estimated at Rs 19,55,855 Of this sum, only Rs 6,30,855 is a fairly certain asset, and represents the special toll on the Railways

The balance of Revenue (Rs 12,25,000) is conjectural and, as pointed out in the Syndicate's letter of the 29th August 1899, "is not susceptible of verified calculations"

As the three Railways declined to accept the original proposal based as it was on their paying a special toll on all goods, whether they crossed the bridge or not, it is clear the estimated Revenue of Rs 6,30,855 from the toll cannot be relied on

Practically, therefore, the scheme, if it is carried out, must be made by capital, all raised under guarantee The Syndicate admit this for two thirds of the capital (see paragraph 14) The balance with the Railways declining to commit themselves to pay the special toll must obviously be provided for in the same way Under paragraph 9 they appear to ask for a guarantee for the whole capital

As regards the three Railways concerned, therefore the situation has altered

If the scheme is to be carried out by capital raised under the guarantee of the Government of India and the Railways are freed from any liability of having to pay a special toll on all their goods in and out of Calcutta, and any liability to have to meet the guaranteed interest charges, they can have no objection to the construction of a Central Railway and bridge across the Hooghly at Howrah

It is obviously of advantage from the Railway s point of view to have a second Railway bridge across the Hooghly if they had not got to pay for it while at the same time securing its use for any one of their traffic that may want to use it

Whether such an expenditure of capital would be justified is for the Government of India to say, as they would be liable to have to meet the interest charges on all the capital expended

The offer of the Syndicate, in paragraph 9 of their letter of the 29th August 1899, to undertake the work at a cost of 2¾ million sterling is of no value

Should the works cost more than 2¾ millions, Government would have no option but to agree to guarantee the extra capital required to finish the works

If they declined to assist in raising more capital, they would be in the position of having to pay interest on all the capital that had been spent, and the incomplete works would repay nothing in return

To make such an undertaking of any value, the Syndicate would have to deposit as security a sufficiently large sum of money to cover any possible exc ss over the estimate, and this sum would have to be deposited outside the capital raised under the Government of India's guarantee, a piece of financing it is hardly likely the Syndicate would face

If the scheme is to be carried out by a guarantee, it alters its character at once, and becomes one of the many Railway schemes that the Government of India is being constantly pressed to carry out with its own resources It may be called private enterprise, but it is not so

The effect of the guarantee is to bring it within the Railway programme which governs the amount of money either actually provided or raised by guarantee that may be annually spent by the Government of India on Railway projects

The only point on which this Committee can advise, therefore if a guarantee is to be given is the position of the scheme in relation to the various other demands of the trade of Bengal on the Government of India for increased Railway facilities

There are many projects connected with Bengal that are of urgent importance I may mention a few—

(a) Better communication between the coal fields and place of export
(b) Increase of rolling stock to Railways
(c) Extensions of the Eastern Bengal State Railway
(d) Alternative route to the North West Provinces
(e) Opening out of Chota Nagpur

The Government of India have claims from all parts for a share of its capital or credit for expending on Railways in India

The point for this Committee to decide, therefore, is whether they would place this scheme in the front rank of all Railway schemes in which Calcutta and the Trade of Bengal is interested and if they would recommend it as a project to be undertaken by Government before any of the other projects in which Bengal is interested are put in hand

To my mind the Central Railway project belongs to a class of scheme that, every one will admit, would be very useful if carried out, but which financial consideration would not justify

Every one would admit that it would be an excellent thing to clear all the bustees out of Calcutta, and build model buildings for the people It would be difficult to raise money for this purpose, however useful the project may be

A system of overhead lines running to and connecting all parts of Calcutta would be a great convenience Its cost would be prohibitive

The Central Railway Scheme is in the same category It has also the strong argument against it that a connection already exists between the Howrah and Calcutta sides of the river at Hooghly, and so will not provide a facility that does not at present exist Trade has at present access to the Calcutta side by the Jubilee Bridge at Hooghly, and is not hampered for want of Railway communication between one side of the Hooghly or the other

Great stress is laid in paragraphs 16 and 17 of the Syndicate s letter of the 29th August on the vital importance of the project in maintaining the present use of the Howrah station as the produce mart of Calcutta It is claimed the Central Railway will save the cost, damage and delay of the present system of unloading all goods at Howrah reloading into boats, and boating them down the river to the Docks

To meet this difficulty the Port Commissioners have spent a very large sum of money in providing grain sheds at the Docks where grain can be bought, sold, sampled, rebagged and tallied whether its ultimate destination is for export or local consumption

If the grain is not sold at the Docks, it can be sent to the owner's godowns by the Port Commissioners railway or boated by the boat canal as may be desired

We therefore have, as the chief argument for the Central Railway Scheme, the necessity for keeping up the present system of business at Howrah when large sums of money are now being spent practically by Government to do away with Howrah and the present system of business there as much as possible

With regard to the suggestion made in the Histories of Railway Projects compiled for the Viceregal Conference papers of 1899, on which I understand the Committee are asked to express their views

The suggestion made is that the construction of the Central Station and the proposed Avenue should be deferred, and only the permanent bridge be constructed at present, the three Railways interested, viz, the East Indian, Eastern Bengal and Bengal Nagpur taking up the projects as a joint work It must obviously be also intended to include the connection between the bridge and Sealdah To make the bridge only would be of no use

It is further suggested, "if this were done, the money would probably be readily forth coming, and an immediate profit would be secured if the bridge were made part of a project for a line from Howrah to Bankura. The line would be about 95 miles long, and run on the left bank of the Roopnarain river, and with an estimated cost of one crore for the line and 2½ crores for the bridge and its approaches, the scheme would cost approximately 3½ crores, the interest on which at 3 per cent. would be ten and a half lakhs of rupees Assuming the new line to earn Rs 200 per mile per week net, Rs 9 9 lakhs would be available towards the 10½ lakhs, and the balance might be made up by a toll on foot passengers and other traffic crossing the bridge on the road"

The value of this suggestion as a commercial transaction depends on whether the estimated cost of the project is a reasonable one or not. On referring to the suggestion, it

will be noticed that the Bankura-Howrah line is to be constructed to avoid the necessity of the Burdwan Howrah chord or quadrupling the line between Sitarampore and Howrah

The Bankura-Howrah line must therefore, be a double line Its length is put at 95 miles It cost at one crore of rupees, or Rs 1,05,273 a mile This is the cost of a single line only

Again, in calculating the earnings of the project, it is proposed to make up the deficiency of interest by placing a toll on the new bridge Part of the scheme, therefore is to close the present free road bridge at Howrah, and substitute one on which tolls are to be paid by all passengers and traffic using it

I will now endeavour to make an estimate of —

(a) The cost of the Bankura Howrah line constructed as a double line

(b) The cost of bridge and connection with Sealdah

In 1890 Mr Horace Bell made a reconnaissance and report on the line from Purulia to Howrah via Bankura His estimate was for a single line and he put the cost of the project at Rs 1 95,00,000 for 147 miles, or Rs 1,32,000 a mile Between Bankura and Howrah the Damooda river has to be crossed. In the area the line would have to run across the Damooda river spills all over the country side, the width, according to Mr Bell, varying from 3 to 7½ miles with water from 3 to 11 feet deep Out of the total estimate of Rs 1,95 00,000 he calculates Rs 47,32 000 would be spent on crossing the Damooda and its spill flood in a distance of about 6¼ miles

Further Mr Bell makes the following remarks —

"It will thus be seen that the crossing of this river is very far from being, as represented by the promoters of an extension of the Tarkesser line, an obstacle that can be 'easily and cheaply provided for, and it may even be doubted whether with this heavy expenditure this line could be held to be absolutely free from the risk of breach or serious damage in a heavy flood

In addition to the Damooda river, the Roopnarain has also to be crossed before Howrah is reached

Mr Bell estimated the cost of a single line from Purulia to Howrah at Rs 1,32 368 a mile the section from Purulia to Bankura presenting no particular difficulties For a double line this would be Rs 2 64 000 a mile approximately

In the light of Mr Bell s remarks and figures I have quoted as to the cost of bridging the Damooda I would put not the cost of a double line from Bankura to Howrah at not less three three lakhs of rupees per mile, or for 95 miles a sum total of Rs 2 85,00,000

Next as to (b), the cost of the proposed bridge and connection with Sealdah

When dealing with the cost of the Syndicate s proposals at the previous meetings of the Committee I estimated the cost of the project, excluding the cost of building Woodburn Avenue, at 621 lakhs of rupees

The portions of the original project it is proposed should be excluded from the scheme proposed in the Histories of Railways are—

(1) The connection between the Central Railway and the Port Commissioners' line

(2) The Central Station

I estimate the following deductions on this account —

	Rs
Viaduct to Port Commissioners Railway	4,00,000
Land for " , "	25,00,000
Junction arrangements with Port Commissioners' line	20,00,000
Land for Central Station	1,00,00,000
Central Station	50,00,000
Total	1,99,00,000

Whether anything should be deducted for interest paid out of capital during construction and establishment and Home charges depends on the exact way in which the money is raised

The suggestion made in the Histories of Railways is that the money required could be readily raised by the Railways who were to carry out the scheme

No money could be raised for the scheme without a Government guarantee as the financial arrangements of the Railway Companies now stand Raised under these terms, the Government of India would have to bear the cost of the interest payable during construction and the fairest way would, no doubt be to place this as a debit against capital

No deduction can be made therefore on that account

With regard to establishment and Home charges, there would be some debits for this, and the cost of survey will all have to be paid for

The figure 30 lakhs I previously estimated for may be reduced, perhaps to 20 lakhs

Against this deduction, however, must be noted that, in my original estimate I only allowed Rs 25,00,000 as the cost of the Railway share of the land for Woodburn Avenue As the cost of the land for that project was to be provided for by a separate Company, my estimate of Rs 25,00,000 being merely an allowance for the right of the Railway to use the Avenue

Though the scheme under consideration does not contemplate the construction of an Avenue like the Harrison Road with the Railway running down the centre of it yet it requires that a cut should be made right through the site of Woodburn Avenue in order to carry the line to Sealdah

The exact area of land required cannot be taken up, as properties are so irregular and it will be necessary to take up a considerably larger area than is actually needed

I would put the cost of the land for this cut at Rs 40,00 000, viz, Rs 15,00 000 more than I originally allowed

Although it is not proposed to have a large Central station, it is clear some station must be provided

I would put the cost of this at, say ten lakhs of rupees with its land, &c

The total cost of the Bridge and connection with Sealdah, including a small intermediate passenger station, I estimate at—

	Rs	Rs
Original estimate of scheme		6,12 00 000
Deduct for works not to be carried out	1 99,00,000	
Less cost of Home charges and establishment, &c	10,00,000	
		2,09,00 000
		4 03,00,000
Added additional cost of land for Railway alongside of Woodburn Avenue		15,00 000
Passenger Station		10,00,000
Total cost of the scheme as per suggestion in the Histories of Railways		4,28,00,000

I adhere to the figures of my original estimate as a basis, because it appears to me that no new plans have been prepared for this third proposal and because I find that the Syndicate have increased their latest estimate for precisely the same works as before from Rs 1,86 50 000 to Rs 2,74,25,000 excluding the new thoroughfare

The value of estimates which jump from Rs 1 86 50 000 to Rs 2 74 25 000 simply because the figures were subjected to general criticism shows on what very insecure foundation they were based and how likely they are to be enormously exceeded when the scheme had actually to be carried out

Following now the calculations of the probable financial results of the 'suggestion on the figures I have deduced we get these results —

	Rs
Cost of the Bankura Howrah double line	2,85,00,000
Cost of Howrah Bridge and connection with Sealdah	4,38,00 000
Total cost of the 'suggestion"	7,13 00,000

Interest at 3 per cent on Rs 7,13,00 000 is Rs 21 39 000

To earn this 21 lakhs the cost of working has to be added

The up keep of the bridge and viaducts will be a heavy item

I would put the working expenses at close on 50 per cent of the gross receipts

On this basis 40 lakhs would have to be earned yearly to secure a net result of Rs 21 39 000, so that a 3 per cent dividend might be paid

This would require gross receipts of Rs 800 a mile a week

The East Indian Railway at the present moment during the busiest time they have ever had are earning Rs 800 a mile a week

It is not clear where the traffic is coming from that would enable the "suggestion" scheme to earn the same results

The scheme will rely for its traffic on the diversion of existing traffic from the East Indian Railway and any additional traffic of the future The diversion of traffic from East Indian Railway must reduce the earnings of that railway and the amount of new traffic required to earn 3 per cent on an expenditure of 7 crores will be very large indeed

Admitting that relief is required to the present East Indian Railway traffic, the chief item of traffic that requires to be dealt with is coal

As at present arranged all export coal seeks the Docks Whether any new depot for loading export coal at some other site than the Docks will be eventually created is, at the present moment, uncertain Until this is settled, it would seem wise to hesitate committing the State to a scheme that may not be suitable

Looking at it from the point of view of the coal traffic, the expenditure of 422 lakhs to get coal from Howrah to the Docks does not seem justified, as coal has at present a straight run to the Docks *via* the Jubilee Bridge.

In conclusion, for the reasons I have given, I propose the following resolution —

1 That the Committee are of the opinion that the Syndicate's proposals will cost a larger sum than they estimate

2 That however useful the scheme might be, they do not think it would return a reasonable dividend on its cost

3 That it is doubtful the three Railways would join in undertaking to carry out the scheme suggested in the "History of Railways," as the probable financial return would not justify their doing so

4 That there are many schemes it would be more in the interests of the trade of Bengal to have carried out in preference to the construction of the Central Railway Project as at present put forward

T R WYNNE
Agent and Chief Engineer,
Bengal Nagpur Railway

CALCUTTA
March 1900

2—Mr Douglas Note

I DESIRE to add the following remarks to the report of the Committee—

As a joint passenger station at Howrah for the East Indian and Bengal Nagpur Railways has already been sanctioned and is in course of construction a second such station as he proposed central station would practically be is I consider unnecessary and the outlay such a station would entail would be altogether unjustifiable It is by no means certain that a central station would be any more convenient for the general requirements of the passenger traffic to be served than the station at Howrah

As to paragraphs 4 and 5 of the report I would point out that the cost of a bridge and a railway to connect the Howrah and Sealdah termini would be exceedingly large, and I fail altogether to see what advantages the connection would secure that would be in any way at all commensurate with the cost of the scheme It seems clear the proposal would merely be a first instalment of the complete central railway and station project

In my opinion no reliance can be placed on any of the figures of cost given in paragraph 6 of the report To ascertain any figures which could be used with any confidence in such a case would need careful and exhaustive inquiry by independent experts, and this the Committee as constituted was, I consider, altogether unable to make

The 2nd March 1901 J DOUGLAS

3—Mr Ghosal's Note

CALCUTTA CENTRAL RAILWAY SCHEME

In this connexion we have to consider three main proposals which are as follows —

I The erection of a second Railway bridge over the Hooghly at Howrah

II The construction of a Railway line connecting the bridge with the railways on both sides of the river, and running through the centre of the city

III The building of a Central Passenger Station within the heart of Calcutta

I Let me first take up the question of the desirability of *a second permanent railway bridge over the Hooghly* *Why* should it be constructed? What is its *utility* or *necessity*? The reason is not far to seek Such a bridge will facilitate the communication between the coal fields and the docks, by providing another direct unbroken line of railway For the wagon ferry at Shalimar to be worked by the B-N Railway, cannot be said to be a very desirable arrangement, as it involves a great deal of risk, expense, and delay Thus in the case of B N R trains, it would obviate the necessity of travelling an extra 48 miles *via* Hooghly and Naihati to the docks It would also prevent interruption to passenger traffic, should the existing Floating Bridge at Howrah fail Moreover, should any accident happen to the Jubilee bridge at Hooghly—and the possibility of such an accident is already apprehended by certain persons—the traffic across the river would not altogether be stopped if there is an alternative railway bridge It may be mentioned here that about ten years ago Major Smith placed before the public a series of calculations showing the grounds on which he considered the present Jubilee bridge at Hooghly not safe Mr Molesworth the then Consulting Engineer to the Government of India was, in consequence, appointed to report upon the matter, and though he supported Mr (now Sir) Bradford Leslie so far as to say that a certain amount of elasticity was necessary for the safety of the bridge itself, he at the same time directed that the speed of trains while passing over the bridge should be regulated by running them slowly From this it was evident that Mr Molesworth too considered that there was some cause of apprehension Since the construction of the Bridge a heavy shoal or foreshore has formed on the left bank of the river, thus contracting the waterway and consequent scouring of the bed To guard against this evil heaps of ballast are being pitched into the bed from time to time and apprehension of central piers being undermined is still entertained by some professional men

Note by Mr J H Apjohn on Hunter's proposal last paragraph

Letter of the Deputy Conservator to the Port Commissioner dated 28th April 18J8

But if the construction of such a bridge be decided upon the next question is *Where* should it be erected? What is the most convenient and desirable *site*? I cannot decide in favour of Howrah for a bridge, especially a permanent railway bridge at that place would not be so safe being more liable to cyclonic and tidal disturbances as one higher up the river In this connexion we may consider the dangers apprehended by Captain E W Petley, Deputy Conservator of the Port of Calcutta, who says— my long experience with the river and its bed leads me to say that in the interest of the port I will press upon the Commissioners to resist all they can such a dangerous experiment to the port If a bridge is to be built let it be taken some distance higher up, certainly above the northern limits of the port ' The bridge would have to be on a very high level and consequently the lines connecting it with the Railways on both sides of the river would have to be constructed on an equally high level and this would be not only highly expensive but a source of great inconvenience to passengers, as the height of the platforms of the proposed central station from the street would be unusually great

Mr Wynne s opin n in the proc d ings f the 10th m eting

For these reasons, as well as for other reasons to be mentioned below, Chitpore appears to supply the most suitable site for the bridge The cost of a bridge below Chitpore would be much less than that of one below Howrah, as the latter will require much bigger spans than the former Also the bridge, if erected at Chitpore, could be most easily connected with the Eastern Bengal State Railway which extends right up to the bank of the river at that place while a short line running from Sulkea to Howrah, and constructed at a comparatively cheaper cost, would connect it with E I and B N Railways When Sir Bradford Leslie launched the project of the Jubilee bridge Mr Duff Bruce who was then Engineer to the Calcutta Port Trust published a pamphlet showing that for such a bridge Chitpore was a much better site than Hooghly or any other place But the advantages of having the bridge at Chitpore will be more obvious when we proceed to consider—

II The second proposal viz, *the construction of a central line running through the heart of the town, and connecting the bridge with the railways on both sides of the river* Now,

Paragraph 13 of the letter from the Secretary to the British Indian Association to the Secretary to the Government of Bengal dated the 4th October 1882

Paragraph 6 of the letter from Mr Turnbull Secretary to the Corporation of Calcutta to the Secretary to the Government of Bengal Public Works Department dated the 12th December 188

apart from the enormous outlay which it will involve is such a central line desirable from a sanitary point of view? On the contrary the smoke and noise due to the constant passing and repassing of trains over the line would be a source of great nuisance to people —an objection which becomes very serious when we bear in mind that the neighbourhood thus affected comprises the most populous quarters of the town And this invalidates to a certain extent the argument that it would improve the sanitation of the town by opening up the congested area of Burrabazar And if the line is to run along the Harrison Road for some distance from the proposed bridge at Howrah how will its passage open up the congested portions of Burrabazar? Also the existence of a bar running from east to west as the overhead line would seriously affect the ventilation of the town where the wind blows from north to south or from south to north ' The scheme proposes the practical acquisition of a highly important road constructed within recent years by the

Mr Wynne s memorandum on Hunter proposal paragraph ( )

municipality The greatest opposition may confidently be expected to this part of the scheme It has not the advantage of opening out a part of Calcutta and so improving sanitation Its action would be to obstruct a highly important thoroughfare It is very likely also that complicated legal questions would arise, as the owners of houses on land along the road would have their property very much depreciated in value " And what is the necessity of such a central line when we have a complete network of tram lines to link up the centre of the town with its remotest corners, and which serve every purpose of passenger traffic within the town? And this purpose again will be still furthered with the introduction of the proposed electric tram lines Also this line would necessitate the construction of the permanent bridge *at Howrah*, which, is, as we have seen, very far from desirable

If we can place any reliance on the opinions of such experts as the Deputy Conservator to the Port Commissioners, then the present Floating Bridge at Howrah is almost as good as new and will, with such repairs as have hitherto been made by changing a pontoon one year and another the next year, and also renewing its other parts occasionally, continue to render the same service for years to come as it has done in the past For this reason as well as for the purpose of providing facilities for passenger and wheeled traffic, I would let it stand as it is and where it is Thus we see that there is no real necessity or desirability of having a line running right through the heart of Calcutta But if it is found desirable to give additional facilities to passenger traffic, then the proposed line may be made to run round about Calcutta along the bank of the Circular Canal or by the Circular Road with small passenger and goods stations at short distances and in suitable localities This would not only materially diminish the amount of outlay, but in conjunction with the electric trams would confer a great boon on the suburban and town population Indian merchants, having big godowns on the banks of the canal would also be highly benefited by this line, in the same way as the merchants having similar godowns and warehouses on the Calcutta side of the Hooghly are benefited by the Port Trust Railway The Port Trust

Railway by the Strand and the Municipal Railway along the Circular Road could also be utilized with necessary additions and alterations for passenger traffic

III Also the question of this central line hinges upon the other question—*Whether the construction of a Central Station within the heart of the town has been felt to be a necessity* The site selected for such a station being less than ½ mile from Sealdah will not benefit people in general, especially those that live in the northern or southern suburbs of the town People not ordinarily accustomed to walking would easily avail themselves of tram cars while the poorer class to whom time and distance are immaterial, would much prefer walking up to Howrah or to Sealdah or even to Dum Dum, as they often do to spending a few more pice to avoid an extra walk By the proposed scheme, they will be forced to walk longer distance pay more and be exposed to extra risk to their life and limb Nor would it benefit that class of people called 'daily passengers" who especially such of them as serve in mercantile offices, would find it more convenient to alight at Howrah for instance than at the proposed station at Champatolah

Paragraph 8 of the letter from the Secretary to the British Indian Association dated the 4th December 1882

Also paragraphs 2 and 3 of a note by Mr Finney Manager Eastern Bengal State Railway dated the 5th May 1888

Also memorandum by Mr Wynne on Hunter's proposal

I do not deny that the scheme of the Central Station has some advantages But these advantages are not sufficiently important to justify the heavy outlay it would necessitate Is it not possible to remove or lessen the financial difficulties while securing all these advantages? For a Central Station or a common terminus for all the Railways connected with Calcutta is very desirable, otherwise the second Railway bridge over the Hooghly would be of little use at least for the present And if this bridge be connected with the Eastern Bengal State Railway at Chitpore then, Sealdah, for more reasons than one, would appear to be the most convenient site for this proposed Central Station Because there is a large railway station already existing at the place, excepting the Bengal Nagpur Railway, all the other railways are already connected with it and land being cheap in the locality the necessary additional buildings platforms, workshops &c, could be erected there at a much cheaper cost Maharajah Sir Jotendro Mohan Tagore, Bahadur, as a member of the Calcutta Central Railway Committee, in his note of dissent in 1882 wrote the following prophetic words —"The limits of the town may go on extending, and Sealdah itself may in time be included within the precincts of the town In that case the station will be located within the city which is considered by the majority to be so very desirable," It may be noted here that Sealdah has already become a part of the Calcutta Municipal town The distance between the Sealdah station and the proposed site for the Central Station being very short—about half a mile—it would make very little or no difference if Sealdah is made the Central Station

Paragraph 4 of letter dated the 4th October 1882 From the Secretary to British Indian Association to the Secretary to the Government of Bengal Public Works Department

Also paragraphs 4 and 7 of the letter from Mr Turnbull Secretary Calcutta Corporation to the Secretary Bengal Government Public Works Department dated the 12th December 188

If Sealdah be fixed upon as the common terminal station for all the railways, then the whole scheme becomes very cheap and feasible

In conclusion I may remark—

(1) that the scheme here suggested is not an essentially new one, but only a *modified* form of the original scheme as proposed by the Syndicate

(2) and that while securing all the principal advantages of the original proposal it is, to a large extent free from the financial difficulties and sanitary objections with which the former is necessarily attended

(1) As to the proposed tax of 1½ pie per maund on all goods traffic except mineral products that are received at or despatched from all Calcutta stations of the connected railways including the Kidderpore Docks, it may be said that the levying of such a toll is hardly fair It is certainly not fair for instance to the Eastern Bengal State Railway which has no great interests in traffic on the Howrah side of the river For up country consignments it has a route *via* the Hooghly bridge that enables it to secure 30 miles of lead over its line It would be more advantageous from its traffic point of view to send and receive its up country traffic *via* the Hooghly than *via* the Central Station The proportion of its traffic to and from Calcutta town, as compared with its traffic it has to send across the river, must be enormously in favour of its Calcutta town traffic The Eastern Bengal State Railway would, therefore, be taxed for a convenience that was against its interest, and which it did not require" But if financial considerations necessitate the levying of such a toll, then it should be levied only on such goods as actually cross the bridge For the levying of a toll indiscriminately on all goods whether they cross the bridge or not, might seriously handicap trade

Memorandum by Mr Wynne on the proposal by Sir William Hunter

(2) As to the question of a Government guarantee, I cannot say that there is any need for it The undertaking may either be left to a private company or to the several railways concerned and I must say that the character of the work is not sufficiently imperative to justify a Government guarantee, and if such a guarantee be given then the entire scheme as Mr Wynne rightly points out, changes its nature, and becomes one of the many railway projects under the consideration of Government The claim of the Syndicate to preference on the ground that they have originated the scheme is groundless as in addition to the project having been discussed by the public, committees were appointed by the Government more than once to have it considered and reported on

(3) The quadrupling of the line between Sealdah and Naihati would not at present be very necessary as the proposed bridge at Cossipore would prevent for several years to come any serious congestion of traffic in that line

(4) In regard to the Bankura Howrah connection I may observe though it may be preferable to quadrupling the line from Sitarampore to Hooghly and from Naihati to the Docks *via* Sealdah we have not got enough data which would enable us to form a clear and definite opinion on the matter In this connection it may be pointed out that the argument that the Howrah Bankura line would meet the increased volume of trade consequent on the opening of the more direct route to Calcutta *via* the Grand chord does not appear to be sound There is however a general agreement as to the necessity of something being done without delay to relieve the congestion of traffic on certain parts of the East Indian Railway and for this quadrupling the line from Sitarampore down to, at least, Hooghly, appears to be a good idea

' The reference, in the promoters letter to the Government of India to the increased traffic to be brought to Calcutta from the Oudh and Rohilkhand Railway *via* the Grand chord line appears to be based on singular misconception of the facts It is obvious that if any such diversion of traffic takes place as is suggested, it will only be from one part of the East Indian Railway to another and that the opening of the more direct route to Calcutta *via* the Grand chord will have no immediate effect on the total volume of traffic brought into Calcutta beyond what is due to the stimulus given to all traffic by the reduction of distance '

[Margin note:] Paragraph 6 of letter No 168 dated ...th July 1898 from A P Dun... Esq Secretary to the Board of Directors East Indian Railway Company to the Agent East Indian Railway Company

CALCUTTA

J GHOSAL

4 Babu Joy Gobind Laws Note

I quite admit that a bridge and railway near Calcutta will be required at no distant future, but I do not think that that time has yet arrived The existing Jubilee Bridge at Hooghly, according to my information, is quite sufficient to meet all demands upon it at present, and will be so, I understand, for some years yet In this connection I should wish to point out that the blocks which lately occurred on the East Indian Railway, were not owing to any want of sufficient means of access to the Docks, but to the unusual pressure of traffic which the Railway, on the one hand, was unable to carry for want of an adequate supply of wagons, and, on the other hand, to insufficient accommodation and absence of proper arrangements at the Docks This fact is sometimes lost sight of, and it is erroneously argued that an alternative route to the Docks is urgently required to remedy this state of things

2 As soon however, as it became clearly apparent that a second route to the Docks was required, it would be for the Railways to combine and carry out the necessary works In my view it is rather going too far to expect the Railways to levy a toll for the benefit of a third party

3 In the sixth paragraph of the Committee s report reference is made to the toll that was imposed in the first instance for the building of the Howrah bridge, but which was subsequently taken off and the charges paid by the East Indian Railway and this fact is assumed as furnishing a precedent for the toll required by the Syndicate It appears to me, however, to be carrying the argument too far to seek to apply a measure which only concerned an expenditure of about twenty three lakhs of rupees (which was the cost of the Howrah Bridge) to works which are variously estimated at from over four to seven crores

4 Regarding the question of a site for a permanent bridge it seems to me that a bridge somewhere at Cossipore would be preferable to one in Calcutta for reasons which may be briefly stated as follow, viz —

1stly —That the town of Calcutta is only 6 square miles in area, and the building of a railway and a large passenger station within it will have the effect of intensifying overcrowding while the smoke arising from numerous engines incessantly shunting and marshalling trains, and passing to and fro, will certainly not contribute to the sanitation of the town, where the conditions of insanitation already existing, are, as we know, many and various

2ndly —That a bridge at Cossipore would be practically out of harm's way in case of a recurrence of a cyclone such as that of 1864, when great damage was caused to the shipping, and ships were wrenched from their moorings, and some driven up the river as far as the sugar factory at Chitpur

3rdly —That land at Cossipore would be much cheaper, and the bridge need not be raised any higher than may be required for the passage of country-boats and steam launches

5 The suburban passengers, for whose special benefit the project of a passenger station is avowedly put forward, will not, as far as I can see, be in a relatively better position than they are in at present Champatollah is not half a mile from Sealdah, and dwellers in the riparian wards, the trading centres of Calcutta, will be at a disadvantage, and will have just cause of complaint The suggestion in the Committee's report about platform stations on an elevated railway will not, I believe reduce the cost of the scheme, but will add to it for it appears to me that in any case a large station somewhere is a necessity of the scheme

JOY GOBIND LA

NOTIFICATION

Examination of Compounders at the Dacca Medical School

IN accordance with the Government of Bengal Notifications Nos 4042Medl , dated 2nd November 1896, and 337T —M., dated 9th June 1897, notice is hereby given that the next half-yearly examination of Compounders will be held on Monday, the 22nd April 1901, at the Dacca Medical School.

2 Every candidate must produce a certificate of training, age and previous education, as required by Rule 9 of Bengal Notification No 4042Medl, dated 2nd November 1896, published in the *Calcutta Gazette* of the 4th November 1896, except in those cases provided for in Rule 10

3 Applicants must register their names and submit their certificates together with a fee of Rs 5 at least one week before the 22nd April 1901 at the office of the undersigned.

(*Exception* —The students belonging to the Compounder class of a Vernacular Medical School will be exempted from paying this fee on producing a certificate from the Superintendent that they have already paid their school entrance fee)

4 Should any candidate fail to pass the required examination, he will forfeit his fee

5 Candidates will have to pass a test in English before being allowed to appear for the rest of the examination

This test consists of reading and writing from dictation, prescriptions and labels

They will, if successful be then examined in Materia Medica, Pharmacy, the compounding and mixing of drugs, &c

NOTE —The attention of the candidates is drawn to Rule 10 section (2) of the Government Notification of the 2nd November 1896 from which they will observe that the Chemists and Druggists establishments from the legally qualified managers of which they obtain their certificates will have to be recognised by the Inspector General of Civil Hospitals Bengal prior to the candidates applying to the Superintendent to register their names to appear at the examination.

R MACRAE *Lieut Col*, M B, I M S,
Superintendent, Medical School, Dacca.

Orders and Notifications by the Government of India, &c

[*Reprinted from the "Gazette of India"*]

The following orders, issued by the Government of India in the Home Department, are republished for general information

C E BUCKLAND,
Offg Chief Secy to the Govt of Bengal

NOTIFICATIONS

PUBLIC

Calcutta, the 28th March 1901

No 2757—The following drafts of certain Rules which it is proposed to make in exercise of the powers conferred by sections 5 and 7 of the Indian Explosives Act (IV of 1884) are published, as required by section 18 of the said Act and Government of India, Home Department, Notification No 1964, dated 2nd September 18[illegible]7, for the information of persons likely to be affected thereby, and notice is hereby given that the drafts will be taken into consideration by the Governor General in Council after the 1st day of June 1901

2 Any objection or suggestion which may be received from any person with respect to the drafts before that date, will be considered by the Governor General in Council

NOTE.—*All changes proposed in the existing rules are indicated in italics*

DRAFT RULES TO REGULATE THE TRANSPORT AND IMPORTATION OF EXPLOSIVES

IN supersession of the Notification by the Government of India, Home Department, No *1393* (Public), dated the *8th July 1897*, and in exercise of the powers conferred by sections 5 and 7 of the Indian Explosives Act (IV of 1884), the Governor General in Council is pleased to make the following rules to regulate the transport and importation of explosives.

These rules extend to the whole of British India, but the rules relating to the transport of explosives shall cease to apply to any port as defined in the Indian Ports Act (X of 1889) for which special rules made by the Local Government are for the time being in force, in so far as they are expressly superseded by, or are inconsistent with, such special rules

Nothing in these Rules shall apply to the manufacture, possession, use, sale, transport, or importation of any explosive—

(a) by order of the Government, or

(b) by any person employed under the Government in the execution of the Indian Explosives Act (IV of 1884), or as a keeper of a magazine, artizan, soldier, sailor, policeman, or otherwise, or enrolled as a volunteer under the Indian Volunteers Act (XX of 1869), in the course of his employment or duty as such

PRELIMINARY

1 For the purposes of these rules, explosives shall be classified as follows, namely —

Class 1	Gunpowder
Class 2	Nitrate mixture,
Class 3	Nitro compound,
Class 4	Chlorate-mixture,
Class 5	Fulminate,
Class 6	Ammunition,
Class 7	Firework,

and when an explosive falls within the description of more than one class it shall be deemed to belong exclusively to the latest of the classes within the description of which it falls

CLASS 1 —*Gunpowder Class*

The term "gunpowder means exclusively gunpowder ordinarily so called

CLASS 2 —*Nitrate-mixture Class*

The term "nitrate mixture" means any preparation, other than gunpowder ordinarily so called, formed by the mechanical mixture of a nitrate with any form of carbon or with any carbonaceous substance not possessed of explosive properties, whether sulphur be or be not added to such preparation, and whether such preparation be or be not mechanically mixed with any other non explosive substance

The nitrate mixture class comprises such explosives as—

Chilworth special powder, *Fortis explosive*, *Ripp Lene*, *Safety blasting powder*, *Westfallite*,

and any preparation coming within the above definition

CLASS 3 —*Nitro compound Class*

The term "nitro compound" means any chemical compound possessed of explosive properties, or capable of combining with metals to form an explosive compound, which is produced by the chemical action of nitric acid (whether mixed or not with sulphuric acid) or of a nitrate mixed with sulphuric acid upon any carbonaceous substance, whether such compound is mechanically mixed with other substances or not

The nitro compound class has two divisions

Division 1 comprises such explosives as—

Amberite No 1,	*Dynamite,*
Ballistite,	*Gelatine Dynamite,*
Blasting Gelatine,	*Gelignite,*
Carbonite,	*Lithofracteur,*
Cordite,	*Nitro glycerine,*

Stonite,

and any chemical compound or mechanically mixed preparation which consists, either wholly or partly, of nitro glycerine or some other liquid nitro compound

Division 2 comprises such explosives as—

Amberite No 2,	*Nitrated gun cotton,*
Ammonite,	*Picrates,*
Bellite,	*Picric powder,*
Coopal's powder	*Roburite,*
Cotton gunpowder,	*Sawdust and gun cotton powder*
E C powder	*Schultz's powder,*
Gun cotton ordinarily so-called,	*Tonite (or cotton powder),*

and any nitro compound as before defined which is not comprised in the first division

CLASS 4.—*Chlorate-mixture Class*

The term "chlorate mixture" means any explosive containing a chlorate

The chlorate mixture class has two divisions

Division 1 comprises such explosives as—

Horsley's blasting powder
Brain's blasting powder,

and any chlorate preparation which consists partly of nitro glycerine or of some other liquid nitro compound

Division 2 comprises such explosives as—

Horsley's original blasting powder,	Hochstadter's blasting charges,
Erhardt's powder	Rackon's blasting charges,
Reveley's powder	Teutonite,

Chlorated gun-cotton,

and any chlorate mixture as before defined which is not comprised in the first division

CLASS 5 —*Fulminate Class*

The term "fulminate" means any chemical compound or mechanical mixture whether included in the foregoing classes or not, which from its great susceptibility to detonation, is suitable for employment in percussion caps or any other appliances for developing detonation or which, from its extreme sensibility to explosion and from its great instability (that is to say, readiness to undergo, decomposition from very slight exciting causes), is especially dangerous

The fulminate class has two divisions

Division 1 comprises such compounds as the fulminates of silver and of mercury and preparations of these substances, such as are used in percussion caps, and any preparation consisting of a mixture of a chlorate with phosphorus, or certain descriptions of phosphorus compounds, with or without the addition of carbonaceous matter, and any preparation consisting of a mixture of a chlorate with sulphur, or with a *sulphuret*, with or without carbonaceous matter

Division 2 comprises such substances as the chloride and the iodide of nitrogen, fulminating gold and silver, diazobenzol, and the nitrate of diazo benzol

CLASS 6 —*Ammunition Class*

The term "ammunition" means an explosive of any of the foregoing classes when enclosed in any case or contrivance, or otherwise adapted or

prepared so as to form a cartridge or charge for small-arms, cannon, or any other weapon, or for blasting, or to form any safety or other fuze for blasting or for shells, or to form any tube for firing explosives, or to form a percussion cap, a detonator, a fog signal, a shell, a torpedo, a war rocket, or other contrivance other than a firework

The term "percussion-cap" does not include a detonator

The term "detonator" means a capsule or case which is of such strength and construction, and contains an explosive of the fulminate explosive class in such quantity that the explosion of one capsule or case will communicate the explosion to other like capsules or cases

The term "safety fuze" means a fuze for blasting which burns and does not explode, and which does not contain its own means of ignition, and which is of such strength and construction, and contains an explosive in such quantity, that the burning of such fuze will not communicate laterally with other like fuzes

The expression "safety cartridges" means cartridges for small arms of which the case can be extracted from the small arm after firing, and which are so closed as to prevent any explosion in one cartridge being communicated to other cartridges The term also includes rifle-calibre machine gun cartridges if they are of the above description, whether they are for use with machine guns having chambers identical with those of rifles or with machine-guns which have special chambers

The maximum diameter at which a small arm or machine-gun cartridge can be accepted as "safety" is one inch

The ammunition class has three divisions.

Division 1 comprises exclusively—

Safety cartridges, Safety fuzes for blasting, Fuzes for shells, and tubes friction for guns, provided there be no more than five fuzes or 25 tubes in one package, and that the package be a hermetically sealed metal cylinder	Railway fog-signals, Percussion-caps

Division 2 comprises any ammunition, as before defined, which does not contain its own means of ignition and is not included in division 1, such as—

Cartridges for small-arms, which are not safety cartridges,

Cartridges and charges for cannon, shells, mines, blasting, or other like purposes,

Shells and torpedoes containing any explosive,

Fuzes for blasting, which are not safety fuzes,

Fuzes for shells,

Tubes for firing explosives,

War rockets,

which do not contain their own means of ignition.

Division 3 comprises any ammunition as before defined, which contains its own means of ignition and is not included in division 1, such as—

Detonators,

Cartridges for small arms, which are not safety cartridges,

Fuzes for blasting, which are not safety fuzes,

Fuzes for shells,

Tubes for firing explosives,

which do contain their own means of ignition.

By ammunition containing its own means of ignition is meant ammunition having an arrangement, whether attached to it or forming part of it, which is adapted to explode or fire the same by friction or percussion

CLASS 7 —*Firework Class*

The firework class has two divisions

Division 1 comprises firework compositions, that is to say, any chemical compound or mechanically mixed preparation of an explosive or inflammable nature, which is used for the purpose of making manufactured fireworks, and is not included in the former classes of explosives, and also any s ai and any coloured fire composition, subject to the proviso hereinafter set forth

Division 2 comprises manufactured fireworks, that is to say, any explosive of any of the foregoing classes and any firework composition, when such explosive or composition is enclosed in any case or contrivance, or is otherwise manufactured so as to form a squib, cracker, toy cap or amorce, serpent, rocket (other than a war rocket), maroon, lance, wheel, Chinese fire, Roman candle, or other article specially adapted for the production of pyrotechnic effects or pyrotechnic signals or sound signals

Provided that a substantially constructed and hermetically closed metal case containing not more than 1lb of coloured fire composition of such a nature as not to be liable to spontaneous ignition shall be deemed to be a "manufactured firework"

TRANSPORT

(a) *Packing*

2 The following general rules shall be observed with respect to the packing of explosives for conveyance —

I —Each class of explosives shall be separately packed

II —An explosive not being an explosive of the 5th (fulminate) class or of the 2nd and 3rd divisions of the 6th (ammunition) class, or of the 1st division of the 7th (firework) class, shall, if not exceeding 5lbs in quantity, be contained in a substantial case, bag, canister, or other receptacle made and closed so as to prevent the explosive from escaping

III —In every other case the explosive shall be contained in a double package The inner package shall be a substantial case, bag, canister, or other receptacle made and closed so as to prevent the explosive from escaping, and the outer package shall be a box, barrel, or case of wood or metal or other solid material, and shall be of such strength, construction, and character that it will not be broken or accidentally opened, or become defective or insecure whilst being conveyed, and will not allow the explosive to escape

Provided as follows —

(a) If the explosive is of the 1st (or gunpowder) class or of the 2nd (nitrate mixture) class, or of the 2nd division of the 3rd (nitro compound) class the quantity of the explosive in any one outer package shall not, in the case of explosives of the first two classes, exceed 100lbs, and in other cases 50lbs

If the explosive is picric acid, the inner package must be of such a nature as to effectually prevent any picric acid from coming into contact with any basic metallic oxide *

(b) If the explosive belongs to the 1st division of the 3rd (nitro compound) class or to the 4th (chlorate mixture) class, the inner package shall be without any metal in its construction, and the inner or outer package, or both, shall be thoroughly waterproof † No one of the

---

* *Note* —This rule is intended to prevent picric acid being packed in a case lined with certain metals such as zinc or lead, which would result in danger arising from the formation of a picrate Waterproof bags inside powder barrels are suggested as a simple and safe method of packing picric acid for transport or storage

† *Note.*—From the requisition that the package should be waterproof are excepted

(1) All explosives falling in the 2nd division of the 4th (chlorate-mixture) class

(2) Those explosives included in the 1st division of the 3rd (nitro-compound) class which do not yield up their nitro glycerine in contact with water, such as blasting gelatine, gelatine dynamite cordite and ballistite and gelignite: provided that any other substance than those named has been certified to be of this character by a Chief Inspector of Explosives

inner packages shall contain more than 10lbs, and the aggregate quantity of the explosive in any one outer package shall not exceed 50lbs

(c)—1 If the explosive belongs to the 5th (fulminate) class, and is of such character that it cannot be packed mixed with water, or that danger would arise from such mode of packing, it shall be packed in such manner as shall be specially directed by the Governor General in Council

2 Any other explosive of the fulminate class shall be packed as follows It shall be packed in bags or coverings of calico, canvas or other material permeable to water, and containing each not more than 25lbs of fulminate, and so made and closed as to prevent any explosive from escaping Such bags or coverings shall be packed in a case containing sufficient water to ensure the explosive being kept constantly wet, and such case (herein after called the inner case) shall be packed in an outer case containing sufficient water constantly to surround the inner case, and the inner case and the outer case shall each be of such strength, construction, and character that it will not be broken or accidentally opened or become defective or insecure whilst being conveyed, and will not allow any fulminate or water to escape, and the amount of the explosive in any one outer case shall not exceed 200lbs, except with the consent of, and under conditions approved by, an Inspector of Explosives

3 Every package when actually used for the packing of one fulminate shall not be used for the packing of any other fulminate or for any other purpose

4 On the outer case there shall be affixed in conspicuous characters by means of a brand or securely attached label or other mark the word 'Explosive, with the name of the explosive followed by the words Fulminate Division 1 (or 2 as the case may be) and name and address of the owner or sender

(d)—1 If an explosive belongs to the 1st division of the 6th (ammunition) class, it shall be contained in a box, barrel, or case of wood, metal or other solid material and of such strength, construction, and character that it will not be broken or accidentally opened, or become defective or insecure whilst being conveyed, and will not allow any explosive to escape

2 If the explosive belongs to the 2nd division of the 6th (ammunition) class, the following rules shall apply, viz —

(i) A shell or torpedo containing any explosive material, whether such shell or torpedo be separate or form part of a rocket or other appliance, shall be packed in such manner as may be specially directed by the Governor General in Council with reference to such explosive

(ii) Any explosive material when made up into a cartridge or charge for cannon, shells, mines, blasting, or other like purposes shall be packed in the manner required for the same explosive material when not so made up

Provided that where a double package is required, the enclosing case of such cartridge or charge, if it satisfies the conditions required for the inner package, may be held to be such inner package

(iii) Any other explosive of the 2nd division shall be packed in a box, barrel, or case of wood, metal, or other solid material, and of such strength, construction and character that it will not be broken or accidentally opened, or become defective or insecure whilst being conveyed, and will not allow any explosive to escape and any one such package shall not contain more than 100lbs of ammunition.

(e) If the explosive belongs to the 3rd division of the 6th (ammunition) class, it shall be packed in a double package. The inner package shall not contain more than 2lbs of such explosive and no more than 50lbs shall be contained in the outer package.

"Provided that, in the case of detonators, the following further rules shall also be observed namely —

(i) The detonators and the spaces between the detonators and between the sides of the inner package and the detonators shall all be filled, as far as practicable, with fine sawdust or other similar material. A layer of cotton wool or other soft elastic material shall be placed between both ends of all the detonators and the interior of the inner package in which the detonators are placed in such manner and so secured that both ends of the detonators will rest upon the said cotton wool or other material. Every inner package, if of metal, shall be lined throughout with paper or other soft material.

(ii) When the number of detonators packed for conveyance exceeds in all one thousand (1,000), or such greater number as may from time to time be assigned with the consent of and under conditions approved by, an Inspector of Explosives all the inner packages as aforesaid shall be placed inside a substantial case of wood or metal made and closed, so as to prevent any of the inner packages escaping therefrom and the case shall be placed inside such outer package as is required by the above general rule relating to the packing for conveyance of explosives of the 3rd division of the 6th (ammunition) class, in such manner and so secured as to leave a clear space of not less than three inches between every part of the interior of the said outer package, notwithstanding that such clear space may, if preferred, be filled with sawdust, straw or other similar material, or may contain a light framework or battens of wood to keep the case aforesaid in position in the outer package."

(f) If the explosive belongs to the 1st division of the 7th (firework) class it shall be contained in a double package. The inner package shall be a substantial canister, case or other receptacle hermetically closed, and containing no more than 1lb of explosive, and no more than 20lbs shall be contained in the outer package, and,

(g) If the explosive belongs to the 2nd division of the 7th (firework) class, it shall be contained in a box, barrel or cases of wood, metal or other solid material, and of such strength, construction and character that it will not be broken or accidentally opened, or become defective or insecure whilst being conveyed, and will not allow any explosive to escape, and the quantity of explosive in any one package shall not exceed 100lbs.

IV.—Whatever be the amount of the explosive, and to whatever class or division of a class it belongs, the following conditions shall be observed —

(a) the interior of every package, whether single or double shall be kept free from grit and otherwise clean,

(b) every package, whether single or double when actually used for the packing of the explosive, shall not be used for the packing of any other explosive of the same or any other class or for any other purpose, except with the consent of, and under conditions approved by, an Inspector of Explosives,

(c) there shall *not* be any iron or steel in the construction of any such single package or inner or outer package unless the same is effectually covered with tin, zinc, or other suitable material,

(d) on the outermost package there shall be affixed, in conspicuous characters, by means of a brand or securely attached label or

mark, the word "Explosive" followed by the name of the explosive or other description of the contents and the name and address of the owners or senders, and

(e) the amount of the explosive in any single package or, if there is a double package, in any one outer package, shall not exceed the amount specified in the foregoing rules, except with the consent of, and under conditions to be approved by an Inspector of Explosives or other officer appointed by the Local Government in this behalf

3 Whoever commits a breach of any of the foregoing rules relating to the packing of explosives for conveyance shall be punishable with fine which may extend to R1,000 *

(b) Mode of conveyance

4 The following general rules shall be observed with respect to the conveyance of explosives —

I —No explosive shall be conveyed from place to place unless packed in the manner provided for in the foregoing rules

II —There shall not be conveyed in any carriage or vessel which is being used for the conveyance of an explosive, any explosive of a different class and division of whatsoever nature, which contains its own means of ignition, unless it is sufficiently separated therefrom to prevent any fire or explosion which may take place in one such explosive being communicated to another

III —Except in the case of small consignments carried by railway, which may be unloaded at any time explosives shall be loaded or unloaded only between sunrise and sunset For the purposes of this rule no consignment of more than half a waggon load booked to one station shall be deemed to be a small consignment

IV —Whilst the explosive is being loaded on or unloaded out of any carriage or vessel, no fire or artificial light nor any article which is liable to cause or communicate fire or explosion [such as charcoal, lucifer matches, articles for striking a light, petroleum to which the Petroleum Act (*VIII of 1899*) or any other Act for the time being in force regarding the importation, possession, and transport of petroleum, applies, or any spirit or oil or substance that gives forth an inflammable vapour at a temperature below 100° Fahrenheit] shall be, or shall be allowed to be, brought, laid or used dangerously near to such carriage, ship, or boat, and no smoking shall be allowed in, on or dangerously near to, the same

Provided that when the use of a light for the purposes of such loading or unloading is unavoidable, a lamp of such construction, position, or character as not to cause any danger from fire or explosion may be used, and no person while handling any explosive (except an explosive of division 1, class 6, if packed in accordance with the packing rules), shall wear boots or shoes with iron or steel nails, heels or tips

V —In the loading or unloading of any explosive, the casks and packages containing the same shall be passed from hand to hand and not rolled upon the ground, they shall not be thrown or dropped down, but shall be carefully deposited and stowed

VI —The explosive shall not be conveyed except in the interior of a carriage so enclosed on all sides with wood or metal, or in the hold of a ship or boat having a close deck so closed, as effectually to protect the explosive against accident by fire from without If the explosive cannot be so secured, it shall be completely covered with painted cloth, tarpaulin, or other suitable material so as to effectually protect it against communication of fire

VII —There shall not be any iron or steel in the interior of the portion of the carriage or vessel with which the case containing the explosive is *or may come* in contact, unless the same is effectually covered with leather, wood, cloth, or other suitable material

* Rules regarding search for and detention of explosives contravening regulations have been issued by the Local Governments

VIII —In the stowing of the explosive, due precautions shall be taken by means of a partition or otherwise and by careful stowing to secure such explosive from being brought into contact with, or endangered by, any other article or substance conveyed in such carriage or vessel which is liable to cause fire or explosion, and if the explosive is dangerously affected by water due precautions shall be taken to exclude water from coming into contact with such explosive

IX —The amount of the explosives conveyed in any one carriage or vessel at any one time shall not exceed 2 000lbs unless the carriage be so enclosed on all sides with wood or metal, or the vessel have a close deck so closed, as effectually to protect the explosive against accident by fire from without in which case the amount of the explosives conveyed shall not exceed the following —

	Tons
In any one carriage on a railway	10
In any one other carriage	2
In any one vessel	20

NOTE —This rule shall in the case of dynamite conveyed by railway be read subject to paragraph XII of Rule 6

X —Nothing in the foregoing rules (except Rule 1) shall apply to any explosive of the 1st division of the 6th (ammunition) class

Provided that all due precautions are taken for the prevention of accidents

5 The following rules shall be observed with respect to the conveyance of explosives otherwise than by railway —

I - No explosive shall be conveyed in a carriage or boat whilst carrying or plying for public passengers unless the quantity is less than 5lbs and notice has been given beforehand to the person in charge of such carriage or boat *and all due precautions are taken for the prevention of accidents by fire or explosion*

Provided that there shall not be conveyed in any such carriage or boat any explosive of the 5th (fulminate) class or any explosive of the 3rd division of the 6th (ammunition) class, or of the 1st division of the *7th (firework)* class, except detonators *packed according to the proviso to Rule 2 (III) (e) to the number of 200*,

Provided that the amount of explosive of the 5th (fulminate) class in the detonators shall in no case exceed in the aggregate 3 oz (a certificate to the effect being given by the Agent of the Company by whom the detonators are tendered for transport)

Provided also that no *other explosive* is carried in the same compartment

II —With respect to the conveyance by carriage or vessel of explosives of the 5th (fulminate) class, or of the 3rd division of the 6th (ammunition) class, or of the 1st division of the 7th (firework) class, or of larger quantities than 5lbs of any other explosive, the following regulations shall be observed —

(1) The person in charge of the carriage or vessel shall not drive or conduct the same in a dangerous or reckless manner, and shall take all due precautions to avoid fire and explosion, and no person shall do any act or thing in relation to the explosive which tends to cause fire or explosion, and is not reasonably necessary for the conveyance of the explosive or for work immediately connected with such conveyance, and a person who is intoxicated shall not have charge of any carriage or vessel conveying explosive, and shall not be permitted to be in, or on, or attending the same

(2) A person shall not forward to any warehouseman or carrier a consignment of explosive, unless he has given notice to such warehouseman or carrier beforehand, stating the name and quantity of the explosive proposed to be conveyed, and the name and address of the proposed consignee and has had an intimation that the warehouseman or carrier is prepared to receive the consignment, and a warehouseman or carrier shall not make such intimation, nor receive such consignment, unless he is prepared to receive it, and forthwith to despatch the same, or to deposit it in a magazine or at a place at which a person is licensed to possess the same

(3) The carriage or vessel conveying the explosive shall be in charge of, and constantly attended by, some competent person, or by a sufficient number of competent persons, and such persons shall not, if the amount of the explosive conveyed exceed 100lbs, stop or delay for a longer time than may be reasonably necessary, or stop unnecessarily at any place where such stopping would be attended with special public danger

6 The following rules shall be observed with respect to the conveyance of explosives by public railway —

I —No person shall send for carriage upon any railway any consignment of an explosive, unless he has given to the officer in charge of the railway station previous notice in writing which, at the option of the Railway Administration may extend to 48 hours, of his intention to send such consignment, and stating the true name, description, quantity, and mode of packing of the explosive proposed to be conveyed, and his own name and address, and also the name and address of the proposed consignee, and unless he has had an intimation in writing from an authorised officer of the railway that such consignment will be received

II —No explosive which a Railway Administration shall, by any notice or regulation for the time being in force, notify that they will not receive, shall be brought sent, or forwarded to, or upon any railway of the said Railway Administration

III —Consignments of explosives shall be sent to the forwarding station and shall be received by the railway servants only at such times, between sun rise and sunset, as the Railway Administration may appoint, and every package containing any explosive proposed to be conveyed on any railway shall immediately on arrival at the station be unloaded and placed in a safe place under the special direction of the officer in charge of the station

All gunpowder under despatch or receipt by a Government arsenal, depôt, or factory shall be loaded or unloaded in the railway vans by Government servants employed in such arsenal depôt or factory In each van used by the railway for the transport of gunpowder the packages of gunpowder shall be secured in such a way as to prevent concussion when the train is in motion

IV —An explosive shall be removed by the consignee from the receiving station during the twelve hours of daylight after arrival if this condition is not strictly complied with, the Railway Administration may return the consignment to the consignor at his risk and expense And such packages shall in the meanwhile be kept as far away from the station buildings as possible, in the wagon they were conveyed in or, if unloaded, shall be completely covered with tarpaulins or other suitable material, and if necessary, shall be protected by a police guard

V —The Railway Administration may refuse to receive any packages which they suspect to contain any explosive packed or sent in contravention of these regulations And in case any package, which the Railway Administration suspect, shall be upon any railway, the Railway Administration may open, or require to be opened, such package, to ascertain the fact, at the risk and expense of the consignor, and may return the explosive contained in the package to the consignor at his risk and expense, keeping the packages, pending such return, in the manner prescribed in the preceding rule

VI —Subject to the exception provided for in clause (e), no explosive shall be conveyed by passenger train except of the kinds and in the manner hereinafter specified in this rule —

(a) Safety cartridges and percussion caps and safety fuze (for blasting), also fog signals for railway use which may be conveyed in ordinary wagons or carriages

(b) *Explosives of the 3rd (nitro-compound class)* which may be carried in the form of cartridges up to the limit of 5lbs

Provided that no detonators are carried in the same compartment

(c) Detonators *packed according to the proviso to Rule 2* (III) (e) may be carried to the number of 200

Provided that in no case the amount of fulminate of mercury in the package or packages containing the detonators exceeds in the aggregate 3 oz (a certificate to this effect being given by the Company, firm, or person tendering the detonators for transport or by its or his agent)

Provided also that no *other explosive* is carried in the same compartment

(*d*) Sporting gunpowder or non safety cartridges packed in double cases as before provided, so long as the gunpowder is contained in one pound tin canisters packed in a stout wooden case with an outer covering of tin or zinc completely spark proof, or in metal lined cases of a pattern approved by the Railway Administration But no outer case shall contain more than 25lbs of gunpowder, and the total consignment of gunpowder or non safety cartridges by one train shall not exceed 80lbs

(*e*) Explosives may be carried by mixed trains on any line on which goods trains are not running, subject to the conditions that they are loaded in properly constructed powder vans, that not more than one *powder van* containing explosives is forwarded at any one time by a mixed train, that there are not less than three vehicles between the powder van and either the engine or the passenger coaches, that the powder van is close coupled to the adjoining vehicles, and that directly a powder van containing explosives arrives at a section on which goods trains are running, it is detached from the mixed train

VII —Not more than five carriages containing explosives shall be loaded or unloaded at any railway station, or be conveyed by any one train at any one time, and the quantity of explosive to be contained in any one carriage shall not exceed two thirds of the normal load, unless the carriages shall be specially built and approved of by the Government of India for the conveyance of explosives But nothing in this clause shall be held to apply to separate consignments of *safety cartridges for small arms*

VIII —There shall not be conveyed in the same carriage with any explosive any lucifer or other matches *fuzees*, pipelights, acids, naptha, paraffine, petroleum to which the Petroleum Act (*VIII of 1899*), or any other Act for the time being in force regarding the importation, possession, and transport of petroleum, applies, or any other volatile spirit or substance liable to give off an inflammable vapour or liable to spontaneous ignition, or to cause or communicate fire or explosion

IX —The consignor shall attach to the consignment note a certificate or (provided the original is produced for verification) copy of a certificate, signed by an officer authorised by the Local Government in this behalf that the explosive, if it is an explosive of class 3 or 4, is of the standard purity, and further in the case of dynamite, and all nitro glycerine compounds, that there are no signs of exuded nitro glycerine or of liquefaction The consignor shall also certify that the explosive has been packed in accordance with the packing rules in force in England or in British India

X —In the case of explosives under classes 3 and 4 the outer packages shall be marked with the date of the manufacture of the explosives The abovementioned certificate shall contain sufficient information to admit of all packages being easily recognised

XI —The certificate referred to in Rule IX shall be valid for six months after date, if the examination has been made between the 15th October and 31st March, but any Railway Administration which accepts dynamite *and other nitro-glycerine compounds* for transport may demand a fresh certificate *for these explosives if* presented for conveyance between 1st April and 15th October (both inclusive)

XII —Packages containing dynamite *and other blasting explosives of the 3rd (nitro-compound) class, or explosives of the 4th (chlorate mixture), 5th (fulminate) classes or of the 1st division of the 7th (firework) class* shall be stowed in one layer only and secured so as to prevent movement during transit, and the gross load in any one wagon shall not exceed 3 tons

Provided that, if the packages of *explosive* are in rectangular form and are properly secured so as to prevent movement during transit, they may be stowed in any number of layers not exceeding five, and the gross load in any one wagon shall not exceed 5 tons

XIII —No explosive *of* the 5th (fulminate) class or *of the 3rd division in the 6th (ammunition) class, or of the 7th (firework) class* shall be carried *of* the same train with *any explosive not of the class and division to which it*

belongs, unless it be sufficiently separated therefrom to prevent any fire or explosion which may take place in one such explosive being communicated to another

XIV —Wagons used for the carriage of explosive shall be examined to see that they are spark proof and have been cleaned out before they are loaded Hair, cloth, hides, or other suitable materials shall be spread on the floor of the wagon and between each layer of packages except when the packages are covered with gunny or felt or contain *safety cartridges for small arms* packed in tin lined service pattern boxes

XV —Wagons containing explosives shall be loaded and unloaded on sidings distant as far as possible from the station buildings

XVI —Packages containing explosives other than those referred to in Rule 6 (XII) shall not be stored in more than three layers one above the other But if the packages are in rectangular form and of uniform size (provided they are double packages, and are so secured as to prevent movement during transit) they may be packed in five layers one above the other But in the case of safety cartridges for small arms packed in tin lined service pattern boxes, there is no restriction Subject to the provisions of Rule 1 (III), the loading and unloading of explosives when once begun shall be diligently proceeded with until the same is completed

XVII —When the train is being marshalled wagons loaded with explosives may be shunted by a locomotive, if they are separated from the engine by not less than three wagons containing no explosive nor easily inflammable substance This precaution is not necessary with wagons specially constructed for the carriage of explosives The speed of these movements shall be restricted to 5 miles an hour, they shall be superintended by a duly authorised officer who shall be held responsible for the observance of these orders Flying shunts are strictly prohibited

XVIII —Wagons containing explosives shall be placed at the end of the train away from the locomotive, and shall be close coupled to one another as well as to the adjoining wagons, and preceded and followed by three wagons not loaded with explosives or other traffic of an inflammable nature

XIX —If the wagons employed in the transport of explosives are provided with brakes other than iron brakes, the brakes thereon shall on no account be worked while the wagons are running with a train, nor shall brakes other than iron brakes on vehicles immediately adjoining such wagons, be worked while such wagons are so running

XX —Wagons shall in every case be locked when loaded with explosives

XXI —All operations connected with the transhipment of explosives at junction stations shall take place during daylight

7 Whoever commits a breach of any of the foregoing rules relating to the mode of conveyance of explosives shall be punishable with a fine which may extend to R100

IMPORTATION

8 An explosive shall not be imported by sea into British India, except under, and in accordance with, the conditions of a license to import the explosive granted under these rules

Provided that any explosive other than an explosive specified in Rule 11 may, previous to the grant of an importation license, if certified to be of British manufacture or, if not of British manufacture, if imported from the United Kingdom and covered by the certificate granted by one of Her Majesty's Inspectors of Explosives in England, be landed in accordance with such regulations as the Local Government may prescribe in this behalf, and be stored in a place set apart by the Local Government for this purpose The Governor General in Council may extend this privilege to any such explosive not of British manufacture regarding which he is satisfied that it has been manufactured under adequate official supervision

Before any explosive is landed under the proviso to this rule, the consignee shall give to the Chief Customs Officer of the Port such undertaking, with or without security, as the said officer thinks sufficient, to obey, in the event of

the explosive failing to satisfy the prescribed tests, such directions as to its disposal as the Local Government may see fit to prescribe

If samples are taken by an officer deputed by the Chief Customs Officer on board the ship on its arrival the procedure shall be that prescribed in Rule 15

9 Whoever imports an explosive in contravention of Rule 8 shall be punishable with fine which may extend to three thousand rupees

10 An explosive shall not be imported by sea except at one of the Ports of Calcutta, Madras, Bombay Rangoon, Calicut Karachi, Aden and (in the case of crackers only) Negapatam But a license to import an explosive by sea from Rangoon into the port of Akyab Moulmein Sandoway, Kyouk Phyoo, Tavoy or Mergui, as the case may be, may be granted by the Magistrate of the district in which such port is situated The fee payable in respect of each such license shall be one rupee and the license shall be in Form A in the Schedule hereto annexed.

11 If the explosive is gunpowder or an explosive of the 1st division of the 6th (ammunition) class or an explosive of the 7th (firework) class the license to import the same may be granted at the Port of Calcutta, Madras or Bombay by the Commissioner of Police, and at the Port of Rangoon, Calicut, Karachi Aden or Negapatam by the District Magistrate

12 The fee payable in respect of each such license shall be R10, but if any explosive imported under a license into a British port is exported thence to another British port named in Rule 10 the necessary license for such re import may be granted on payment of a fee of one rupee instead of R10

13 Licenses for the importation by sea of any explosives other than those specified in Rule 11 shall be granted by the Local Government or by some officer specially authorised by the Local Government in this behalf

14 No license shall be granted for the importation of any explosive of the description referred to in Rule 13, *unless it is an explosive authorized for manufacture in or importation into the United Kingdom for general sale and* if it is an explosive for which a test or examination has been prescribed by or under the orders of the Government of India, unless samples of the explosive taken as hereinafter provided are certified by the Chemical Examiner or some other officer appointed by the Local Government in this behalf to have passed the test or examination from time to time prescribed

15 On the arrival in any port at which the importation of explosives is lawful of a ship having on board an explosive other than an explosive of the description referred to in Rule 11, such officer as the Chief Customs Officer authorises in this behalf shall, as soon as may be proceed on board and shall if testing or examination is requisite under the last preceding rule obtain samples of the explosive

All explosives of which samples are taken for examination shall be forthwith deposited in a duly licensed place or places of storage and shall not be distributed for use until the importer has received from the licensing authority notice that it may be so distributed

The master of the ship shall give to the said officer, without charge such samples as he may require The said officer shall affix to each such sample the name of the ship and of the consignee and such other distinguishing marks as he may think necessary, and shall forward the same to the Chemical Examiner or officer, as aforesaid, for report

The Chemical Examiner or officer as aforesaid, after testing the said samples, shall without delay forward to the licensing authority through the Chief Customs Officer a report under his signature certifying whether the explosive has satisfied the prescribed test.

15A Explosives, other than those referred to in Rule 11 which have already undergone the test prescribed by Rules 14 and 15 at the ports of Calcutta, Madras, Bombay, Rangoon Calicut Karachi, or Aden, may be re imported by sea into any other of those ports under a license granted under Rule 13, without re testing, but subject, in the case of such explosives as are mentioned in Rule 6, Clause IX, to the production of the certificate prescribed in that clause

*Such certificate shall be valid for six months after date, if the examination has been made between the 15th October and 31st March but in the case of

dynamite, a fresh certificate may be demanded if the consignment is imported between the 1st April and 15th October (both inclusive)

16 The period for which a license to import an explosive, granted under Rule 13, shall continue in force shall not exceed such period as may seem necessary to the authority granting the license

17 The fee payable on a license granted under Rule 13 shall be R10, but if any explosive imported under a license into a British port is exported thence to another British port named in Rule 10, the necessary license for such re import may be granted on payment of a fee of one rupee instead of R10

18 Every license granted under Rules 11 and 13 shall be in Form A in the Schedule hereto annexed, and shall be subject to the conditions therein prescribed, and also to such additional conditions with respect to the time and place of unloading, landing, delivery and conveyance of the explosive, and such other conditions as may in each case be thought by the licensing officer to be necessary for the public safety or in the interests of the State

19 Whoever commits a breach of any condition subject to which a license under Rules 11 and 13 is granted, shall be punishable with fine which may extend to three thousand rupees

GENERAL

20 Every license granted under these rules shall be liable to be forfeited on breach of any of the conditions subject to which it is granted

21 If a person licensed to import an explosive dies or becomes bankrupt or becomes mentally incapable or otherwise disabled, the person carrying on the business of such licensee shall not be liable to any penalty or forfeiture under the Indian Explosives Act (IV of 1884) or the rules thereunder for acting under the license during such reasonable time as may be necessary to allow him to make an application to the authority granting the license for a new license in his own name during the currency of the unexpired portion of the original license Such new license shall be granted on payment of one rupee

22 The fees leviable under these rules shall be taken in the shape of impressed stamps Ordinarily the applications for licenses or renewals of licenses shall if not otherwise provided be written on impressed stamps of value equal to the amount of fee leviable in respect of such licenses or renewals the licenses themselves being issued on plain paper But when the licenses themselves are written on printed or impressed stamps, the application may be on plain paper When an application for license is written on an impressed stamp and the license is refused, the value of the stamp will, on application, be refunded to the applicant

23 When a license granted in accordance with these rules is lost or accidentally destroyed, a duplicate may be granted to the licensee on payment of a fee of 8 annas

24 Any person holding a license, or acting under a license granted in accordance with these rules shall be bound to produce the same when called upon to do so by any Magistrate, or by any Police officer in charge of a Police station, or by any Police officer of higher rank

25 All Magistrates or other authorities acting under these rules shall perform their duties subject to the control of their executive superiors and of the Local Government

26 Any authority empowered to grant a license under the foregoing rules may, if he thinks fit direct by any order written on the license that it shall have the effect of a like license under the Indian Arms Act (XI of 1878)

27 Any persons lawfully entitled under the Indian Arms Act, 1878 (X of 1878), or the rules thereunder, to possess any explosive coming under the head of ammunition as defined in that Act, may possess or import without license under these rules any such explosive in such quantities as may be prescribed by that Act or the rules thereunder or, when no quantities are prescribed, in reasonable quantities for his own private use, but, when an explosive is so imported, the Collector of Customs or any other officers empowered by the Local Government in this behalf by name or by virtue of his office may at any time detain such explosive until he receives the orders of the Local Government thereon.

FORM A

(*See Rules 11, 13 and 18*)

FEE TEN RUPEES IN STAMPS

License to import Explosives into the Port of -

Name etc and address of license-holder	Number of packages	Explosive			Purpose for which required	Destination	Period for which the license is valid
		Description	Weight	Number			
							From ——— th of ——— to the ——— th of ——— 190

The ——— of ——— 190 ——— (Seal) (Signature) ——— of

Conditions

1 This license is given subject to the provisions of the Indian Explosives Act (IV of 1884) and the rules thereunder Certain general rules are quoted separately below

2 This license shall become void after expiry of the period named thereon

3 This license is valid for importation only if the articles named herein are to be transported to any place outside the Presidency Town they must be protected by a transport license to be issued in accordance with the rules under the Indian Arms Act (XI of 1878)

4 On the outside of each package there shall be affixed in conspicuous characters by means of a brand or securely attached label or mark the word Explosive" followed by the name of the explosives or other description of the contents and the name and address of the owners or senders

GENERAL RULES

* * *

20 Every license granted under these rules shall be liable to be forfeited on breach of any of the conditions subject to which it is granted

21 If a person licensed to import an explosive dies or becomes bankrupt or becomes mentally incapable or otherwise disabled, the person carrying on the business of such licensee shall not be liable to any penalty or forfeiture under the Act or the rules made thereunder for acting under the license during such reasonable time as may be necessary to allow him to make an application to the authority granting the license for a new license in his own name during the currency of the unexpired portion of the original license Such new license shall be granted on the payment of one rupee

22 The fees leviable under these rules shall be taken in the shape of impressed stamps Ordinarily the applications for license or renewals of licenses shall if not otherwise provided be written on impressed stamps of value equal to the amount of fee leviable in respect of such licenses or renewals, the licenses themselves being issued on plain paper But when the licenses themselves are written or printed on impressed stamps, the application may be on plain paper When an application for license is written on an impressed stamp and the license is refused, the value of the stamp will, on application, be refunded to the applicant

23 When a license granted in accordance with these rules is lost or accidentally destroyed, a duplicate may be granted to the licensee on payment of a fee of 8 annas

24 Any person holding a license, or acting under a license granted in accordance with these rules, shall be bound to produce the same when called upon to do so by any Magistrate, or by any Police officer in charge of a Police station, or by any Police officer of higher rank

Draft Rule for Testing Explosives

WITH reference to Rule 14 of the Rules to regulate the transport and importation of explosives published with Home Department Notification No dated the 1901 the Governor General in Council is pleased to make the following Rule on the subject of the tests which explosives should be required to pass before their importation is permitted

RULE

Class 1 —Gunpowder class Gunpowder is not required to pass a test

Class 2 —Nitrate mixture class Nitrate mixture explosives are not ordinarily required to pass a test The Local Government, however or the authorized officer granting the import license under Rule 13 of the Rules to regulate the transport and importation of explosives published with Home Department Notification No 1398 dated the 8th July 1897 may in any particular case or class of cases require that a sample of the explosive which is to be imported be sent first to the Chemical Examiner for an analysis of its constituent parts

Class 3 —Nitro compound class It is for explosives of this class that testing is chiefly required in respect to the purity of their composition and their liability to liquefaction or exudation The tests prescribed for nitro compound explosives are contained in Schedule A attached to this rule

Class 4 —Chlorate mixture class See Schedule A for remarks regarding the testing of this class (*)

Class 5 —Fulminate class No test has been laid down for explosives of the Fulminate class (*)

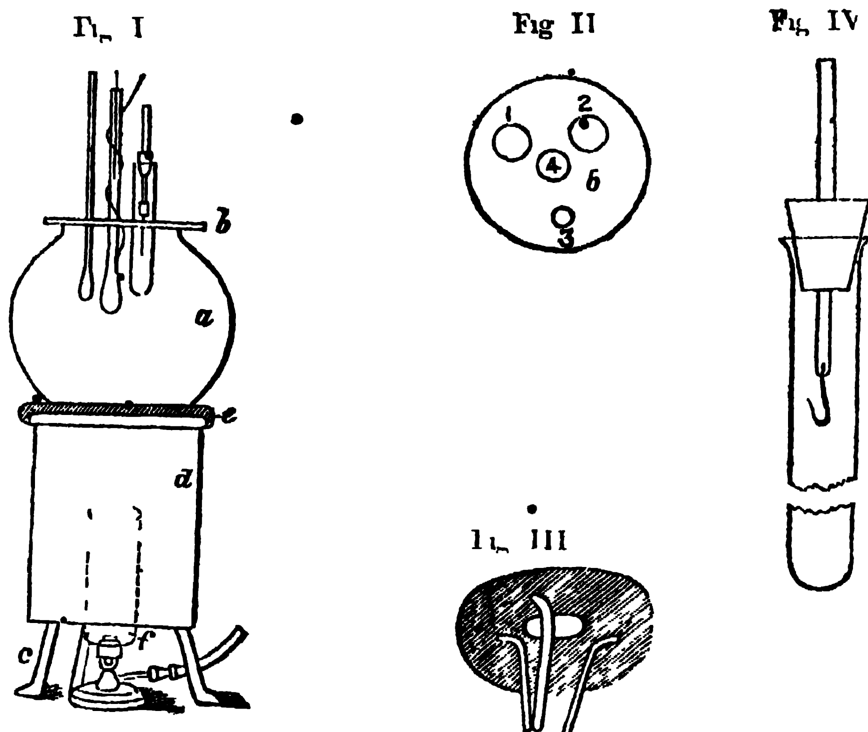
Class 6 Ammunition class No test is required for explosives of the 1st Division of this class If the substances of which explosives of the 2nd and 3rd Divisions are composed have to be tested under the preceding rules they will be equally liable to be tested when enclosed in any case or contrivance and thus falling under the Ammunition class

Class 7 - Firework class Explosives of this class are not required to pass a test

-

SCHEDULE A

Heat Test as applied to Explosives of the Nitro compound Class.



GENERAL INSTRUCTIONS

Apparatus required

1 A water bath, consisting of a spherical glass or copper vessel [(a) Fig 1] of about 8 inches diameter and with an aperture of about 5 inches, the bath is filled with water to within a quarter of an inch of the edge It has a loose cover of sheet copper about 6 inches in diameter (b), and rests on a tripod stand about 14 inches high (c) which is covered with coarse iron wire gauze (e), and is surrounded with a screen of thin sheet tin or copper (d) Within the latter is placed an Argand burner (f) with glass chimney The cover (b) has four holes arranged as seen in Fig II, No 4 to receive the regulator, No 3 the thermometer, Nos 1 and 2 the test tubes containing the gun cotton or other materials to be tested Around holes 1 and 2 on the under side of the cover are soldered three pieces of brass wire with points slightly converging

* Licenses are not at present given for the importation into British India of any explosives of these classes

Fig III), these act as springs and allow the test tubes to be easily placed in position and removed

* 2 Scheibler's or Page's temperature regulator

3 Two cells of Leclanche's battery No 1 } if Scheibler's regulator is
* 4 A few yards of insulated copper wire } used

5 Test tubes from 5¼ to 5½ inches long and of such diameter that they will hold from 20 to 22 cubic centimeters of water when filled to a height of 5 inches

6 India rubber stoppers fitting the test tubes and carrying an arrangement for holding the test paper *i.e.* a narrow glass tube passing through the centre of the stopper drawn out so as to form a hook, or terminating in a platinum wire hook (Fig IV)

7 A thermometer with range not less than from 30° to 212° Fahrenheit

8 A minute clock

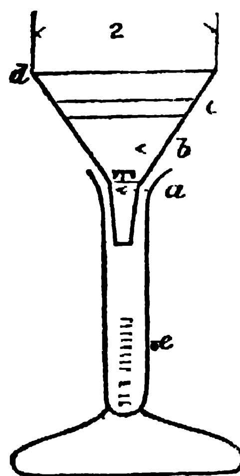
Materials required

(a)* *Test paper* — The test paper is prepared as follows —45 grains of white maize starch (cornflour) previously washed with cold water are added to 8½ ounces of distilled water the mixture is stirred heated to boiling and kept gently boiling for 10 minutes, 15 grains of pure potassium iodide (*i.e.*, which has been recrystallized from alcohol) are dissolved in 2½ ounces of distilled water. The two solutions are thoroughly mixed and allowed to get cold. Strips or sheets, of white English filter paper previously washed with water and re-dried are dipped into the solution thus prepared, and allowed to remain in it for not less than 10 seconds they are then allowed to drain and dry in a place free from laboratory fumes and dust. The upper and lower margins of the strips or sheets, are cut off, and the paper is preserved in well stoppered or cork bottles, and in the dark †. The dimensions of the pieces of test paper used are about 4/10 inch by 8/10 inch (10 mm by 20 mm)

* This is not absolutely required as the temperature of the bath can be kept constant by proper attention to the heating flame

† When a paper is freshly prepared and as long as it remains in good condition a drop of dilute acetic acid put on the paper with a glass rod produces no coloration. In process of time however the stronger the light to which the paper is exposed the sooner a drop of the acid produces a brown or bluish coloration (a single hour of direct sunlight produces a marked effect) and whenever this is the case the paper should be rejected. On this account it is advisable not to prepare too much of the test paper at one time but to prepare it fresh every month or so

(*b*) *Standard tint paper.*—A solution of caramel in water is made of such concentration that when diluted one hundred times (10 cc made up to 1 litre) the tint of this diluted solution equals the tint produced by the Nessler test in 100 cc water containing 0.000075 grm. of ammonia or 0.0002353 grm. of chloride of ammonium. With this caramel solution lines are drawn on strips of white filter paper* by means of a clean quill pen. When the marks thus produced are dry the paper is cut into pieces of the same size as the test paper previously described in such a way that each piece has a brown line across it near the middle of its length, and only such strips are preserved in which the brown line has a breadth varying from ½ mm. to 1 mm. ($\frac{1}{50}$ of an inch to $\frac{1}{25}$ of an inch).



I.—Testing Dynamite, Blasting Gelatine, and other Explosives of the First Division of the Nitro-compound Class.

A.—DYNAMITE, ETC., ETC.

Nitro-glycerine preparations from which the nitro-glycerine can be extracted in the manner described below *must* satisfy the following test,† otherwise they will not be considered as manufactured with "thoroughly purified nitro-glycerine" within the terms of the licence.

Apparatus required.

A funnel 2 inches across (*d*); a cylindrical measure divided into grams (*e*). (See sketch.)

Mode of operation.

About 300 to 400 grams of dynamite (*b*) finely divided are placed into the funnel, which has previously been loosely plugged by some freshly ignited asbestos (*a*).

The surface is smoothed by means of a flat-headed glass rod or stopper and some clean washed and dried Kieselguhr (*c*) is spread over it to the depth of about ⅛ inch.

Water is next carefully dropped from a wash bottle upon this Kieselguhr and when the first portion has been soaked up, more is added; this is repeated until sufficient nitro-glycerine has been collected in the graduated measure (*e*) below.

If any water should have passed through with the nitro-glycerine, it should be removed with a piece of blotting paper and the nitro-glycerine, if necessary, filtered through a dry paper filter.

* This paper must be carefully washed with distilled water in the first instance to remove any traces of bleaching matter and dried.

† This test, though at present looked upon as the most important as far as testing the purity of the nitro-glycerine is concerned, is in England only one of several which any given sample of nitro-glycerine preparation has to satisfy in order to establish its compliance with the definition in the license.

Application of the Test

The thermometer is fixed so as to be inserted through the lid of the water bath described under I page 2 into the water (which is to be steadily maintained at a temperature of 160° Fahr) to a depth of 2¼ inches Fifty grains of nitro glycerine to be tested are weighed into a test tube in such a way as not to soil the sides of the tube A test paper is fixed on the hook of the glass rod so that when inserted into the tube it will be in a vertical position A sufficient amount of a mixture of half distilled water and half glycerine to moisten the upper half of the paper is now applied to the upper edge of the test paper by means of a camel's hair pencil the cork carrying the rod and paper is fixed into the test tube and the position of the paper adjusted so that its lower edge is about half way down the tube the latter is then inserted through one of the perforations of the cover to such a depth that the lower margin of the moistened part of the paper is about five eighths of an inch above the surface of the cover The test is complete when the faint brown line which after a time makes its appearance at the line of boundary between the dry and moist part of the paper equals in tint the brown line of the standard tint paper

The nitro glycerine under examination will not be considered as "thoroughly purified" within the terms of the license unless the time necessary to produce the standard tint as above described is at least 15 minutes

B—BLASTING GELATINE GELATINE DYNAMITE AND ANALOGOUS PREPARATIONS

Fifty (50) grains of blasting gelatine are to be intimately incorporated with one hundred (100) grains of French chalk * The mixture is to be gradually introduced into a test tube of the dimensions prescribed above for the dynamite heat test with the aid of gentle tapping upon the table between the introduction of successive portions of the mixture into the tube, so that when the tube contains all the mixture it shall be filled to the extent of 1¾ inches (one inch and three quarters) of its height The test paper is then to be inserted and the heat is to be applied in the manner prescribed above for the dynamite heat test and the sample tested is to withstand exposure to 160 Fahr for a period of ten (10) minutes before producing a discoloration of the test papers corresponding in tint to the standard colour test which is employed for governing the results of the dynamite heat test

(For Exudation and Liquefaction tests for Blasting Gelatine etc , etc , see Appendix p 7)

N B—Non gelatinized nitro glycerine preparations from which the nitro glycerine cannot be expelled by water are tested without any previous separation of the ingredients, the temperature being as above (160 Fahr) and the time being seven (7) minutes

C—CORDITE AND BALLISTITE

1 Apparatus required

The apparatus necessary for the application of the heat test to cordite is identical with that described above (see page 2) for explosives of the nitro compound class generally † with the addition of a mill and a nest of sieves similar to those used at Waltham Abbey for preparing the cordite for testing (see Instructions below)

* This can be readily effected by carefully working the two materials together with a wooden pestle in a wooden mortar

The French chalk should be of good commercial quality and after being carefully washed [illegible] water and dried in a water oven it should be exposed under a bell jar [illegible] until it has taken up about ·05 per cent of moisture It should then be bottled for use and with ordinary care the limits [illegible] can be maintained in keeping

† In the Waltham Abbey apparatus the cover (Fig II) has all the holes around the circumference instead of having one in the centre and three around the circumference

2 Preparation of the sample to be tested

Pieces half an inch long are cut from one end of every stick selected for the test, in the case of the thicker cordites each piece so cut is further sub divided into about four portions These cut pieces are then passed two or three times through the mill, the first portion of material which passes through being rejected on account of the possible presence of foreign matter from the mill The ground material is put on the top sieve of the nest of sieves and sifted That portion which has passed through the top sieve and been stopped by the second is taken for the test After each sample has been ground the mill must be taken to pieces and carefully cleaned

3 Application of the Test

The thermometer is fixed so as to be inserted through the lid of the water bath described under I page so as to be immersed in the water to a depth of 2¾ inches The water is maintained at a constant temperature of 180 Fahr When this temperature is reached 20 grains of the sifted cordite are put into one of the test tubes and collected at the bottom by gentle tapping A test paper is fixed on to the hook of the glass rod so that when inserted into the tube it will be in a vertical position A mixture of equal parts of distilled water and pure glycerine (Price's) is now applied to the upper edge of the test paper by means of a camel's hair pencil in sufficient amount to moisten the upper half the stopper carrying the rod and paper is fixed into the test tube and the position of the paper adjusted so that its lower edge is about half way down the tube the latter is then inserted through one of the perforations of the cover to the same depth as the thermometer The lower margin of the moistened part of the paper should then be about five eighths of an inch above the surface of the cover The test is completed when the faint brown line which after a time makes its appearance at the margin between the wet and dry portions of the test paper equals in depth that of the brown line drawn on the standard tint paper

4 The time which elapses between the insertion of the test tube and the completion of the test must not be less than 15 minutes

N B—In the case of ballistite the treatment is the same except that when it is in a very finely granulated condition it need not be cut up

---

II —Testing Gun cotton, Schultze Gunpowder, E C Powder, and other Explosives of the 2nd Division of the Nitro compound Class

A —GUN COTTON TONITE ETC, ETC

Sufficient material to serve for two or more tests is removed from the centre of the cartridge by gently scraping and if necessary further reduced by rubbing between the fingers

The fine powder thus produced is spread out in a thin layer upon a paper tray 6 inches by 4½ inches which is then placed inside a water oven kept as nearly as possible at 120° Fahr

The wire gauze shelves in the oven should be about 3 inches apart The sample is allowed to remain at rest for 15 minutes in the oven, the door of which is left wide open

After the lapse of 15 minutes the tray is removed and exposed to the air of the room for two hours, the sample being at some point within that time rubbed upon the tray with the hand, in order to reduce it to a fine and uniform state of division

Application of the Test

The cover of the water bath is fitted with the gas regulator which is inserted through the centre hole (No 4) The thermometer is fixed into hole No 3 The water in the bath is then heated to 170° Fahr, and the regulator

set to maintain that temperature Twenty grains of the sample to be tested are weighed out, placed in the test tube, and gently pressed down until the specimen occupies a space of as nearly as possible $1\frac{5}{16}$ inches in a test tube of the dimensions specified A test paper is affixed to the hook of the glass rod or tube, and moistened by touching the upper edge with a drop of distilled water containing 50 per cent of Price's glycerine The quantity of liquid used must be only sufficient to moisten about half of the paper The cork carrying the rod and test paper is then fixed into the test tube and the latter inserted into the bath to a depth of 2½ inches, measured from the cover, the regulator and thermometer being inserted to the same depth The test paper is to be kept near the top of the test tube, but clear of the cork until the tube has been immersed for about five minutes A ring of moisture will about this time be deposited upon the sides of the test tube a little above the cover of the bath, the glass rod must then be lowered until the lower margin of the moistened part of the paper is on a level with the bottom of the ring of moisture in the tube, the paper is now closely watched The test is complete when a very faint brown coloration makes its appearance at the line of boundary between the dry and moist parts of the paper

The interval of time between the first insertion of the tube containing the sample of gun cotton in the water at 170° and the first appearance of discoloration on the paper constitutes the test, and this interval of time must be not less than 10 minutes, or the sample will not be accepted as properly purified

B —GELATINIZED GUN COTTON PREPARATIONS *

Twenty-five grains introduced into test tube of the dimensions prescribed for the dynamite heat test, then proceed as for Blasting Gelatine, etc, taking the temperature at 180° Fahr, and the time as 15 minutes

C —SCHULTZE POWDER, E C POWDER, COLLODION COTTON, ETC, ETC

Sufficient of the sample, without further mechanical division, is dried in the oven as above, and then exposed for two hours to the air The test as directed above for Compressed Gun cotton, etc, is then applied, the minimum duration of test being the same, *viz*, 10 minutes

D —PICRIC ACID

(1) The material shall contain not more than 0 3 part of mineral or non combustible matter in 100 parts by weight of the material dried at 160° Fahr

(2) One hundred parts of the dry material shall not contain more than 0 3 part of total (free and combined) sulphuric acid, of which not more than 0 1 part shall be free sulphuric acid

(3) Twenty grains of the material shall stand the heat test as laid down for dynamite (*see ante*, p 206) for not less than 15 minutes

E —AMMONITE, BELLITE, ROBURITE, AND EXPLOSIVES OF SIMILAR COMPOSITION

These are required to stand the same heat test as gun cotton (*see ante*, p 208)

III —Testing Chlorate Mixtures

No tests have yet been laid down, as at present there are no authorized explosives of this class, but in the event of any being authorized, it would be

* If in a compressed form it should be broken up in the same manner as cordite and ballistite.

necessary to require that they should satisfy the heat test laid down for Gun-cotton, and from time to time the degree of sensitiveness to percussion or friction (especially a glancing blow) should be observed

APPENDIX

Exudation and Liquefaction Test for blasting Gelatine, Gelatine Dynamite and Analogous Preparations

TEST FOR LIQUEFACTION

A cylinder of blasting gelatine is to be cut from the cartridge to be tested, the length of the cylinder to be about equal to its diameter and the ends being cut flat

The cylinder is to be placed on end on a flat surface without any wrapper and secured by a pin passing vertically through its centre

In this condition the cylinder is to be exposed for one hundred and forty four (144) consecutive hours (six days and nights) to a temperature ranging from 85 to 90 Fahr (inclusive), and during such exposure the cylinder shall not diminish in height by more than one fourth of its original height, and the upper cut surface shall retain its flatness and the sharpness of its edge

N B —If the blasting gelatine and the gelatine dynamite to be tested be not made up in a cylindrical form the above test is to be applied with the necessary modifications

TEST FOR LIABILITY TO EXUDATION

There shall be no separation from the general mass of the blasting gelatine or gelatine dynamite of a substance of less consistency than the bulk of the remaining portion of the materials under any conditions of storage, transport, or use or when the material is subjected three times in succession to alternate freezing and thawing or when subjected to the liquefaction test hereinbefore described

ESTABLISHMENTS

The 28th March 1901

No 21 —The services of Mr H J McIntosh of the Indian Civil Service are placed at the disposal of the Finance and Commerce Department for employment as Deputy Secretary in that Department

MEDICAL

The 28th March 1901

No 40 —Colonel T H Hendley C I E I M S (Bengal) Inspector General of Civil Hospitals, Bengal, is granted leave out of India on private affairs under article 791 Army Regulation India Volume I Part I for eight months, with effect from the 2nd April 1901 or the subsequent date on which he may avail himself of it

The 29th March 1901

No 460 —Lieutenant Colonel J McConaghey, M D, I M S (Bengal) Civil Surgeon, Lucknow is appointed to officiate as Inspector General of Civil Hospitals Bengal, during the absence, on leave, of Colonel T H Hendley C I E I M S (Bengal), or until further orders

JUDICIAL

The 26th March 1901

No 401 – In Home Department Notification No 309, dated the 8th March 1901, granting furlough to the Hon'ble Mr Justice Stevens, a Judge of the High Court of Judicature at Fort William in Bengal, for the "15th September 1901" *read* "10th November 1901"

The 27th March 1901

No 408—The Hon'ble Sir H T Prinsep, Kt a Judge of the High Court of Judicature at Fort William in Bengal, is granted furlough, with effect from the 6th April 1901, or from any subsequent date on which he may avail himself of it, to the 16th November 1901

No 411—Under the provisions of the Indian High Courts Act, 1861 (24 and 25 Vict, C 104), section 7 the Governor General in Council is pleased to appoint Mr T B Taylor Indian Civil Service, Judicial Commissioner, Chota Nagpur to officiate as a Judge of the High Court of Judicature at Fort William in Bengal, during the absence on furlough of the Hon ble Mr Justice Stevens or until further orders

The 28th March 1901

No 421—Mr A B Miller, Official Trustee of Bengal, is granted leave of absence for eight months with effect from the 1st May 1901, under article 726 of the Civil Service Regulations

J P HEWETT
Secy to th Govt of India

The following order, issued by the Government of India in the Military Department is republished for general information

C E BUCKLAND,
Offg Chief Secy to the Govt of Bengal

Fort William, the 29th March 1901

MEDICAL DEPARTMENT

No ...—The following extract being paragraph 1 of a Military Despatch from the Right Hon ble the Secretary of State for India, No 17, dated 22nd February 1901 is published for general information —

India Office London, 22nd February 1901

Military, No 17

TO HIS EXCELLENCY THE RIGHT HON BLE THE GOVERNOR GENERAL OF INDIA IN COUNCIL

My Lord,

The undermentioned probationers for the Indian Medical Service having completed a course of instruction at the Army Medical School and being reported qualified, have been appointed Lieutenants their commissions being dated the 29th January 1901 the day on which they passed out of the Army Medical School —

Indian Medical Service Appointment of Lieutenants

James Masson (*Bengal*)
Norman Septimus Wells (*Bengal*)
William Maurice Anderson (*Bengal*)
Edmond Hamilton Blake Stanley (*Bengal*)

WEDNESDAY, APRIL 3, 1901

PART IB

ORDERS BY THE LIEUT GOVERNOR OF BENGAL

MUNICIPAL AND LOCAL

NOTIFICATION

No 1293M —The 27th March 1901 —It is hereby notified for general information that the Lieutenant Governor intends in the exercise of the power vested in the Local Government by section 221 of the Bengal Municipal Act III of 1884 as modified up to 1st November 1896 and in accordance with the recommendation of the Commissioners of the Chandpur Municipality in the district of Tippera, made at a meeting, to extend the provisions of Part IX of the said Act to the above Municipality, unless good reasons are shown to the contrary within one month from the date of the publication of this notification within the Municipality

Tippera

E N BAKER,
Secy to the Govt of Bengal

NOTIFICATION

No 1349M —The 29th March 1901 —It is hereby notified that, under section 27 of the Bengal Municipal Act III of 1884 as modified up to 1st November 1896 the Lieutenant Governor is pleased to appoint Babu Buldeo Sahai to be a Commissioner of the Madhubani Municipality, in the district of Darbhanga *vice* Babu Rajani Kanta Gupta, resigned.

Darbhanga.

E N BAKER,
Secy to the Govt of Bengal

NOTIFICATION

No 1357L S G —The 30th March 1901 —It is hereby notified for general information that under section 6 clause (c) of the Bengal Ferries Act, I of 1885, the Lieutenant Governor is pleased to establish two new public ferries named in the margin in the district of Chittagong

Chittagong

1 Shonal ferry at Garduara over the river Halda in thana Hathazari.
2 Sepoy's Ghat ferry at Gohira over the river Halda in thana Ranjan

2 The Lieutenant Governor is also pleased, in the exercise of the power conferred on him by section 35 of the aforesaid Act to direct that the ferries named above shall be managed by the District Board of Chittagong and that all the proceeds of the said ferries and all fines levied and compensation received under the said Act in respect thereof shall be paid into the District Fund, with effect from the date of this notification

E N BAKER,
Secy to the Govt of Bengal

NOTIFICATION

No 1383I S G — The 2nd April 1901 — It is hereby notified that under section 19 of the Bengal Local Self Government Act III of 1885 the Lieutenant Governor is pleased to appoint Babu Khogendra Nath Ganguli to be a member of the Sadar Local Board in the district of 24 Parganas vice Babu Nabin Chand Ghosh deceased

24 Parganas

I N BAKER,
Secy to the Govt of Bengal

NOTIFICATION

No 1386M — The 2nd April 1901 — It is hereby notified that the Commissioners of the Monghyr Municipality in the district of Monghyr having at a meeting requested the Local Government under section 23 of the Bengal Municipal Act III of 1884 as modified up to 1st November 1896 to appoint a Chairman the Lieutenant Governor is pleased to appoint Mr C R Marindin to be their Chairman vice Mr J H C Walsh resigned

Monghyr

BOOKS—*contd*									
1900	Pages					Rs A P			
Sept 26th	[illegible]	16mo cr	1st	1,000	Printed	0 12 0	The author 6 Dwarká Náth [illegible] Street Calcutta	A Bengali translation of the wellknown Sanskrit drama of the same name	717
29th	151	16mo dy	1st	1,000	ditto	1 0 0	The author [illegible] Store Road Beliaghata Calcutta	A Bengali translation of the wellknown Sanskrit drama of the same name	718
18th	79	12mo dy	1st	1,000	ditto	0 8 0		Is a story relating the marriage of the Prince Indar with the Princess Lilá and of the Prince Vinod with the Princess Málá Both the Princes go through strange vicissitudes the first through the machinations of an unscrupulous minister of his uncle the king and the second partly from the same cause and partly through reverses of fortune and their ultimate good luck is due to the exertions of a sanyási	719
Oct 15th	76	12mo dy	1st	1,000	ditto	0 6 0	The author Bag bázar Calcutta	Is a dramatised version of some of the incidents of Krishna's life in Vrindávan ending with his transformation into the goddess *Kali* with the object of averting the suspicions of Ayán the husband of his beloved Rádhá	720
15th	35	12mo dy	1st	1,000	ditto	0 4 0	ditto	Is the story of a jewel which the king Satrájit obtained from the Sun god and made over to his brother Prasena The latter while trying to escape with it from Dwaraká was killed by a lion and the jewel eventually fell into the hands of Jámvuván the bear chief who helped Ráma in his war against Rávana Now Prasena's sudden disappearance gave rise to suspicious and as Krishna had once asked the king for the jewel his name came to be mentioned in this connection He accordingly set out to clear up the mystery traced the jewel to the infant son of Jámvuván and took it by force after defeating his father Thus was Krishna's character vindicated	721
10th	254	12mo dy	1st	1,000	ditto	1 4 0	The author 57 1 College Street Calcutta	Is the mythological story of Mahírávana son of Rávana dramatised He was the king of the nether regions and a great adept at magic Rávana required his help in conquering Ráma and Lakshmana He accordingly had them brought over to his capital with the help of magic and made preparations for sacrificing them on the alter of the goddess *Bhadra Kali* When everything was ready Ráma and Lakshmana were told to salute the goddess and as they professed ignorance of the desired operation Mahírávana himself went through the process with the object of enlightening his victims Now the monkey chief Hanumán who had traced the whereabouts of his masters and secreted himself near by, took advantage of the situation and severed the head of the prostrate Mahírávana This is the ordinarily accepted story which has run to inordinate length at the hands of the writer But his additions to the plot make it only prolix and incoherent, and the book is exceedingly tedious reading	722
Sept 29th	154	12mo dy	1st	1,000	ditto	0 12 0	The author Howrah	Is an historical drama based on Tod's Rájasthán The incidents described happened in the beginning of the past century when the Maháráná Bhím Sinha of Mewar had to sacrifice her daughter the Princess Krishná in order to avoid the risk of a war with the different claimants for her hand She submitted to her fate with a resignation becoming a Rájput Princess and drank the poison which was administered to her by her father's natural brother Joán Sinha The plot differs in some respects from the account narrated by Tod, and the parts assigned in the play to Purandar Sangrám Sinha Mana Sinha and Amir Khán are instances in point The book is a readable one and considerable skill is shown in the delineation of the characters of Sangrám Sinha Bhím Sinha Suramá Murala and others	723

1900	Pages					Rs A P			
Sept 25th	122	16mo de	1st	1 000	Printed	0 12 0	The author 28 1 Jhámápukur Lane Calcutta	Is based on the story of the ravishment of Ahalyá wife of the sage Gautama by Indra king of gods The plot is as follows —The sage Visvámitra who had obtained Brahmanhood through the practice of austerities was told by king Janaka that his place was still far below that of a real Bráhman To get the truth of this he went to the hermitage of the sage Gautama and was struck by his meekness of behaviour which was in strong contrast with his own insolent carriage To test the sage s power of self control he induced him to leave his young wife for a time and to start on a distant journey During his absence from the hermitage Indra seduces his wife and then casts her off after a time Ahalyá resented this slight by stabbing the faithless god The latter was however picked up by the wronged sage who on his return from the sojourn had repaired to his hermitage but finding it deserted had renounced the world and gone to Mount Kailás where he met the god Indra recovered from his wounds through the nursing of the sage and obtained a free pardon from him The sage was equally charitable to his erring wife who after living for years like a beast in the deserted hermitage shunning and shunned by humanity had her eyes opened to her own misconduct through the words of sympathy and instruction addressed to him by Ráma Chandra and went to her husband to ask his forgiveness She was forgiven and taken back with open arms These and similar instances of Gautama s charity and forgiving disposition greatly impressed Visvámitra and he admitted the correctness of Janaka s observation The delineation of Gautama as an ideal Bráhman and the gradual evolution of his character have been executed with superior art and skill The characters of Ahalya as well as of the servant couple Chiranjiva and Málhuri are equally well done The author has developed dramatic genius of superior order and the book abounds with passages of great beauty and originality	7
Oct 20th	58	12mo dy	1st	2 000	ditto	0 5 0	The publisher 333 Upper Chitpur Road Calcutta	Is a low class farce being a protest against female education and female emancipation movements Gopál Chandra Banerji marries Vinodini Chatterji M A who was a member of the Female Emancipation Society He attempt to play the emancipated lady in her husband s house brings matters to a crisis and her husband unable to put up with her conduct turns her out of the house It is a vulgar production and does not call for further notice	
Nov 8th	104	12mo dy	1st	00	ditto	1 0 0	Hara Kumár Ráy	Is the popular story of the king Srivatsa in a dramatised form It is a silly vulgar production	
Aug 1st	55	12mo dy	1st	3 000	ditto	0 8 0	The author	Relates the Puranic story of the disturbance of the sage Visvámitra s meditations through the combined agency of Spring and the heavenly nymphs The sage began his yoga with the object of attaining the threefold powers of creation, protection and destruction This terrified Indra the king of gods and he sent Spring and the heavenly nymphs to disturb his meditation They succeeded in their efforts and the sage desisted from his meditation	
1st	156	12mo dy	1st	1 000	ditto	1 0 0		Is a good readable drama based on the Puranic story of the defeat of Bravíra son of the king of Máhismati by Arjuna the great Pándava warrior The plot has been often noticed in detail in this Library Catalogues

1901	Pages					Rs A P			
Oct 22nd	98	16mo [illegible]	2nd	1,000	Printed	1 0 0	The author, Báranasi Ghosh Street, Calcutta	A new edition. The first edition was noticed in this Library Catalogue for the third quarter of 1899	7[illegible]1
Nov 1st	96	16mo [illegible]	1st	7,000	Ditto	0 4 0	Vangavásí Press, 34-1, Kalutolá Street, Calcutta	Humorous pieces exposing, among other things, the cant, hypocrisy and the false sentimentality prevailing in modern Bengali literature and society. It is written in the well known style of the author, who is no other than the great Bengali humorist Babu Indra Nath Banerji	[illegible]
Oct 14th	48	8vo [illegible]	1st	14,000	Ditto		K. P. Kusyapa Press, 30, Kalutola Street, Calcutta	Gives the plot of Homer's Iliad	[illegible]
Aug 28th	50	16mo [illegible]	2nd	1,000	Ditto	0 4 0	The author, Rámbihari Ghosh's Lane, Calcutta	Is the story of a disappointed lover. He was promised the hand of a girl whom he loved provided he could earn Rs. 10,000 by a certain date. He was successful in earning the money, but was late a few days in presenting himself before the guardian of the girl. In the meantime the girl had been married, and her lover had the mortification to see her die of a broken heart. The wife of the girl's elder brother is the sister-in-law of the story who was for marrying the girl to her lover unconditionally	[illegible]4
Sept 10th	210	12mo [illegible]	2nd	1,000	Ditto	1 0 0	Ditto ditto	A new edition	7[illegible]5
[illegible]4th	19[illegible]	12mo [illegible]	2nd	1,000	Ditto	1 0 0	Ditto ditto	Is a story of every day life relating how a young man of good education and character named Hírálál was well nigh ruined by his drinking habit, and how his rescue and reformation were due to the self-sacrificing efforts of his sister Amalá and friend Sures Chandra. Thákurjhi is the appellation given by a Bengali woman to her husband's sister, and Amalá is the Thákurjhi of the story. A sincere devotion to her brother is the principal trait in her character, and it is this devotion which sustained Hírálál in his days of trial and adversity and ultimately reawakened his dormant moral nature	[illegible]6
	100	16mo dy	2nd	1,000	Ditto	0 8 0	Ditto ditto	Is the story of a man's persecution by a woman whose advances he repeatedly rejected with scorn. She was a maid-servant in the man's employ and was dismissed for her unworthy conduct. The persecution failed in the long run and the woman sank to the last degree of distress and degradation	[illegible]7

RESOLUTION ON THE REPORT ON THE ANNUAL ADMINISTRATION OF THE OPIUM DEPARTMENT FOR THE YEAR 1899 1900

REVENUE DEPARTMENT—OPIUM

RESOLUTION—No 1754

Calcutta, the 29th March 1901

READ—

The Report on the Annual Administration of the Opium Department for the year 1899-1900 (1st September 1899 to 31st August 1900)

UNDER the recent orders of the Government of India the reports of the two Opium Agents are not attached to the Board's present report This has required an adaptation of the Opium Agents' tables and statements for incorporation in the present report In the result the Board have remarkably consolidated and shortened their report, and give grounds for still further improvement in the future The tour of Mr Baillie, the Opium Agent for Benares, was most comprehensive and useful, and throughout the Benares Agency the shortest tour of the departmental officers was longer than the longest tour in Bihar The Board notice this, and there is abundant evidence that in the Bihar Agency there is special need of close enquiry and check, and the Board will doubtless ensure that the officers' tours are longer and more thorough The Bihar officers check measured some 10,000 less plots during the year under report than in the preceding year, and in the plots so measured there has been a rise and not a fall in the proportion of failure to cultivate The percentage of such failures is far higher in the Bihar than in the Benares

Agency, and demands the most careful attention from the officers of the Department The Lieutenant Governor hopes to see a marked improvement during the ensuing year The proposal to utilise the patwari agency of the North Western Provinces for reporting poppy areas in the Benares Agency was accepted by the Government of the North Western Provinces and Oudh With the approval of Government, the scheme, however, was not put into execution during the year owing to the employment of the patwaris on census work

2 The increased area engaged for in the Bihar Agency cannot be considered as indicating a genuine increase in the popularity of the crop it was due to a special cause, viz, the long term settlement accompanied by large advances in the Tirhut Sub Agency The cultivators, however, took advantage of the system to obtain loans, free from the interest they would have had to pay to the money lenders, without the intention of maintaining the settlements for the term of years stipulated, and the Board have accordingly rightly discontinued the system In the Benares Agency there was a very remarkable increase in the area engaged for, which the Lieutenant Governor is glad to observe was not confined to any particular division Much of this result is due to Mr Baillie's judicious tour to the various centres, where settlements were being made, and the report indicates the three direct causes that led to the increase The most remarkable proportion of the increase is in the triangular tract of country comprised between Bareilly as the apex and Etawah and Bara Banki to the west and east, respectively

3 The average outturn per bigha in the Bihar Agency showed a fall of 5 chitaks as compared with last year, whereas in Benares it exhibits an increase of some 2 chitaks This was directly due to the very unfavourable season in the Bihar Agency The first sowings failed owing to absence of rain, but the lands were resown on rain falling in November, and the crop promised well, when in January a severe hailstorm wrought great havoc to the crop In the Benares Agency, on the other hand, the rainfall was favourable to the crops, and the year was very free from insect pest Severe damage was, however, caused to the crop by hail in the Azamgarh and Ghazipur Agencies In Bihar there was a decrease in the irrigated area and in the money advanced for wells, the explanation advanced for which is that the good rain from July—September filled the jhils and tanks, rendering irrigation from them practicable This is not, however, quite consistent with the large increase in failures of the land sown during the year under report

The Lieutenant Governor has read with interest the remarks with regard to advances for wells on personal security being increased from Rs 50 to Rs 100 and that refunds should be made in three instalments A good irrigation supply for poppy is all important, and anything that can be reasonably done to increase the popularity of loans for the construction of wells he will welcome

4 He agrees with the Board's remark about making the boundaries of licenses conterminous with those of revenue mauzas the mauza varies so greatly in size that any such general rule would be injudicious the idea of the mauza as a unit may be a good one, but the essential aim should be to assign to the lambardars areas which, while admitting of their being effectively supervised by one person, will still afford sufficient remuneration to attract a good class of men

5 The Lieutenant Governor is glad to notice that Mr Blyth was able to arrange the friction that had occurred between the department and the indigo planters in regard to their claim on poppy lands In the Benares Agency sugarcane cultivation was the chief rival to *poppy*

6 It is satisfactory that at Ghazipur it was possible to manufacture at a consistence within the standard, and that Government therefore was saved the loss that it has suffered for many years past Climatic conditions, prompt weighment, and the efforts of the officer to induce the cultivators to keep down consistence contributed to the success Bad weather and the scanty yield caused a rise in the consistence of the opium from the Bihar Agency, but this is another matter to which the Bihar officers must give their special attention

7 The prejudice against the preparation of leaves still continues in Pihar and the shortage was made up from Benares It will probably be necessary to revise the system of classification and payment, and proposals to that end have been made to the Government of India No definite remedy has so far been devised to obtain a larger supply of pure pasewa from the cultivators in the Benares Agency His Honour will await with interest the continued experiments which are being made He is glad to observe that the adulteration of opium with soapstone has been detected, and trusts that the prompt punishment of the offenders will have a wholesome effect

8 The Lieutenant Governor agrees with the Board in holding that Mr Tytler's proposal to abolish the system of final payments according to factory assay is impossible until a more scientific method of classification by the local authorities is devised He notices with regret the large outstanding balance from the Tehta Sub Agency, and he agrees with the Agent that efforts were not made early enough for its recovery by the officer in charge The Ghazipur Division also shows a large outstanding balance, which is attributed to the damage wrought by hail This no doubt wrought much havoc, but Azamgarh was also reported to have suffered very severely from this cause There would appear to be no *primâ facie* reason why the balance outstanding should be so large in the case of Ghazipur and comparatively small in that of Azamgarh With regard to items shown as irrecoverable careful enquiries should be made and a report submitted for permission to write them off

9 The standard outturn of 54,000 chests of provision and 7,000 to 8,000 maunds of excise opium enjoined by the Government of India was not reached because the average outturn per bigha was lower than that on which the Government of India had based their normal requirements Subsequently at the suggestion of the Government of India the standard requirement has been fixed at 48,000 chests provision opium *plus* the ordinary excise requirements Cultivation will be regulated accordingly

10 The agreement to supply Messrs Burgoyne, Burbidges and Company with a monthly supply of opium alkaloids does not, in view of the repeated analyses made by the Chemical Examiner to Government of the muriates of the Company and their allegations of the impurity of the Government supply, appear satisfactory The Lieutenant Governor awaits the further report promised

11 The expenditure for the year under review showed a decrease in the Bihar Agency of over 8 lakhs and in the Benares Agency an increase of over 30½ lakhs The reasons for the decrease and increase fall under the same heads in both Agencies, viz, cost price of opium, there being a short and large outturn in Bihar and Benares, respectively

12 The Lieutenant Governor notices that the Bihar Agent is of opinion that very little opium is retained by the cultivators for smuggling purposes In the Benares Agency, on the other hand, it seems, judging from the case of the organised gang who were convicted for adulteration, that retention on a large scale is common The Lieutenant Governor, while agreeing that inquisitorial proceedings are not advisable, would again call the attention of the Agent to the necessity of impressing on all officers the need of keeping a careful watch on all cultivators whose outturn is habitually short The statistics of convictions fines and rewards seem to indicate, as the Board observe, a relaxed activity in the administration of the Opium laws In view of the probable increase in the illicit trade with Burma, vigilance must not be relaxed

13 The Lieutenant-Governor is pleased to observe the continued successful working of the alternative asamiwar system in the Aliganj Sub Agency The success that attended its introduction in Bettiah and Tirhut have led the Government of India to sanction its extension to the rest of the Agency, with the exception of the Hazaribagh Sub Agency The Government of India in May 1899 asked for a report as to the possibility of introducing the asamiwar system into the Gorakhpur and Basti subdivisions The Agent's reply is embodied in the Board's report it appears that the system has been introduced with much success in Gorakhpur, where a personal attendance of 92 per cent of the cultivators was secured In Basti cultivators take very small advances, and the percentage there is not so high The Lieutenant

Governor observes that the experiment of packing opium of the first class in bags has turned out well this will result in a considerable saving of expense over the old system of packing in jars, and he trusts that the continued experiment in the same direction with regard to second class opium will eventually prove equally successful The result of the experiment which will be undertaken in Muzaffarpur with a view to the utilisation of the survey maps and settlement records is awaited with interest

14 In conclusion the Lieutenant Governor desires to place on record his thanks to the Hon ble Mr Oldham for his exceptionally able administration of the department during his term of office in the Board The services of Mr Baillie during the year have been of prominent value The commendations of other officers of the department by the Board of Revenue will be noted

By order of the Lieutenant Governor of Bengal,

F A SLACKE,

Secretary to the Govt of Bengal

RESOLUTION ON THE REPORT OF THE COMMITTEE APPOINTED TO ENQUIRE INTO THE WORKING OF THE CALCUTTA PORT TRUST

No 696Mne

Government of Bengal

MARINE DEPARTMENT

Dated Calcutta, the 1st April 1901

RESOLUTION

READ—

Government of Bengal Resolution No 2074 Marine, dated 30th October 1900
Report of the Committee appointed to enquire into the working of the Calcutta Port Trust, dated the 15th March 1901

Resolution—In the Resolution of the 30th October last the Lieutenant-Governor of Bengal appointed a Commission to enquire into matters connected with the Port Trust of Calcutta The Commission consisted of the following gentlemen —

The Hon ble E N Baker, C S I — *President*
The Hon ble G H Sutherland, President of the Chamber of Commerce and partner in the firm of Messrs Begg Dunlop and Company
The Hon ble Sir Allan Arthur, Kt, partner in the firm of Messrs Ewing and Company
Sir Patrick Playfair, Kt, C I E, partner in the firm of Messrs Barry and Company
Mr F G Dumayne Secretary of the Bombay Port Trust
" A Muirhead, General Traffic Manager G I P Railway
" J Lightfoot, Manager Eastern Bengal State Railway — *Members*
" E R Gardiner, Under Secretary to the Government of Bengal, Public Works Department — *Secretary*

2 The Commission held twelve meetings and took evidence, both orally and in writing, from any gentlemen who wished to state their views the Commission inspected all parts of the Trust property and visited Luff Point with reference to the proposal to construct coal docks at that place a Sub Committee of the three expert members of the Commission fully investigated the methods of working, the duties of the staff, the financial results of the operations of the Port Trust, and, generally, the state of efficiency of each branch of the administration of the Trust The report of the Sub Committee is an appendix of the Report of the Commission

Page 2 paragraph 4

THE THREE QUESTIONS REFERRED TO THE COMMISSION

3 The issues, referred to the Commission, were —

(1) How far can the present management of the Port Trust be improved—
(a) with regard to efficiency ?
(b) with regard to economy ?
(2) Should the profits of one part of the Trust property be used to meet deficits on another, or should they be kept entirely separate
(3) Should the offices of Vice-Chairman and Chief Engineer be separated, on the expiration of the term of office of the present incumbent and, if so, what other changes, if any, in the present organization are desirable ?

4 With reference to the first question numerous suggestions are made to increase the efficiency of the various departments of the Trust, and the Commission makes various proposals which are estimated to produce, partly by economy in present expenditure, partly by re-adjustments in existing rates and charges, and partly by increase

Paragraph 188

in rents and miscellaneous receipts, a net annual improvement of nearly 5½ lakhs of rupees in the financial position of the Trust On the other hand, certain named additional capital expenditure is advocated

5 The reply given to the second question is, that the Commission considers that the operations of the Trust should be treated as a whole, and that the contention that each department should be independent and self supporting cannot be maintained

Paragraph 18

In regard to the third question, the Commission points out that there is no difference of opinion on the main point, and recommends, without hesitation, that the posts of Vice Chairman and Chief Engineer should be separated The Lieutenant Governor, with the concurrence of the Commissioners of the Port Trust, has already given his approval to arrangements which will give effect to this recommendation Various recommendations are made concerning less important questions connected with the establishment of the Port Trust

Paragraph 170

FINANCIAL CONDITION OF THE TRUST

7 The Report refers to the fact that, when the Commissioners of the Port entered on their duties in 1870, they took over from Government four jetties and some minor works of improvement of the river bank, and leased the Strand Bank lands At that time they accepted a capital debt, which was subsequently expressed as Rs 17,65,000, representing the value of the Port Block made over to them During the thirty years which have intervened, the Trust has developed and increased their property, so that the book value of the block now stands at more than 570 lakhs of rupees, and the Trust has nearly 36 lakhs accumulated in reserve and sinking funds The Report refers to the development of the Port Trust in those words —

Paragraph 9

Paragraph 10

"For this Capital expenditure the work done by the Trust may be summarised thus — It has greatly extended the jetties and the accommodation provided in connection with them it has furnished special accommodation for the petroleum trade and tea trade, the coal trade and the salt trade, and is now providing similar facilities for the wheat and seed trade It has supplied the shipping with a graving Dock, and is now building a second It has lined the Calcutta bank of the river with wharves for the convenience of the inland trade, and has made similar, though less extensive arrangements on the Howrah bank It has constructed a railway on both banks of the river and has provided a fully equipped Dock for which demands have been made at intervals from so far back as 1781

Page 5 paragraph 10

8 The report points out that the main heads of expenditure of all Departments of the Trust, in 1899 1900, may be stated thus —

Page 6 paragraph 15

	Rs
Establishment	16 38 897
Working expenses	15 44 509
Repairs, renewals and depreciation	7 58 328
Rent and taxes	2,63 624
Interest and sinking fund	22,99,174
Miscellaneous	1 48 963
Total	66,53 495

and, referring to the manner in which the accounts of this expenditure is presented, it is stated that the Commission had frequent occasion to endorse the view of their Sub Committee that "the mass of information published in the Administration Report of the Trust is much of it unnecessary while the mode of stating it is confusing misleading and, in some cases, inaccurate" The Commission recommends a system of accounts for consideration The Lieutenant Governor considers it a matter of importance that the forms of account should be improved and simplified

Page 7 paragraph 16

9 The Report points out that the heaviest item in the total expenditure of Rs 66,53,495 is the charge for interest and sinking fund on the capital debt This debt stands thus —

Page 9 paragraph 24

		Rs
Original amount of loans raised up to 31st March 1900		4,85 60 666
Debenture Loan of 1900 01		10,35,600
		4,95,96,266
	Rs	
Repaid to Government	34,21,801	
Book debt (not repayable) on account of value of original Port Block	17 65,000	
		51,86,801
Present balance of the Commissioners' debt		4 44,09,465

10 This debt is of three kinds —

Page 10 paragraph 27

	Rs
Balance of Government consolidated loan	26 03,299
Government Dock Loan	2,87 70,566
Debentures	1,30 35,600
	4 44 09,465

Under existing arrangement the first of these loans will be liquidated in 1910 The Commission proposes that the Port Commissioners should raise a new debenture loan, having a currency of thirty years, to pay off this Government loan The effect of this will be to postpone the ultimate liquidation of this part of the debt from 1910 until 1931, with the result, of course, of immediate financial advantage to the Trust This advantage is estimated at an annual sum of Rs 1,69,140 The Lieutenant Governor anticipates that this proposal will meet with the approval of the Port Commissioners

11 The Government dock loan of Rs 2,87,70,566 is, under existing arrangements, to be paid off in 1937 by a sinking fund which will not be instituted until 1910 At present the Port Trust pay only the annual interest (Rs 11,50,823), which is due on this debt The Commission suggests that the period of repayment of the Loan should be extended to 1951, that is, to sixty years, from the year 1891, when the Docks were held to have been completed The report says —

Page 10, paragraph 29

"We are of opinion that, in the case of permanent works of such a nature as the Kidderpore Docks, the period of repayment might reasonably be extended We are informed that the Trustees of the Port of Bombay have, with the consent of the Government of India, recently formed a General Sinking Fund for the extinction of the whole of their Capital Debt, both to Government and to the public calculated so as to extinguish the existing debt in sixty years also that the City Improvement Trust, Bombay has authority to issue loans repayable in sixty years We understand, also that sixty years is the period fixed by the Treasury authorities in England for the liquidation of loans, for works of a durable or permanent character, raised by local authorities We consider that, in virtue of these precedents, the Government of India might be asked to extend the period of repayment to 1951, or sixty years from the date of completion of the Docks

The Lieutenant Governor again anticipates that this proposal will have the support of the Commissioners of the Port Trust, and the Chamber of Commerce

12 With reference to the Debenture Loans of Rs 1,30,35,600, the Commission points out that they must, of course, be liquidated according to the terms prescribed at the time of issue, but the recommendation is made that the Calcutta Port Act be amended, so that, in future, the Sinking Funds necessary to liquidate new loans should be on the basis of repayment in sixty years

This proposal is in accordance with the existing practice and the law in the case of the Bombay Port Trust The Report says —

"We recommend that section 24 (1) of the Calcutta Port Act be amended so as to bring it into uniformity with the Bombay Act In Bombay debenture loans are not usually issued for a longer period than thirty years, but the Trustees are not required by law to, and do not in practice, provide

Page 11, paragraph 3

a Sinking Fund sufficient to liquidate their loans within thirty years. They provide a Sinking Fund sufficient to liquidate all their loans within sixty years, and, when any loan falls in, they liquidate it partly by means of the Sinking Fund and partly by issuing a fresh loan for the balance'

The Lieutenant Governor will await the opinion of the Port Trust and of the Chamber of Commerce in this matter

13 The report of the Commission shows, in a statement No 4, Appendix C, of the Report, that the effect of the proposals with reference to the three classes of loans, would be to place the general financial condition of the Port Trust in the following position —The consolidated Government Loan Rs 26,0 ,299, would be paid off in 1930, the Government Dock Loan would be paid off in 19 1, the present Debenture Loans of Rs 1,80,35,600 would be paid off as they become due and this would be done, not only without any additional burden on the annual charges of the Port Trust, but with an immediate saving of Rs 1,69,140 a year, and, if the annual charge on account of Interest and Sinking Funds were maintained at its present figure, with the possibility of raising new loans of approximately the same amount as the existing Dock Loan (287 lakhs)

Page 233
Page 10 paragraph 26

14 The Commission is not able to propose any material reductions in the other main heads of expenditure of the Trust, but proposes certain changes which will produce the following improvement in the annual revenues —

Page 22 paragraph 82
Page 61 190

	Rs	Rs
Annual saving on interest and sinking funds	1,69 140	
Other savings	80 732	
		2 49 872
Increase of rates and charges		2 25,000
Increase of rents and miscellaneous		66 500
Net improvement		5,41,372

and this improvement is calculated without reference to any probable increase in the trade of the Port, or to certain economies in the cost of repairs, working expenses, and handling charges, which are recommended generally, but can not be accurately stated On the other hand, the Commission proposes additional expenditure on various improvements

Page 61 paragraph 190

15 These considerations bring the conclusion that, if the proposal to base the Sinking Funds on a period of sixty years instead of thirty years be accepted, and if the economies and increases in revenue just mentioned are effected, the financial position of the Calcutta Port Trust will be a very strong one The Trust will be able to carry on their present operations, and to incur additional capital expenditure, to at least the extent which is meanwhile advised to be necessary, without any increase in the total annual expenditure of the Trust

SPECIAL TOLL

16 The Special Toll, which is now levied under section 108 of the Calcutta Port Act, is annually imposed only if, in the words of the law, "on the preparation of the estimate of any year, it shall appear that the estimated income * * * after deducting therefrom the estimated expenditure * * * will be insufficient for the payment of the sums which * * * will be payable during the year" This toll in short is, at present, a resource which is only to be applied when it becomes absolutely necessary to enforce it in order to adjust the income to the expenditure of the Port Trust

17 The Report of the Commission recommends that the "Special Toll" should be regarded in quite another light, and that its designation should be altered It is pointed out that on the Mersey, the Clyde and the Tyne, a "River due" is regularly levied, and that the circumstances of the Port of Calcutta make such an impost specially applicable The Commission recommends that this

Page 12 paragraph 85

"Special Toll" should be changed into a "River due" and made the main permanent source of revenue of the Port Trust, and that the charges made for landing, shipping and for special services rendered should be the varying elements in the Port Trust Revenue, to be adjusted, from time to time, in accordance with the financial position The present rate of four annas per ton weight of cargo is recommended for all goods, except coal, on which the Commission proposes that the "River due" should be one anna a ton This is the one part of the Commission's recommendations on which there is likely to be a difference of opinion, and the Lieutenant Governor, before coming to a final decision, will hear what the Port Commissioners themselves and the Chamber of Commerce have to say The arguments of the Commission have been very temperately stated, and they possess all the force of the unanimous opinion of a Commission nominated by the Chamber itself of the men who from ability and experience are likely to present a wise advice

JETTIES

18 The Commission points out that it has been stated that the importer is being heavily over charged at the Jetties to enable the Port Trust to meet deficits caused mainly by exports But the accounts of the Jetties, as they are kept at present, include the figures referring to many special services, such as the Petroleum Wharf, the Tea Warehouse, the Piece goods Warehouse, and others If these are eliminated, it will be found that the results obtained from the Jetties alone only give a return of about 5¼ per cent on the capital cost of the Jetties, and less than that if the value of the land on which they stand is included

Page 7 paragraph 17

19 The Commission refers to the question of dealing with both imports and exports at the Docks instead of the present system under which imports are mainly dealt with at the Jetties, and exports in the river and at the Docks The conclusion of the Commission is that, at present, it is not possible to modify the existing practice

20 The complaints made of the want of space and alleged mismanagement at the Jetties are very fully discussed by the Commission Definite recommendations are made with reference to (1) large increase in the accommodation by the erection of sheds of two and three storeys in place of the present single storeyed ones, (2) the rearrangement of the Railway lines and the provision of hydraulic capstans, &c , (3) new warehouses for uncleared goods, (4) new cranes, and other matters, in order to improve the facilities for clearing goods Recommendations are also made about the system of Jetty management, and about the accounts kept in the sheds and warehouses Certain recommendations are made concerning the rates and charges

21 Concerning the accommodation for the coasting trade, the Commission recommends the erection of two jetties on the embankment now used for this trade, which would be a substantial improvement on existing arrangements In the case of the inland vessels wharves, the Commission recommends that the Port Trust should provide sufficient shed accommodation for inland vessels traffic as they do for ocean going steamers Various recommendations are made with reference to the rates, charges and accounts connected with the Tea Warehouse and Petroleum wharves All these questions are, primarily, for the consideration of the Commissioners of the Port They will, no doubt, submit to Government estimates for carrying out such works as may appear to them desirable

Page 17 paragraph 51

Page 19 paragraph 63

STRAND BANK LANDS

22 Concerning the Strand Bank lands the Commission makes suggestions concerning the rents and charges, which will increase the revenue of the Trust

HARBOUR MASTER'S DEPARTMENT

23 The Commission makes an important suggestion regarding the scale of charges for mooring hire which, it is suggested, ought to be revised The present scale was fixed in 1873, when the average tonnage of vessels was much less than at

Paragraph 76 page 21

present Vessels over 3,000 tons, which now visit the port in considerable numbers, pay at present a uniform rate of Rs 15 a day only A suitable sliding scale of rates would bring in a considerable increase in revenue The Commission also recommends a revision of the charges as between Government and the Port Trust of the River and Dock Police, which the Lieutenant Governor will be glad to consider if definite proposals are submitted to him

PORT TRUST RAILWAY

24 Important suggestions are made concerning the management of the Railway In this matter the report of the Sub Committee of Experts is especially valuable In the first place, the Commission recommends that the main line, along the river face from Cossipore to the Docks, should be improved in various ways, but that the chief thing is to provide two clear lines for up and down traffic by rearrangement of the sidings

Page 23 paragraph 86

25 The view has been expressed, in some quarters, that the management and working of the Port Trust Railway is not a function of the Port Trust at all, but that it would be better if the entire railway were given over to one of the large Railway Administrations This opinion does not find favour with the Commission One member of the Commission, whose opinion carries much weight, proposed that the foreshore line from Cossipore to the Dock should be made over to the E B Railway, but the majority of the Commission were opposed to this proposal, mainly on the ground that the intervention of a foreign railway in the business of the port would not be beneficial Again, certain members of the Commission recommended that the working of the Dock junction, which is a short section of the railway, which takes off from the Budge Budge branch of the Eastern Bengal State Railway and runs to the Docks, should be handed over to a Railway Administration to work. On this subject the Commission is not unanimous in their recommendation, but the majority are opposed to the proposal, and recommend that the junction should remain under the jurisdiction of the Port Trust It is said —

Paragraphs 93 94 and 99 page 25 26

"Our principal reason is that it is in our opinion altogether against the best interests of the port to allow the terminal arrangements to pass in any way out of the control of the Port Trust and into the hands of a foreign agency, specially one whose primary object must necessarily be the earning of dividends rather than the provision of facilities for trade No such alteration of the authority of the Trustees would, in our judgment, be justifiable, unless it were conclusively shown to be necessary on either administrative or financial grounds or both. In the present case this has not been done "

Paragraph 99 page 26

On this question the Lieutenant Governor is of opinion that the views expressed by the majority of the members of the Commission are right

KIDDERPORE DOCKS

26 The Commission points out that these Docks have absorbed more than half the capital debt of the Port Trust, and that any financial difficulties of the Trust centre round them Since the Docks came into general use in 1897 98, the annual deficits, including the charges on the debts, have been —

	Rs.
1897 98 actuals	15,37,394
1898-99 „	14,67,949
1899 1900 „	14,42,111
1900 1901 estimated	13,09,401

The deficits, though large, show a steady tendency to slow improvement But the sinking fund on the original Government Dock loan of Rs 2,87,70,566 does not come into effect until 1910 a fact which has to be borne in mind in regarding the above deficits The figures show the importance of efficiency and economy in the Dock management

Page 29 paragraph 112

27. The Commission mentions the original scheme of a second Dock, and, referring to the question of the present accommodation for ships taking

general cargo (excluding coal), estimates that the total volume of general cargo dealt with at the Docks, during the last two years, was less than one third of that which could have been dealt with, and the opinion is expressed that any expansion of the accommodation for general cargo will not be necessary for many years to come The report then continues —

Paragraph 116 page 30

"When, however, expansion does reach the point at which additional berths become a necessity, these can readily be provided by gradual extension in a way similar to that in which the coal berths have been constructed The accommodation can be kept a little in advance of the traffic by the provision of one or two berths at a time No large capital expenditure is, therefore, required at present, and if it should be needed hereafter, it can be foreseen and spread over a number of years

Page 30 paragraph 118

28 Concerning the coal trade, the Commission has presented most interesting information This is the most important individual trade for which accommodation is provided at the Docks, and it is one which was not contemplated at all when the Docks were constructed The Commission points to the rapid development of the trade in export coal as evidenced by these figures —

		1895 96	1896 97	1897 98	1898 99	1899 1900
Total exports*	Tons	815,533	1,103,760	1,622,564	1,799,414	1,681,919
Shipped from the docks	Tons	105,842	386,490	672,747	877,895	870,347
	Percentage.	12 9	35 0	41 4	48 8	51 7

while the total in the year 1900 reached 2,345,758 tons The Commission considered various estimates of the probable further extension of the trade, and reached the conclusion, based, mainly, on figures supplied by Mr Cable, that the rapid increase of the past few years was not likely to be maintained, and that the total probable exports from Calcutta during the next two or three years will, probably, not exceed 3,000,000 tons, of which, possibly, 2,300,000 tons may pass through the Kidderpore Docks

Page 33 paragraph 129

29 The Commission points out that the four existing berths at the Docks are capable of dealing with more than 1,200,000 tons a year, and that the two new berths, now under construction, will provide, even with coolie labour, for 600,000 tons more Mechanical appliances for loading coal are about to be introduced, which will increase this total delivery materially, and, if two berths only are provided with such machinery, the Kidderpore Docks will be able to ship 2,400,000 tons a year, which is above the estimate, made by the Commission, of the probable demands on the Docks The Commission recommends that two berths only should be provided with mechanical appliances for loading, which, it is thought, should be sufficient for the necessities of the near future

30 The Commission refers to the proposals which have been made to establish a separate Dock for coal alone, and remarks that such schemes can only be justified if it can be shown that the result would be an economy in the charges on the trade It is said —

Page 33, paragraph 131

"The trade of the Port must eventually bear the whole of the charges involved in such proposals. As long as existing arrangements suffice— and we believe they will suffice for many years to come— any proposal for large capital expenditure elsewhere to supplement them seems altogether premature We have no desire to dogmatise on so uncertain a matter, and we are perfectly alive to the possibility that our forecast of the future course of the coal trade may be falsified by results But it is the best we have been able to make after careful weighing of the information placed before us And if, as we anticipate, it proves to be approximately correct, we are clearly of opinion that the total volume of the export trade in coal, present and prospective, is not sufficient to make it economical or necessary to divide it between two ports of shipment"

The information collected by the Commission with reference to the coal trade, is of great value It is now manifest that the Port Commissioners were wise in making provision for the two additional coal berths only, which are being constructed There is every reason to think that they are likely to be sufficient for some time to come It is clear also that the Kidderpore Docks will be easily able to provide the facilities which the trade is likely to demand, at a far less cost and in a far more convenient manner, than an

* Includes bunker coal.

entirely new Dock, at another site, could do The Port Commissioners have decided, on the advice of a Committee, which reported on the mechanical loading question, to fit one of the new berths, at once, with loading machinery of the type which is the less expensive of the two systems which were proposed, and with reference to the other berth, to await the experience gained in the first case The Lieutenant Governor has approved this decision, and he is constrained, with regret, to agree in the general conclusions which the Commission has reached regarding the coal trade The facts and opinions, which have been recorded, will be of great assistance to the firms engaged in that trade

31 The Commission gives its support to the system of labour supplied by contractors, which is current in the Docks, rather than to that of departmental labour which has been advocated Very little is said about the cost of the present system except that, in the case of the coal labour, the Commission says that there is no evidence to show that the payments are excessive, and in reference to the cost of handling other goods, which is paid to contractors, that the 6⅔ annas per ton appears to be excessive The Lieutenant Governor considers that this question of the cost of labour merits the further and special consideration of the Port Trust

Paragraph 141 page 36

Paragraph 143 page 36

32 After making various proposals concerning other matters connected with the administration of the Docks, the Commission refers to the supervising staff entertained there, and suggests that material reductions in the staff should be made which might effect an economy of about Rs 40,000 a year in the working expenses, irrespective of other possible reductions

Page 37 paragraph 146
Appendix D, page 281

WORKSHOP AND STORES

33 The Commission recommends that the Workshop and the Stores Department should be transferred from the supervision of the Deputy Conservator and placed under the Engineer It would appear that the Commission doubts whether the administration of these Departments is as economical, in some respects, as it might be, and suggests that expert advice may be taken as to the administration of the Workshops and as to the possibility of reorganising the staff of Mechanical Engineers The method under which repairs are carried out, without the previous preparation of estimates, is faulty, and should be corrected

Page 39 paragraph 153

GENERAL

34 The Commission makes many subsidiary recommendations which are not mentioned in this note, and in concluding the report the Commission refers to all its criticisms and proposals in these words —

Page 52 paragraph 191

"We by no means wish to leave the impression that the management of the Trust, as a whole, calls for condemnation It is probable that if a close investigation were to be made into the working of other large commercial or public undertakings in this country or elsewhere there are very few which would emerge scatheless in every point of detail That the Port Commissioners have sometimes made mistakes in the past they would themselves doubtless freely admit They have sometimes failed to accurately forecast the course of trade There has been some tendency to extravagance in respect of establishments, repairs and contingent charges. There has occasionally been delay in providing the full facilities required for particular branches of trade They have not always employed their resources to the best possible advantage To these defects we have adverted in the course of our report, adding such suggestions for improvement as recommend themselves to us

Page 52.

"But neither individually nor collectively are they of sufficient weight or importance to form the basis of any general charges of either insufficiency or disregard of economy On the contrary, it is our unanimous opinion that, as a whole, the work of the Trust has been well done and that, to use the words of our Sub-Committee, the Trustees 'have not been unmindful of the duty, which lies on them, of improving facilities and of providing in advance for the expansion of traffic'"

35 In this conclusion the Lieutenant Governor concurs In his Resolution appointing the Commission he said that the complaints before him did not contain the information which would lead him to doubt the efficiency of the

Port Commissioners' management The Commission's report discloses certain specific instances of mismanagement and miscalculation, but certainly disproves the general and sweeping charge of mismanagement brought against the Commissioners in some quarters The Calcutta Port Trust is an enormous undertaking, and is annually expanding That it should have emerged from so minute an examination with so large a degree of credit, is, in the opinion of the Lieutenant Governor, an outcome which the Commissioners and their officers may view with satisfaction He desires to express his warm appreciation of the services rendered to the Port of Calcutta and to the commercial community by the members of the Commission, who have given so much time and labour to the report they have submitted The work must have been a heavy one to all, and not least to those gentlemen who have given their services freely for the public advantage at the expense of their own private interests and business The report is a most thorough one, and it cannot fail to materially aid in the future good management of the Trust to the great advantage of the trade of Calcutta and of India

By order of the Lieutenant Governor of Bengal,

R B BUCKLEY,

Secretary to the Government of Bengal

WEATHER AND CROP REPORT

For the week ending the 1st April 1901

Burdwan.—Rainfall at Raniganj 0 01 Weather seasonable Pressing of sugarcane and harvesting of *rabi* continue Fodder and water sufficient Common rice selling as follows —

	Srs	
Sadar	12	per rupee
Kalna	$10\frac{5}{16}$	
Katwa	$12\frac{5}{8}$	
Raniganj	$12\frac{1}{2}$	

Birbhum.—No rain Weather hot Harvesting of *rabi* crops over Pressing of sugarcane continues *Til* being sown Price of rice at Sadar and Rampur Hât 12½ seers per rupee Fodder sufficient

Bankura.—No rain Weather seasonable Pressing of sugarcane continues Fodder dear Water sufficient No cattle disease reported Price of common rice at Bankura and Vishnupur 12½ seers per rupee

Midnapore.—No rain Sugarcane being pressed Common rice sells as follows —

	Srs	
Sadar	13	per rupee
Contai	13	
Tamluk	11	
Ghatal	Report not received	

Hooghly.—No rain Pressing of sugarcane nearly finished Ploughing of winter paddy fields continued Prospect of standing crops good Common rice sells at 10 seers 11 chitaks per rupee

Howrah.—No rain Weather hot Fodder and water sufficient Common rice sells at 10 seers per rupee

24 Parganas.—Rainfall nil Weather seasonable Transplantation of *boro* in Barasat subdivision going on No cattle disease Fodder and water sufficient Common rice sells as follows —

	Srs	
Sadar	10	per rupee
Barasat	10	
Basirhat	10	
Diamond Harbour	10½	

Nadia.—No rain Weather seasonable Cultivation of lands for *aus* going on, but rain wanted Fodder and water sufficient except in Chuadanga Common rice sells as follows —

	Srs	
Sadar	10¼	per rupee
Kushtia	12	
Meherpur	10¾	
Chuadanga	11¼	
Ranaghat	10	

Murshidabad.—No rain Weather hot Prospects of *rabi* not very favourable Cattle disease still reported from Gowas thana Fodder and water sufficient Common rice sells as follows —

	Srs	
Sadar	13	per rupee
Jangipur	13¼	
Kandi	14	
Lalbagh	12¾	

Jessore.—No rain Weather seasonable Pressing of sugarcane going on Rain is badly wanted for the ploughing of lands Fodder and water sufficient Common rice sells as follows —

	Srs	
Sadar	11	per rupee
Jhenida	11	
Magura	10½	
Narail	10	
Bangaon	$12\frac{5}{16}$	

Khulna.—Rainfall nil Weather—day hot night cool Preparation of lands for early rice crop continues Prospects of *boro* fair, but rain wanted Fodder and water sufficient Common rice sells as follows —

	Srs	
Sadar	11⅝	per rupee
Bagerhat	13	
Satkhira	9½	

Rajshahi.—Weather seasonable Rain wanted Prospects of crops good No cattle disease Fodder and water ample Common rice selling at 13½ seers a rupee

Dinajpur.—Rainfall nil Weather hot Stray cases of cattle disease in some thanas Fodder and water plentiful Cultivation of *bhadoi* and jute commencing Rice sells at 11 seers per rupee in Dinajpur town and 14½ seers in mufassal

Darjeeling.—Rainfall at Darjeeling 16 Kalimpong 41 Kurseong and Siliguri nil Weather seasonable *Hills*—*phapor*, wheat, barley, potatoes progressing *Terai*—Harvesting of sugarcane and tobacco proceeding Common rice sells as follows —

	Srs	
Hills	9	per rupee
Terai	13	

Bhutta sells at Darjeeling 18 seers and at Kalimpong 20 seers per rupee

Jalpaiguri.—Rainfall nil Weather seasonable Harvesting of tobacco going on Fields are being prepared for *bhadoi* and jute Common rice sells at 11¼ seers a rupee Fodder and water sufficient

Rangpur.—Rainfall nil Weather seasonable Sowing of *aus* and jute retarded Rain wanted Fodder and water sufficient Common rice sells as follows —

	Srs	
Sadar	11	per rupee
Gaibanda	11	
Kurigram	13	
Nilphamari	13	

Bogra.—No rain Ploughing for *aus* and jute continuing Weather hot Rain wanted Fodder and water sufficient Common rice sells at 12½ seers per rupee

Pabna.—Rain nil Weather excessively hot in the daytime though mornings and nights are cool Prospects of crops fair, but rain urgently wanted Sowings of jute commenced in a few places Prices practically unchanged Fodder and water sufficient

Dacca.—Rainfall at Sadar 01, Manikganj nil, Munshiganj 10 Naraingani 25 Weather seasonable Prospects of crops fair Rain wanted Fodder available Cattle disease reported from Manikganj subdivision Common rice 10½ seers per rupee

Mymensingh.—Rainfall nil Weather seasonable *Boro* paddy needs rain Land have been ploughed Common rice sells as follows —

	Srs	
Sadar	9	per rupee
Jamalpur	9⅜	
Kishoreganj	9$\frac{5}{16}$	
Tangail	10½	
Netrakona	8½	

Faridpur.—Rainfall at Sadar 0 04, Goalundo 0 18, Madaripur 0 43 Weather getting warm Rain wanted badly Prospects of crops depend on the rain Common rice sells at 11½ seers a rupee

Backergunge.—Rainfall at Sadar 1 55 Weather seasonable Prospects of crops good Fodder and water sufficient No cattle disease reported Common rice (*aman*) sells at 11 seers per rupee

Tippera.—No rain Weather hot Prospects of crops indifferent for want of rain Fodder available Drinking water getting scarce at Brahmanbaria Cattle disease reported from Chandpur and Hajiganj thanas Common rice sells at 10½ seers per rupee

Noakhali.—Rainfall at Sadar nil, Feni 04 Sowing of *aus* commenced Prospects of standing crops medium Rain wanted Cattle disease reported from Begamganj and Senbag Fodder and water sufficient Price of common rice unchanged

Chittagong.—No rain Water and fodder becoming scarce Rice selling at 12½ seers per rupee

Patna - Rainfall nil Harvesting of *rabi* and lancing of poppy going on Threshing of *rabi* in progress No cattle disease Fodder and water for cattle sufficient Common rice sells at 11 seers per rupee in Patna town

Gaya —Rainfall nil Harvesting of *rabi* going on Collection of opium finished Common rice selling at 11½ seers per rupee

Shahabad —No rain Weather seasonable Harvesting of *rabi* and pressing of sugarcane in progress Fodder and water sufficient Rice 11 seers a rupee at Sadar

Saran — Rainfall nil Weather seasonable Harvesting of *rabi* finished Threshing going on Fodder and water sufficient Common rice 13 seers 1 chitak and maize 22½ seers per rupee

Champaran — Rainfall nil Weather seasonable Harvesting of *rabi* still continues Collection of opium approaching completion Prospects good Fodder and water sufficient Prices of common rice and maize at Sadar are 14½ and 23 seers per rupee respectively

Muzaffarpur —Rainfall nil Harvesting of *rabi* crops continued Prospects good Prices are—Common rice 13 seers, wheat 10 seers barley 21 seers maize 23 seers gram 12 seers *arhar* 13 seers a rupee

Darbhanga —Rainfall nil Harvesting of *rabi* in progress No cattle-disease reported Fodder and water sufficient Common rice sells as follows —

	Srs	
Sadar	15⅜	per rupee
Samastipur	15	
Madhubani	15 9/16	

Monghyr —No rain Weather seasonable Harvesting of *rabi* and plantation of sugarcane going on Lands being prepared for *bhadoi* crops Common rice sells as follows —

	Srs	ch	
Sadar	13	2	per rupee
Begusarai	13	0	
Jamui	12	0	

Bhagalpur —Weather hot *Rabi* being harvested *Bhadoi* being sown in some parts of the district No cattle disease Fodder and water sufficient Prices stationary

Purnea —No rain Weather seasonable Wheat gram and tobacco being harvested Outturn good Lands being prepared for *bhadoi* and jute crops No cattle disease Fodder and water sufficient Common rice sells as follows —

	Srs	
Sadar	13	per rupee
Kishanganj	13	
Araria	15	

Malda —Rainfall nil Weather—mornings cool, days hot Gathering of gram and other *rabi* crops still going on *Bhadoi* paddy is being sown *Boro* paddy is being watered No cattle disease Price of rice stationary Fodder and water sufficient

Sonthal Parganas —No rainfall Weather hot *Rabi* being harvested Cattle disease at Godda and Rajmahal Fodder and water supply sufficient Rice sells at 13 seers 9 chitaks and maize 20 seers 10 chitaks a rupee Pakaur report not received

Cuttack —Rainfall nil Weather seasonable *Dalua*, tobacco and *rabi* being harvested Condition of cattle generally good Fodder and water available Common rice sells as follows —

	Srs	Ch	
Sadar	14	1	per rupee.
Jajpur	15	12	
Kendrapara	15	12	
Banki	15	12	

Balasore —Rainfall nil Harvesting of *rabi* continues. Sugarcane pressing in progress Ploughing continues Rice sells at 15½, 13½ and 17 seers per rupee in interior, Balasore, and Bhadrak, respectively Fodder and water sufficient

Angul —No rain Weather seasonable Plantation of sugarcane continued Common rice selling at 20 and 10 seers in Angul and Khondmals respectively. Cattle-disease reported from the interior Fodder and water sufficient.

Puri—Rainfall at Sadar 0 22 Weather seasonable Ploughing continues *Dalua* paddy ripening *Mung* and other miscellaneous crops doing well Fodder and water sufficient No cattle disease reported Price of rice stationary

Hazaribagh—Rainfall nil Weather seasonable Fodder and water sufficient Common rice sells both at Sadar and Giridih at 12¼ seers per rupee Dropping of *mahua* commenced

Ranchi—Rainfall nil Weather seasonable Harvesting of *rabi* crops in progress Average price of common rice is 16 seers per rupee No cattle disease reported Fodder and water sufficient

Palamau—Rainfall at Sadar Station 0 10 Weather seasonable Sugarcane doing well Fodder and water sufficient Prices are—Rice 11 seers 4 chitaks and *mahua* 14 seers 10 chitaks a rupee at Sadar

Manbhum—Rainfall at Sadar 0 01 Weather seasonable Prospects of crops on ground good Fodder and water sufficient Cattle disease reported from Baghmundi Average price of common rice at Sadar 13 seers 3 chitaks per rupee Supply sufficient (Report from Gobindpur not received)

Singhbhum—Report not received

General Summary—Light showers are reported from the districts of Burdwan, Dacca Faridpur, Backergunge, Noakhali, Puri, Palamau and Manbhum Rain is wanted in several districts Harvesting of *rabi* and pressing of sugarcane approaching completion Preparation of lands for early rice and jute crops continues Prospects of crops depend on rain Dropping of *mahua* commenced Fodder and water sufficient except in Chittagong, Bankura and in the Chuadanga subdivision in Nadia Cattle disease continues to be reported from a few districts The price of common rice has risen in 11 districts, fallen in 8, and is stationary in the rest

By order of the Lieutenant-Governor of Bengal,

F A SLACKE,

Secretary to the Govt of Bengal

The average relative humidity of the corresponding period for 24 years, Surveyor General's Office	66
	Inches
The total fall of rain from 24th to 30th March 1901	Nil
The average fall of the corresponding period for 24 years, Surveyor General's Office	0 20
The total fall from 1st January to 30th March 1901	3 26
The average fall of the corresponding period for 24 years, Surveyor General's Office	2 [illegible]7

The mean pressure, temperature &c, are deduced from the traces of the Barograph and Thermograph, and from eye observations

The maximum and minimum temperatures are obtained from self registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground

The barometer readings are corrected approximately to those of the standard, Newman's No 86, formerly at the Surveyor General's Office

The hygrometric elements are obtained from Tables III IV and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph

The mouth of the rain gauge is one foot above the ground

The 8th April 1901 —In exercise of the powers conferred by section 5 of the Indian Explosives Act (IV of 1884), and with the previous sanction of the Governor General in Council the Lieutenant Governor is pleased to substitute the following rules for rules (*b*) 8 (*c*) 12, (*e*) 17 and (*f*) 23 of the rules for the manufacture, possession and sale of explosives in the Lower Provinces of Bengal —

(*b*) *Licensing of the manufacture, possession and sale of small quantities of gunpowder and certain explosives*

8 Licenses to manufacture possess and sell, or to possess and sell, or to possess, or to sell from stock kept in a magazine in respect of which a license has been granted under rule 17, an explosive of the 1st (gunpowder) class, or of the 1st division of the 6th (ammunition) class or of the 7th (firework) class, may be granted in a Presidency town and its suburbs by the Commissioner of Police, and elsewhere by the District Magistrate in accordance with the following provisions —

(1) The license shall not entitle the license holder to possess at the same time more than 200 lbs of gunpowder 500 lbs of explosive contained in ammunition of the 1st division of the 6th (ammunition) class, and 200 lbs of fireworks, or any such less quantity of any of these explosives as the licensing officer may think fit to specify in the license

(2) The license shall specify the place in which alone the explosives referred to in it may be kept, and such place shall (except in the case of a license to sell from stock kept in a magazine in respect of which a license has been issued under rule 17) be approved by the licensing officer

(c) Licensing of the manufacture of explosives generally

12 Licenses to manufacture explosives in cases not provided for by Rule 8 shall be granted by the Governor General in Council on payment of such fees, in such form, for such term, and subject to such conditions, as the Governor General in Council may in each case prescribe

* * * * * *

(e) Licensing of the possessor of explosives generally

17 Licenses for the possession of explosives in cases not provided for by rules 8 and 14 may, if the explosive is not one of the 5th (fulminate) class, be granted by the Local Government in accordance with the following provisions —

* * * *

(f) Licensing of the sale of explosives generally

23 Licenses for the sale of explosives in cases not provided for by rule 8 may be granted in a Presidency town and its suburbs by the Commissioner of Police, and elsewhere by the District Magistrate, to any person licensed to possess the same

Pure Sulphate of Quinine

MANUFACTURED AT THE BENGAL GOVERNMENT CINCHONA PLANTATION

FROM 1st April 1901 the price of this quinine will be as follows —

1 Pound tin	Rs 17	or post free	Rs 17 12
½	8 8		9
¼	4-4		4 12

Analysis shows this quinine to be of the purest manufacture and it is guaranteed to be free from wilful mixture with the inferior alkaloids cinchonine and cinchonidine It is for sale only to Government officer and only for cash and may be had from the Superintendent Botanic Garden Sibpur near Calcutta

বঙ্গদেশের গবর্ণমেন্টের সিনকোনা আবাদে প্রস্তুত বিশুদ্ধ সলফেট অফ কুইনাইন।

১৯০১ সালের ১লা এপ্রিল হইতে এই কুইনাইনের নিম্নলিখিত মূল্য হইবে, যথা—

১ এক পৌণ্ড টিন ১৭, বা ডাক মাশুল সমেত ১৭৸৹

।। আধ ,, ,, ৮৷৷৹, ,, ,, ,, ৯,

। শিকি ,, , ৪৷ ,, ,, ,, ,, ৪৸

পরীক্ষা করিয়া দেখা গিয়াছে যে এই কুইনাইন অতি বিশুদ্ধরূপে প্রস্তুত করা হইয়াছে, এবং ইহা যে সিনকোনাইন ও সিনকোনীডাইন নামক অপকৃষ্ট ক্ষারের সহিত ইচ্ছাপূর্ব্বক মিশান হয় নাই তাহার গ্যারাণ্টী দেওয়া যাইতেছে। ইহা নগদ মূল্যে কেবল গবর্ণমেন্টের কর্ম্মচারিগণের নিকট বিক্রয় করা যাইবে এবং কলিকাতার নিকটস্থ শিবপুরের কোম্পানির বাগানের সুপারিণ্টেণ্ডেন্টের নিকট পাওয়া যাইতে পারিবে।

Cinchona Febrifuge

Cinchona Febrifuge can be purchased by all Government officers and by any one taking *Rs p unds* at a time from the Superintendent Botanic Garden Calcutta at the following rates—per four ounce tin *Rs 2 an 8* per eight ounce tin *Rs 5* per pound tin *Rs 10* The general public can be supplied by the Superintendent Botanic Garden *for cash only* at the undernoted rate —per four ounce tin *Rs 3* per eight ounce tin *Rs 6* per pound tin *Rs 1* This medicine is also sold by the principal European and native druggists in Calcutta Postage four annas per *4oz* tin eight annas per *8oz* tin and twelve annas per pound tin in addition to the foregoing rate

APPOINTMENTS TO THE PUBLIC WORKS DEPARTMENT IN BENGAL

No 1252E

Government of Bengal

PUBLIC WORKS DEPARTMENT

ESTABLISHMENT

Calcutta, the 4th April 1901

RESOLUTION

READ—

(1) Government of India, Public Works Department Resolution No 1443G, dated the 13th December 1884

(2) Government of Bengal, General Department Resolution No 294T—G, dated the 21st April 1891

(3) Letter No 117T—G, dated Darjeeling the 25th June 1891 from the Government of Bengal, to the Government of India, Public Works Department

(4) Letter No 1937G, dated the 20th July 1891, from the Government of India, Public Works Department

(5) Government of Bengal General Department Resolution No 257T—G, dated the 25th September 1891

(6) Government of India, Public Works Department Resolution No 2112G, dated the 19th July 1892

(7) Government of India, Public Works Department, No 3354G, dated the 14th October 1892

(8) Government of Bengal Public Works Department Resolution No 3297E, dated the 13th December 1893

OBSERVATIONS —These papers refer to the appointment both of officers to the Engineer establishment and of Subordinates to the Upper Subordinate Establishment of the Public Works Department in Bengal It is intended to make some alterations in these orders

2 With reference to the officers of the Engineer Establishment it was, at first, laid down that "one and two appointments in the grade of Assistant Engineer are reserved, in alternate years, for students of the Sibpur College who qualify at the University Examinations But, subsequently, it was decided that only one appointment each year should be made from those students, and that, in alternate years, one Upper Subordinate should be promoted to the Engineer Establishment The students who qualify at the University Examination are those who are trained in the Engineer Department of the Sibpur Civil Engineering College, they continue for one year, after passing the University test, to study in a "practical course (rule 8 page 18 of Sibpur College Calendar 1900) and during that course are considered as students of the College At the end of this 'practical course' one of the students is appointed an Apprentice Engineer in the Public Works Department

3 Hitherto it has been the custom, to which there has been one exception, to grant the annual appointment of Apprentice Engineer to the student who stood first in the University Examination The Lieutenant Governor does not consider that this system is satisfactory The student, who graduates at the top of the list may be but little superior, in theoretical knowledge, to those below him on the list, and he may be inferior to them in practical efficiency on works, in energy and in physique, all points of importance to an Engineer These are characteristics which are developed during the year's 'practical course" and can be gauged at the end of it The Lieutenant Governor has therefore, determined that the graduates, to whom the one appointment of Assistant Engineer is reserved, shall be required to go through an examination in certain practical subjects at the end of the 'practical course' and that the graduate who shall stand highest in that examination shall be given the appointment of Apprentice Engineer, with the prospect, if his apprenticeship is satisfactory, of being confirmed as an Assistant Engineer in the Provincial Public Works Department

4 With reference to the Upper Subordinate Establishment, it was, at first laid down that "all vacancies in the Upper Subordinate Establishment in Bengal are reserved for Graduates in Engineering of the Calcutta University who have been educated at the Sibpur Engineering College" Subsequently that order was modified, to some extent, but direct appointments were limited to —

Resolution No 92 7P T dated 13th December 1893

(i) mechanics required for special purposes,
(ii) students from Sibpur or other Indian College who had either graduated in Engineering at an Indian University, or held certificates as Assistant Engineer from the Thomason College, Rurki, and
(iii) Certain students from Sibpur who had been through the full College Course but had not graduated at the University

As a matter of fact, since 1893, out of 39 direct appointments made to the Upper Subordinate establishment of the Bengal Public Works Department, 31 appointments have been made from students of the "Engineering Department' of the Sibpur College, who have graduated at the Calcutta University

5 But the Sibpur College has not only got an "Engineer Department it has also an "Apprentice Department" Those students who pass successfully through the whole course of five years in the "Apprentice Department' obtain certificates as Upper Subordinates and Foremen Mechanics, and some of these qualify as Sub-Engineers The students of the "Apprentice Department" may obtain, and do accept, appointments as Sub Overseers on the Lower Subordinate establishment, but, although they may be qualified as Upper Subordinates or even as Sub Engineers, they have no means of direct access to the Upper Subordinate Establishment of the Bengal Public Works Department

The conditions of the College require that a student, entering the "Engineer Department," should have attained a much higher standard of general education than one entering the "Apprentice Department," and the limit of age, in the one case, is about four years higher than in the other A successful student from the "Engineer Department" attains the University degree of L E or B E This is a diploma indicating a standard of proficiency in Scientific and Engineering knowledge which is far higher than that attained by the successful student of the 'Apprentice Department' On the other hand, experience has shown that the "Apprentice Department" turns out students who are men of a more mechanical, and, therefore, of a more practical stamp than those who graduate at the University The "Apprentice Department" of the College has been greatly improved in late years, and the Lieutenant Governor is of opinion that the students of that Department should be allowed to compete for direct appointments in the Upper Subordinate Establishment of the Bengal Public Works Department

6 The Behar School of Engineering has recently been re organized and and the standard of the Education it gives has been raised The successful students from the School will finally pass an examination which will be equal to that passed by the students of the "Apprentice Department' of Sibpur But the Behar students do not have the 18 months practical training in the workshops which some of the Sibpur students go through and are not entitled to the certificate of Upper Subordinate and Foreman Mechanic which the latter attain They are therefore likely to be less efficient than the Sibpur students in practical work

7 After consideration of all these circumstances the Lieutenant Governor has decided that as a general rule to which it may be necessary to make some exceptions, the Upper Subordinate Establishment in Bengal shall in future be recruited in about equal proportions (1) from the students of the Sibpur Civil Engineering College who have graduated in the Calcutta University and (2) from the students of the 'Apprentice Department' of Sibpur and students of the Behar School of Engineering

8 The students, who will be permitted to compete for these appointments, will be determined by the rule in the following Resolution They will all be required to pass through the 'practical course" which is mentioned in paragraph 2, and will, at the end of it, be subjected to the examination referred to in paragraph 3

9 The students from the Apprentice Department of Sibpur and from the Behar School of Engineering will be given an allowance during the period of the practical course of Rs 30 a month This allowance will be withdrawn if the conduct of the student is not satisfactory

10 The rules in the following Resolution will be brought into effect with reference to those students who pass out of the Sibpur College or the Behar School in the year 1902 —

RESOLUTION —I —One appointment as Apprentice Engineer will be made each year from the students of the 'Engineering Department of the Sibpur Engineering College who have qualified at the Calcutta University Examinations and who have also qualified in a year's "practical course' in the Public Works Department If the Apprentice Engineer serves his apprenticeship satisfactorily he will be permanently appointed as an Assistant Engineer in the Provincial Service of the Public Works Department

II —In alternate years one Upper Subordinate will also be promoted to be an Assistant Engineer in the same service

III —The probable number of vacancies in the Upper Subordinate Establishment of the Bengal Public Works Department will be estimated annually The number of graduates of the Calcutta University (being students from Sibpur College), who will be placed on their "practical course" in the Public Works Department, will be one more than the number so estimated, but not less than four in any case

They will be taken in the order in which they stand in the University list and if a mining student is among the number, he will be allowed to reckon his mining course as equivalent to the "practical course"

IV.—The Lieutenant Governor will select from among the students who have, in the year, passed the final examination of the Behar School of Engineering, or of the Apprentice Department at Sibpur, a number equal to the estimated number of vacancies in the Upper Subordinate Establishment and not less than four in any case. These candidates will be placed on the same "practical course" as the students of the "Engineering Department" of the Sibpur Engineering College and, for one year in the Public Works Department, only one candidate will be usually nominated from the Behar School of Engineering.

V.—The "practical course" in the Public Works Department will be conducted as it has hitherto been. When it is over, a Board of Examiners will be formed, consisting of one Superintending Engineer and two Executive Engineers, who will subject all of the above mentioned student candidates to an examination, which will be designed to test them in those qualities which, independently of book work and theory, go far to make an efficient officer. The examination will be essentially a practical one. It will, as far as possible, be conducted orally and in the field.

VI.—The examination will include—

		Full marks
First.—The results of the last handicraft examination passed by the students at the College considered equal to		1,000
Secondly.—The marks awarded in the practical examination in the following subjects:—	Full marks	
(1) Practical Levelling	250	
(2) Practical Engineering	250	
(3) Preparation of materials	250	
(4) Knowledge of simple accounts	250	
(5) Ability to prepare, use and apply working drawings	250	
(6) Estimating	250	
(7) Riding on horseback	500	
		2,000
Grand Total		3,000

VII.—The Local Government, in reviewing the results, will take into consideration the reports on the character and general fitness of the candidates, which are submitted by the officers under whom they have served during the "practical course," and will then arrange the whole number of candidates on a list in order of merit.

VIII.—The first candidate on this list who holds a University degree will be offered the appointment of Apprentice Engineer.

IX.—The others, in their order on this list, will be offered appointments as probationary overseers. Those who hold the certificate of Upper Subordinate and Foreman Mechanic, or any superior certificate, will usually be placed in the second grade but, if the Lieutenant Governor considers that any one of the successful candidates is of exceptional merit, he may be appointed first grade. Those candidates who hold a lower certificate not equal to that of Foreman Mechanic, will be placed in the third grade of overseers.

X.—The seniority of those who may be appointed will be determined by their order on this list.

XI.—This Resolution only affects paragraph I of Bengal Government Resolution No. 3291E of 13th December 1893, the other paragraphs of that Resolution remain in force.

ORDER.—Ordered that a copy of this Resolution be forwarded to the General (Education) Department of this Government, to the Director of Public Instruction, Bengal, to the Principals, Patna College and Civil Engineering College, Sibpur, to the Commissioner, Patna Division and to the Head Master, Bihar School of Engineering for information, and that it be published in Part I of the *Calcutta Gazette*.

By order of the Lieutenant Governor of Bengal,

R. B. BUCKLEY,

Secretary to the Govt. of Bengal.

RABI CROPS IN BENGAL 1900 1901

THE following is published for general information

I A SLACKE,
Secy to the Govt of Bengal

The 4th April 1901

DEPARTMENT OF LAND RECORDS AND AGRICULTURE, BENGAL

Note on the rabi crops in Bengal for 1900 1901

Explanatory —Hitherto this forecast has included *rabi* crops of all kinds, and figures for wheat, sugarcane, cotton (early and late) and *rabi* oilseeds, for which separate forecasts are issued by this Department, were given in it With Government Order No 23691 —R, dated the 3rd November 1900, however, instructions have been received for the omission from the *bhadoi* and *rabi* forecasts of all crops for which separate reports are prepared These orders have been carried out and this is the first note on the *rabi* crops of these provinces from which figures of wheat, cotton and oilseeds have been omitted

Character of the season —The monsoon rains of the year 1900 were capricious and badly distributed, and the cold weather season has been abnormal in many respects At the commencement of October the districts of the Presidency Division had not recovered from the unprecedented fall of rain in September, while in many districts of Northern and Eastern Bengal the rainfall was in considerable defect There was little or no rain in the months of October and November, and the prospects of the *rabi* crops suffered in consequence, while the area sown with them was restricted In December, January and February, the rainfall considerably exceeded the normal in Chota Nagpur Orissa, and in parts of Bihar, but was deficient in North and East Bengal The excess of rain did a good deal of damage in some districts, while the want of it was seriously felt elsewhere The season was, on the whole, therefore, unfavourable to the growth and ripening of the *rabi* crops

Area sown —Excluding the areas sown with wheat, cotton and oilseeds, the normal area under the different *rabi* crops in these Provinces stands at 9,493 300 acres The area cultivated this year with the several *rabi* crops is 9,047,800 acres as compared with 9,262,000 acres in the preceding year The area under *rabi* food crops this year is 7,647,200 acres against 7,734,200 acres, the estimated area last year As has been noted above, the reduction in area is mainly due to the sudden termination of the monsoon rains early in

October last, and the area placed under these crops in the Presidency Division was also affected by floods

Outturn —It will be seen from Appendix I, that out of the 45 districts in these Provinces, only one, Saran, anticipates an outturn above the normal (111 per cent), and in only two others (Birbhum and Backergunge) is a normal outturn expected Of the rest, twenty districts estimate an outturn varying between 80 and 99 per cent , eleven others estimate an outturn varying between 60 and 79 per cent , while in the remaining 11 districts the estimate falls below 60 per cent Taking the Province as a whole, the District Officers estimate the probable outturn of the *rabi* crops at 79 per cent of a normal crop, as against 88 per cent estimated last year

I believe, however, that the returns are in some cases unduly pessimistic, and it seems probable that the ill effects of the rain and cloudy weather in January and February last have been over estimated In these circumstances, I anticipate that the outturn will not fall short of 85 per cent for the province as a whole

Gross outturn of summer rice —I append a statement showing approximately the probable outturn of the *boro* or summer rice crop, accepting 88 per cent as the estimated outturn It amounts to 3,094,900 cwts , as against an outturn of 3,286,600 cwts reported last year

P C LYON,

Director of the Department of Land Records and Agriculture, Bengal

CALCUTTA

The 26th March 1901

Estimate of outturn of rabi crops, 1900 1901

WEATHER AND CROP REPORT

For the week ending the 8th April 1901

Burdwan—No rain Weather hot Pressing of sugarcane almost over Harvesting of *rabi* continues Fodder and water sufficient Common rice selling as follows —

	Srs	
Sadar	12	per rupee
Kalna	10½	
Katwa	12⅝	
Raniganj	12	

Birbhum—No rain Weather hot Pressing of sugarcane over *Til* sowing finished Price of rice at Sadar 12 seers and at Rampur Hat 12 seers 2 chitaks per rupee Fodder sufficient

Bankura—No rain Weather occasionally cloudy Pressing of sugarcane almost over *Til* being sown Water sufficient Fodder dear Sporadic cases of cow pox reported Price of common rice at Bankura and Vishnupur 12½ seers per rupee

Midnapore—No rain Sugarcane being planted Common rice sells as follows —

	Srs	
Sadar	13	per rupee
Contai	13	
Tamluk	11	
Ghatal	Return not received	

Hooghly—No rain Weather seasonable Rain wanted for ploughing of fields Fodder and water sufficient Common rice sells at 10 seers 14 chitaks per rupee

Howrah—No rain Weather hot Fodder and water sufficient Common rice sells at 10 seers per rupee

24 Parganas—Rainfall nil Weather seasonable Transplantation of *boro* in Barasat subdivision going on Cattle disease reported from Basirhat subdivision Fodder and water sufficient Common rice sells as follows —

	Srs	
Sadar	10	per rupee
Barasat	10	
Basirhat	10	
Diamond Harbour	10½	

Nadia—Rainfall at Kushtia 0 05 Weather seasonable Lands are being prepared for sowing *aus* paddy, but rain is urgently needed Fodder and water sufficient except in Chuadanga Price of common rice stationary

Murshidabad—Rainfall at Jangipur 0 06 Weather seasonable Harvesting of *rabi* crops still going on Prospects bad Cattle disease reported from thanas Nowda and Hariharpara of Sadar subdivision Fodder and water sufficient Common rice sells as follows —

	Srs	
Sadar	12½	per rupee
Jangipur	13½	
Kandi	14	
Lalbagh	12½	

Jessore—No report received from Narail Rainfall at Magura 0 15 Weather seasonable Sugarcane being planted Rain is badly wanted for the ploughing of lands Cattle disease reported from Magura subdivision Fodder and water sufficient Common rice sells as follows —

	Srs	ch	
Sadar	11	0	per rupee
Jhenida	10	8	
Magura	10	8	
Narail	Report not received		
Bangaon	12	5	

Khulna —Rainfall at Sadar nil Bagerhat 1 09, Satkhira 0 89 Weather hot Sowing of early rice commenced Prospect of *boro* fair Fodder and water sufficient Common rice sells as follows —

	Srs	
Sadar	11½	per rupee
Bagerhat	13	
Satkhira	9½	

Rajshahi —Rainfall at Sadar 0 10 Rain wanted Weather becoming hot Prospects of crop fair Condition of cattle good Fodder and water available Common rice averages 12½ seers a rupee

Dinajpur - Rainfall nil Weather hot No cattle disease Fodder and water plentiful Cultivation of *bhadoi* and jute commencing Rice 14 seers a rupee at Sadar

Darjeeling —Rainfall at Darjeeling 65 Kurseong nil Siliguri 33 Kalimpong 1 38 Weather—Sunshine and cloud alternating with occasional light rain *Hills*—wheat, barley, potatoes *phapar*, progressing satisfactorily Common rice sells as follows —

	Srs	
Hills	9	per rupee
Terai	13	

Bhutta sells at Darjeeling 18 seers and at Kalimpong 20 seers per rupee

Jalpaiguri —Rainfall 33 Weather seasonable Harvesting of tobacco continues Fields are being prepared for *bhadoi* and jute Price of common rice steady Fodder and water sufficient

Rangpur —Rainfall nil Weather seasonable Rain wanted Sowing of jute retarded Condition of *aus* good Fodder and water sufficient Common rice sells as follows —

	Srs	
Sadar	11	per rupee
Gaibanda	11	
Kurigram	11	
Nilphamari	13	

Bogra —No rain Weather hot Ploughing for *aus* and jute still continues Rain much wanted Fodder and water sufficient Common rice sells at 11 seers per rupee

Pabna —Rainfall at Sadar 0 03 Weather very hot Prospects of crops fair, but rain is much wanted Prices unchanged Fodder and water sufficient

Dacca —Rainfall at Sadar 37, Manikganj 34 Munshiganj 11, Narainganj 19 Weather seasonable Prospects of crops fair More rain wanted Fodder available Cattle disease reported from Manikganj subdivision Common rice 10 seers per rupee

Mymensingh —Rainfall at Kishoreganj 0 12, Netrakona 0 22 Tangail 0 41 Weather seasonable Prospects of standing crops fair, but more rain wanted for *aus* and jute cultivation Common rice sells as follows —

	Srs	
Sadar	9	per rupee
Jamalpur	8⅞	
Kishoreganj	9$\frac{5}{16}$	
Tangail	9⅜	
Netrakona	8½	

Faridpur —Rainfall at Sadar 1 09, Madaripur 1 82 Weather seasonable State and prospects of crops improved with rain Common rice sells at 11 seers per rupee

Backergunge —Rainfall at Sadar 0 45 Weather seasonable Prospects of crops good Fodder and water sufficient No cattle disease reported Common rice (*aman*) sells at 11 seers per rupee

Tippera —Rainfall at Chandpur 79 Brahmanbaria 4 Weather seasonable, but more rain is wanted for paddy and jute cultivation Cattle disease continues Fodder available Drinking water becoming scarce in places Common rice sells at 10 seers 10 chitaks per rupee

Noakhali —Rainfall at Sadar 90, Feni 48 Sowing of *aus* continues Crops suffer ing from want of rain in the part Cattle disease reported from Begamganj and Sonbag Fodder and water sufficient Price of common rice at Sadar 10¼ seers and at Feni 12 seers per rupee

Chittagong —No rain Water and fodder becoming scarce Common rice sells at 12½ seers per rupee

Patna —Harvesting of *rabi* lancing of poppy and planting of sugarcane almost finished Threshing of *rabi* is in progress No cattle disease Fodder and water for cattle sufficient Price of common rice in Patna is 15 seers a rupee

Gaya —Rainfall nil *Rabi* being harvested Common rice selling at 11¾ seers per rupee

F A SLACKE

Secretary to the Govt of Bengal.

Abstract of the Results of Meteorological Observations taken at the Alipore Observatory in the month of March 1901

	Inches	Date	Hour
The mean pressure of the month	29 912		
The average pressure of March from 24 years' registers	29 863		
The highest pressure in the month	30 100	2nd	10
The lowest pressure in the month	29 752	31st	16
The range of pressure	0 348		
	Hours		
The total number of hours of bright sunshine during the month	271 1		
The maximum possible number of hours of sunshine	371 3		
	°		
The mean temperature of the month	79 1		
The average temperature of March from 24 years registers	80 6		
The highest temperature in the month	101 7	31st	
The lowest temperature in the month	59 3	3rd	
The range of temperature during the month	42 4		
The mean daily range of temperature	25 3		
The greatest range of temperature in one day	32 5	31st	
	Per cent		
The mean humidity of the month	63		
The average humidity of March from 24 years' registers	66		
	Inches		
The mean vapour tension of the month	0 591		
The average vapour tension of March from 9 years registers	0 702		
The mean cloud proportion of the month	1 63		
The average cloud proportion of March from 24 years registers	2 26		
	Inches		
The total rainfall of the month	Nil		
The total rainfall indicated by a Beckley's self registering rain gauge (mouth of the gauge about 52 feet above the ground)	Nil		
The average fall of March from 48 years registers	1 34		
The greatest fall in 24 hours	Nil		
	Days		
The number of rainy days in the month	Nil		
The average number of rainy days in March from 24 years registers	4		
	°		
The mean maximum equilibrium temperature of solar radiation during the month	147 0		
The mean difference of sun and air temperatures	53 7		
The greatest sun temperature	158	19th	
The greatest excess of sun over air temperature	59 2	9th	
The mean temperature of the nocturnal radiation thermometer on woollen cloth	63 5		
The mean depression of the nocturnal radiation thermometer below the minimum air temperature at 4 feet above the ground	4 4		
The greatest depression of the nocturnal radiation thermometer below the minimum air temperature	6 4	26th	
	Miles		
The mean movement of the wind per day	104 0		
The greatest movement of the wind in one day	156 0	25th	
The greatest movement of the wind in one hour	14 0	8th 1 to 2 A M, 11th 1 to 2 P M, 25th 9 to 10 A M & 11 to noon	

The number of hours with winds from each of the 8 points—
N 72, N E 19 E 13 S E 13, S 96, S W 271, W 111, N W 115, Calm 34

The results of observations at the Alipore Observatory are not rigorously comparable with the registers of past years (at the Park Street Observatory) The barometer is about 3 feet higher at Alipore, and, other things being equal, reads therefore 003 lower The diurnal range of temperature is also greater at Alipore, and the mean temperature apparently about 1 0 lower, and, finally, the thermometer, which furnished the record of temperature at the Surveyor General's Office during 20 years and upwards, is found to read 0 6 higher than the Kew Standard thermometer, which is the standard of reference at the present Observatory

G W KUCHLER,

For *Meteorological Reporter to the Govt of India, and Director General of Indian Observatories*

METEOROLOGICAL OFFICE, GOVT OF INDIA,
Alipore (Calcutta), the 8th April 1901

Results of the Meteorological Observations taken at the Alipore Observatory from 31st March to 6th April 1901

	Inches.
The mean pressure of the seven days	29 816
The average pressure of the corresponding period for 24 years, Surveyor-General's Office	29 789
	Hours.
The total number of hours of bright sunshine	61 0
The maximum possible number of hours of sunshine	86 6
	°
The mean temperature of the seven days	86 4
The average temperature of the corresponding period for 24 years, Surveyor General's Office	84 2
The extreme variation of temperature	32 5
The maximum temperature	101 7
	Miles
The highest velocity of the wind in one hour	16
	%
The mean relative humidity	57
The average relative humidity of the corresponding period for 24 years, Surveyor General's Office	67
	Inches
The total fall of rain from 31st March to 6th April 1901	Nil
The average fall of the corresponding period for 24 years, Surveyor General's Office	0 34
The total fall from 1st January to 6th April 1901	3 26
The average fall of the corresponding period for 24 years, Surveyor General's Office	3 11

The mean pressure, temperature, &c, are deduced from the traces of the Barograph and Thermograph, and from eye observations

The maximum and minimum temperatures are obtained from self-registering thermometers All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground

The barometer readings are corrected approximately to those of the standard, Newman's No 86, formerly at the Surveyor General's Office

The hygrometric elements are obtained from Tables III IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph

The mouth of the rain gauge is one foot above the ground.

♁ dew

E N BAKER,
Secy to the Govt of Bengal

NOTIFICATION—No 29 68 R

The 15th April 1901 —In exercise of the power conferred by section 79 of Act VIII of 1878 (the Sea Customs Act) and under section 6 of Act X of 1889 (the Indian Ports Act,) and in supersession of the notification of the 11th February 1879 published at page 130, Part I of the *Calcutta Gazette* of the 12th idem, the Lieutenant Governor is pleased to

make the following rules for the licensing and registration of cargo boats at the port of Dhamra in the province of Orissa Under section 79 of Act VIII of 1878 the Port Officer of Chandbally is appointed to issue licenses for and register cargo boats plying within the limits of the port of Dhamra

The o rules will come into force with effect from the date of publication

1 Each application for the licensing and registration of a cargo boat must contain particulars of the owner s name and residence and the tonnage of the boat

2 The applications shall be made to the Port Officer of Chandbally, who shall cause the boats to be examined, and shall certify that they are seaworthy

3 The Port Officer shall from time to time cause the boats to be surveyed and if any boat is found unsafe shall withdraw the license held by the owner of the said boat until it shall have been repaired to his satisfaction

4 The Port Officer may from time to time condemn any boat found to be thoroughly unseaworthy and may refuse to allow it to be repaired

5 Fees not exceeding the sums mentioned herein shall be payable for the issue and renewal of licenses granted under this rule

	Rs	A	P
For boats not exceeding 10 tons burden	1	0	0
Ditto exceeding 10 and not exceeding 15 tons burden	2	0	0
Ditto ditto 15 tons burden	3	0	0

6 The licenses will be current until they are withdrawn by the Port Officer

7 All licenses will be registered in the order of granting but when any license is permanently withdrawn then the next license issued shall bear the number of the license withdrawn

8 The number of the license must be painted in black letters on a white ground on both the bows of every licensed boat the figures must not be less than six inches in length and four inches in breadth

9 The license must be produced when ever demanded by any officer of police or customs or by any person using or hiring the boat

10 Cargo boats the manjees of which shall not produce their license as aforesaid, may be treated as unlicensed boats, failing an explanation satisfactory to the Port Officer of Chandbally or in his absence the Customs Officer at that station

11 Any goods found within the limits of the port on board of any boat not duly licensed and registered shall unless such goods be covered by a special permit from the officer in charge of the Custom House be liable to confiscation

12 No cargo boats shall be licensed unless provided with a sufficient crew to be specified in the license

13 The license of a cargo boat found plying contrary to the conditions of the license shall be liable to cancelment

14 If any license be cancelled for any reason the holder thereof shall be bound to deliver it up to the Port Officer of Chandbally

15 In respect of serving vessels which enter the port of Dhamra the owners, manjees and crews of all licensed cargo boats shall obey all orders issued by the Port Officer consistent with these rules and the Consolidated Customs Act

16 When any vessel arrives in the port of Dhamra and requires the services of cargo boats it shall be lawful for the Port Officer with or without the application of the agents owners, or commander of the said vessel, to apportion a certain number of licensed cargo boats for the service of the said vessel

17 When in the opinion of the Port Officer the weather is too bad for work to be carried on alongside a vessel in port, the Port Officer shall cause a storm signal (cone or drum) to be hoisted, and boats shall not be bound to ply while such signal is flying

18 Scale of crews

Class 1st, square built, open or decked

For a boat of not more than 15 tons burden 5 men including manjee

Above	15 tons and under	20 tons	6	men	including manjee
„	20 „	„	25 „	7	„	„
„	25 „	„	30 „	8	„	„
„	30 „	„	35 „	9	„	„
„	35 „	„	40 „	10	„	„
		above	40 „	11	„	„

Class 2nd, Bhurs or Pattamoondie boats

For a boat not more than 15 tons burden 4 men, including manjee

Above	15 tons and under	20 tons	5	men,	including manjee
„	20 „	„	30 „	6	„	„
„	30 „	„	35 „	7	„	„
		above	35 „	8	„	„

19 Any licensed cargo boat found plying within limits of the port of Dhamra with less than the proper scale of crew under Rule 18 or with deficient ground tackle and appliances, shall be liable to withdrawal of license until such deficiency be made good to the satisfaction of the Port Officer.

The 16th April 1901

No 47 Marine —Under section 10 of Act I of 1859 (an Act for the amendment of the law relating to merchant seamen) the Lieutenant Governor is pleased, with the sanction of the Governor General in Council to make the following rule in supersession of rule 10 of the rules for the conduct of examinations for Masters and Mates of Foreign going ships and

Home trade ships and as to the qualifications to be required sanctioned by this Government in this Department s Notification No 183Marine dated the 28th September 1899

Rule 10 —Every candidate for a certificate of competency of any grade must pass the three tests before he can proceed to the examination in navigation and seamanship

(1) The three tests are —

(*a*) Form vision test (see page 93)
(*b*) Colour vision test (see page 94)
(*c*) Colour ignorance test (see page 103)

No candidate will be examined in the colour vision test until he has passed the form vision test or in the colour ignorance test until he has passed the colour vision test

(2) This rule must be observed whether the candidate has or has not on any previous occasion passed the sight tests

(3) Candidates who fail to pass the form vision test or colour ignorance test can be re examined at intervals of three months, but candidates who fail to pass the colour vision test cannot be re examined It is open, however to any candidate who has failed to pass the colour vision test to appeal to the Government who may if they think fit, remit the case to a special examiner or body of examiners for final decision

(4) The expenses of candidates who are examined by such special examiner or body of examiners and are reported by them to have passed, will, under certain circumstances be paid by the Government at a rate which will be notified to the candidate but no payment whatever will be made towards the expenses of candidates who upon their own application, are examined by the special examiners and are reported by them to have failed unless the Government consider that the particular circumstances of the case justify such payment The special examinations will be held in Calcutta only

(5) When a candidate fails to pass the colour vision test the examiner will point out to him the conditions under which he can appeal Appeals are to be made through the examiner and forwarded to the Government with the examiner s remarks

(6) The fee paid for examination for a certificate of competency includes the fee of one rupee for examination in form vision colour vision and colour ignorance and if the candidate fails to pass those tests this fee will, with the exception of one rupee be returned to him

(7) Only examiners who have themselves passed the colour vision test are to undertake these examinations

EDUCATION DEPARTMENT, BENGAL

Subordinate Educational Service

The 12th April 1901—Babu Gobinda Hari Dhar Second Clerk, office of the Inspector of Schools, Presidency Circle who was under the orders of the 13th September 1900 appointed on probation for six months to be Head Clerk in the office of the Inspector of Schools Eastern Circle is confirmed in the latter appointment

He is also confirmed in class VIII of the Subordinate Educational Service

Babu Srish Chandra Ray M A Head Clerk of the Krishnagar College (class VIII) who was, under the orders of the 21st September 1900 appointed to be substantive *pro tempore* Head Clerk of the Rajshahi College, is confirmed in the latter appointment

The 13th April 1901—Babu Umes Chandra Das Gupta Sub Inspector of Schools Firozpur in the district of Backergunge has been granted by the District Board of Backergunge privilege leave for a month with effect from the 2nd March 1901

The 16th April 1901—Consequent on the retirement on the 13th April 1901 of Babu Chandra Kumar Ray, Third Master, Comilla Zilla School the following arrangements are sanctioned —

(1) Babu Umesh Chandra Haldar, M A Fourth Master, Comilla Zilla School and Officiating Fifth Master, Chittagong Collegiate School (class VIII) to be Third Master of the Comilla Zilla School on the pay of his own grade *vice* Babu Chandra Kumar Ray but he will act as Fourth Master, Chittagong Collegiate School *vice* Mr S W Percival or until further orders

(2) Mr S W Percival Fifth and Officiating Fourth Master Chittagong Collegiate School (class VIII), to be First Assistant Teacher, Dacca Collegiate School on the pay of his own grade, *vice* Babu Chandra Kumar Ghosh

(3) Babu Upendra Nath Banerjea M A substantive *pro tempore* Third Master Ranchi Zilla School (substantive *pro tempore* in class VIII) to be Fourth Master Comilla Zilla School but to act as Third Master of the same Institution *vice* Babu Umesh Chandra Haldar

Babu Upendra Nath Banerjea is also confirmed in class VIII

(4) Babu Kisori Mohan Bose M A is appointed to be substantive *pro tempore* Third Master, Ranchi Zilla School, and to be substantive *pro tempore* in class VIII

A PEDLER,

Director of Public Instruction, Bengal

ORDERS BY THE VICE CHANCELLOR AND SYNDICATE OF THE CALCUTTA UNIVERSITY

THE following revised Rules for Examinations in Arts passed by the Syndicate are published for general information —

RULES FOR EXAMINATIONS PASSED BY THE SYNDICATE

(1) ARTS

I—GENERAL

(a) APPOINTMENT OF EXAMINERS

1 In February of each year the Syndicate shall appoint gentlemen to set the question papers in all the subjects of the Arts Examinations of the current academical year

2 No gentleman shall be appointed to set a paper in a subject of which he teaches the whole or a part

3 Not less than a month before the commencement of the Arts Examination the Syndicate shall appoint Examiners to look over the answer papers of the candidates Canvassing will not be allowed

Head Examiners shall be appointed to superintend the work of the Entrance Examiners in the following subjects —

(1) English | (3) Sanskrit and Bengali Translation
(2) Mathematics | (4) History
(5) Geography

Separate Examiners shall be appointed in English and in Philosophy to examine Honour and Pass papers in the B A Examination

The B A Pass papers in English and in Philosophy shall each be divided into halves, and *one* Examiner shall be appointed to examine the answers to each half paper

In the B Sc paper in English the Essay on each respective Scientific subject shall be examined by the Examiner appointed to conduct the B Sc Examination in that subject

(*b*) SETTING PAPER

4 Gentlemen appointed to set the examination papers are requested to write in the margin opposite to each question, the maximum number of marks they intend to assign to it

5 The papers set should be such as candidates can reasonably be expected to answer within the time allotted

6 The questions in each subject should be fairly distributed over the whole course in that subject and should as far as possible conform to the standard of previous years Gentlemen setting papers are requested to guide themselves by the text book, or portions of the text book prescribed by the Syndicate as covering the syllabus Where two or more alternative text books or groups of text books are prescribed in any subject the examination questions shall be so framed as to be capable of being answered out of any one of the prescribed text books or groups of text books

7 The examination papers *in duplicate* written very legibly *on one side only of foolscap paper* are to be sent by post in a sealed and registered double cover to the Registrar's private residence No copy of any examination paper is to be retained by the gentleman setting it

8 The papers in English Mathematics, and History and Geography for the Entrance Examination, and in English Mathematics and Elementary Physics and Chemistry for the First Examination in Arts shall be moderated *Three* persons shall be appointed a Board of Examiners to set each of the papers in the abovenamed subjects The duty of *two* of them shall be to set the paper allotted to them in consultation with each other at a meeting and the duty of the *third* who shall be appointed by the Syndicate on the recommendation of the Board of Studies concerned and shall be designated Moderator shall be to revise in consultation with the other members of the Board at a meeting the paper set all points of difference being decided by a majority of votes The paper thus set and revised shall be submitted to the Registrar with a certification, over their joint signatures that it conforms to the prescribed condition and does not involve a variation from the average standard

9 When two or more persons are appointed to set papers in any subject for the F A B A, B Sc or M A Examination it shall be their *joint* duty wherever possible to moderate the papers set by them in consultation with each other and to see that the papers set by them conform to the conditions laid down by the University for such examination and that the standard of questions set remains approximately uniform from year to year

(*c*) EXAMINATION OF PAPERS

10 The Examiners will be expected to be present in Calcutta during the examination in the subjects for which they have been specially appointed

11 When two or more Examiners are appointed to examine answers to the same question paper they shall meet as soon as possible after the examination to decide upon a uniform system of marking

They shall elect one of their number to act as Chairman whose duty it shall be to decide all questions that arise after the meeting of the Examiners, and to forward to the Registrar a copy of the rules agreed upon at the meeting

In the case of the Entrance Examination, the Head Examiner shall be *ex officio* Chairman

The B A Pass papers in English and in Philosophy shall each be divided into halves, and *one* Examiner shall be appointed to examine the answers to each half paper

12. Each Examiner shall be furnished with a roll containing the names and numbers of all the candidates to be examined by him, in which he shall enter the total number of marks assigned to each candidate.

The total number of marks must in every case be a whole number. If the roll submitted by an Examiner contains fractional marks, it will be returned to him for correction.

13. The Examiners shall mark on each answer paper the marks assigned to each question as well as the total marks.

14. The Examiners will be expected to examine the papers of the candidates in the order in which their names appear on the roll, and at the end of each week to send to the Registrar or to the Head Examiner, as the case may be, the pages of the roll containing the marks assigned to the papers examined. The attention of the Examiners is specially directed to this rule, and the Registrar is required to report to the Syndicate after the examinations are over any case of infraction of this or any other rule.

15. As soon as the results have been tabulated, the Registrar shall prepare a list of the candidates who have failed in one subject only, and in order to guard against any possible mistakes, their papers in that subject shall be re-examined by the original Examiners or by the Head Examiners on the method of marking already adopted and without any alteration of the standard.

To facilitate the work of re-examination, the Examiners, or the Head Examiners as the case may be, shall keep the answer papers of the candidates arranged in the order in which their names appear on the roll.

The answer papers shall be returned to the Registrar as soon as the work of re-examination is over.

16. Six weeks before the Entrance, F. A., B. A. and B. Sc. Examinations take place, the Syndicate shall fix the latest date for sending in marks. The time allowed for the re-examination of answer papers shall be *four* days for 100 papers and under and *one* day additional for every 25 papers or portion thereof over 100, Sundays being excluded.

If any Examiner fails to send in his marks within the limits of time prescribed for examination and re-examination, the amount of his remuneration shall be reduced by Rs. 16 for each day by which he exceeds that period.

17. Each Examiner shall write his name and the subject of examination at the foot of every page of his roll.

18. No entry shall be made in the roll against the name of any candidate from whom no paper is received.

19. Examiners are requested to keep the result of the examination and the marks assigned to candidates *strictly secret*.

20. Not less than a month before the commencement of the Entrance and F. A. Examinations, the Syndicate shall appoint from among the representatives of the Faculty of Arts four Moderators. The Moderators, in consultation with the Registrar, shall be empowered to pass candidates who have failed in one subject only in either of the above examinations by the addition of grace marks. If the Moderators and the Registrar are not unanimous on any point, it shall be referred to the Syndicate at their next meeting.

21. The Examiners for the B. A. and B. Sc. Examinations shall report the result of the examination in their respective subjects to the Syndicate.

II.—SPECIAL.

(i) ENTRANCE EXAMINATION.

1. The Examination shall be held early in March in the following order:—

Monday	English	1st Paper from 10 A.M. to 1 P.M. The text books and questions on Grammar. 2nd Paper from 2 P.M. to 5 P.M. Part I—(*a*) Translation from a vernacular. (*b*) Special question for students whose vernacular is English. Part II—Question on English Composition for all candidates.
Tuesday	Mathematics	Arithmetic and Algebra from 10 A.M. to 1 P.M. Geometry from 2 P.M. to 5 P.M.
Wednesday	Second Language	1st Paper from 10 A.M. to 1 P.M. Text and Grammar. 2nd Paper from 2 P.M. to 5 P.M. Translation and Composition.

Thursday, History and Geography	History from 10 A.M. to 1 P.M. Geography and Huxley's Introductory Primer from 2 P.M. to 5 P.M.
Friday, Drawing*	Freehand and Model Drawing from 10 A.M. to 1 P.M.

2 The questions shall be framed chiefly with a view to test a general but intelligent knowledge of the subject and questions that are very minute or very difficult shall, as a rule, be avoided.

3 The following values are attached to the various subjects:—English (1st paper) 120 (2nd paper) 80. Mathematics—two papers, 80 each. Second Language (1st paper) 80 (2nd paper) 40. History and Geography, with Huxley's Introductory Primer—two papers 60 each. Drawing (optional subject) 60.

Part I of the 2nd paper in English (translation from a vernacular and the corresponding special questions for students whose vernacular is English) shall be calculated to occupy one hour and 26 marks shall be assigned to it.

In the Mathematical papers not less than 60 per cent of the marks in Geometry and not more than 30 per cent of the marks in Arithmetic and Algebra shall be assigned to book work.

In the papers in Sanskrit and Sanskritic Languages some of the questions at least shall be required to be answered in the language in which the candidate is being examined.

4 To pass the examination candidates shall be required to obtain 33 per cent of the marks in English and 25 per cent in the remaining subjects and 33 per cent in the aggregate.

5 Candidates obtaining 50 per cent of the marks in the aggregate shall be placed in the First Division and those obtaining 40 per cent in the Second Division.

In Drawing (optional subject) the papers of candidates gaining 60 per cent or more of the marks shall be classed as "excellent," and those gaining between 40 and 60 per cent as "good."

6 The Head Examiner shall determine, in consultation with the Entrance Examiners in his subject, the method of marking the answer papers of the candidates.

For this purpose a meeting of the Examiners in each subject shall be held as soon as possible after the close of the examination at which provisional rules shall be drawn up. After this meeting each Examiner shall look over a certain number of papers (the number to be determined at the meeting) and shall submit them to the Head Examiner for re-examination. After he has re-examined these papers the Head Examiner shall call another meeting for the final determination of the rules. A copy of these rules shall be sent to each Entrance Examiner and to the Registrar.

7 Each Head Examiner shall re-examine at least 5 per cent of the answer papers looked over by each of the Entrance Examiners in his subject with a view to see whether they are working uniformly according to the method indicated, and shall direct, if necessary, any Examiner to conform strictly to that method.

The re-examination of the answer papers shall be conducted in the following manner:—

Every Entrance Examiner shall as soon as he finishes the examination of about 100 papers, send them with the corresponding pages of his roll to his Head Examiner who shall examine at least five papers taken at random out of them and shall give the Examiner any further instructions he may deem fit or shall return the remaining papers for re-examination if he is of opinion that the rules have not been complied with. The same course shall be followed with every subsequent batch of 100 papers.

8 In no case shall the Head Examiner increase or diminish the marks assigned to any paper by an Entrance Examiner without himself examining that paper.

9 In case of a difference arising between a Head Examiner, and an Entrance Examiner, an appeal shall lie to the Moderators.

10 Every Entrance Examiner must remain in Calcutta as long as his services are required by his Head Examiner.

11 The Head Examiner shall forward to the Registrar by instalments the totalised marks in his subject with observations on those cases which he may deem worthy of special consideration.

In order to avoid delay in the submission of the totalised marks Head Examiners are requested to see that the Entrance Examiners look over the papers of candidates in the order in which their names appear in the rolls (General Rule 11).

(b) FIRST EXAMINATION IN ARTS

1 The Examination shall be held in March in the following order:—

Monday, English	Poetry from 10 A.M. to 1 P.M. Prose from 2 P.M. to 5 P.M.

* Freehand—
The ... will be ... drawing ... compound ... be ...
2 Model D...—
By Model D... of ... not ... to be ...
The ... and ... with ... combination with common objects (with ...
Drawing ...
One paper ... to be set ...

Tuesday, Mathematics	Mathematics from 10 A M to 1 P M ,, 2 P M to 5 P M
Wednesday Second Language	Second Language from 10 A M to 1 P M ,, ,, 2 P M to 5 P M
Thursday Physics and Chemistry	Physics from 10 A M to 1 P M Chemistry from 2 P M to 5 P M
Friday History and Logic	History from 10 A M to 1 P M Logic from 2 P M to 5 P M
Saturday Physiology Sanitary Science and optional paper on Original Composition in Bengali, Hindi Urdu or Uriya	Physiology or Sanitary Science from 10 A M to 1 P M Original Composition from 2 P M to 5 P M

2 *In all cases where the answers are written in English, Examiners in giving marks shall take the correctness of the English into account*

3 The value of the papers shall be as follows —English [illegible] marks in each paper Mathematics 60 marks in each paper Second Language 60 marks in each paper Physics and Chemistry, 60 marks in each paper Logic 60 marks History 60 marks Physiology, 60 marks Sanitary Science 60 marks

4 In the Mathematical papers at least three fifths of the marks shall be awarded to book work In the Physics paper no mathematical questions shall be set In one of the papers in English some subject for Original Composition shall be set 25 marks shall be assigned to this question

The examination in Logic shall be on the subject as defined by the syllabus and shall not necessarily be confined to the book recommended to be used in studying the subject

An optional paper on Original Composition in Bengali Hindi Urdu or Uriya shall be set at the examination and 100 marks shall be assigned to it

5 In order to pass in English, a candidate must obtain 15 marks in Mathematics 30 marks in the additional Language [illegible]0 marks in Physics and Chemistry 30 marks in History 15 marks in Logic 15 marks in Physiology 15 marks in Sanitary Science, 15 marks

In order to pass the F A Examination a candidate must pass in the compulsory subjects and must secure an aggregate of 160 marks in these subjects Candidates obtaining 342 marks or more shall be placed in the First Division and those obtaining 257 marks or more shall be placed in the Second Division

If a candidate has passed in the compulsory subjects and has obtained the minimum aggregate he will be allowed to have the marks which he may obtain in the optional subject (provided he has passed in it) added to his aggregate marks in the compulsory subjects and the total so obtained will be used in determining the division in which he will be placed and his place in such division

In order to entitle a candidate to a special certificate in Original Composition in Bengali Hindi Urdu or Uriya under paragraph 8 of the F A Regulations the candidate must obtain not less than 50 per cent of the marks in the paper on Composition

(c) B A EXAMINATION

1 The examination shall be held in March in the following order —

Monday English (Pass and Honour)	1st Paper from 10 A M to 1 P M 2nd Paper from 2 P M to 5 P M
Tuesday English (Honour)	3rd Paper from 10 A M to 1 P M 4th Paper from 2 P M to 5 P M
Wednesday Philosophy and alternative subjects in the B Course (Pass and Honour)	1st Paper from 10 A M to 1 P M 2nd Paper from 2 P M to 5 P M
Thursday Philosophy and alternative subjects in the B Course (Honour)	3rd Paper from 10 A M to 1 P M 4th Paper from 2 P M to 5 P M
Friday Mathematics and alternative subjects in the A Course (Pass and Honour)	1st Paper from 10 A M to 1 P M 2nd Paper from 2 P M to 5 P M
Saturday Mathematics and alternative subjects in the A Course (Honour)	3rd Paper from 10 A M to 1 P M 4th Paper from 2 P M to 5 P M
Monday Optional paper on Original Composition in Bengali, Hindi Urdu or Uriya	From 10 A M to 1 P M

2 *In all cases where the answers are written in English Examiners in giving marks, shall take the correctness of English into account*

3 *The papers in each language shall include questions on Grammar and Idiom, and paraphrasing shall be discouraged Sentences in each of the languages in which the candidate is examined shall be given for translation into the other language No questions in Rhetoric are to be set in the Sanskrit Pass and Honour Papers*

In English in one of the Pass papers some subject for Original Composition shall be set 30 marks will be assigned to this question

(1) [illegible] 2 to 3 30 P M Date or dates of the practical examination in Chemistry will be fixed by the Registrar in consultation with the Examiner

In the 4th Honour paper in English, some subject for Original Composition shall be set 50 marks will be assigned to this question

In the Pass papers in Mathematics, three fifths of the marks shall be assigned to book work and two fifths to simple riders

In the Honour Papers in Mathematics, one half of the marks shall be assigned to book work, and the other half to easy riders and problems

The questions in Descriptive Astronomy shall be confined to book work

The examination in Mental and Moral Science shall be on the subject as defined by the syllabus and shall not necessarily be confined to the books recommended to be used in studying the subject

In the 3rd Honour paper 25 marks shall be assigned to questions on the "Special subject in History of Philosophy

An optional paper on Original Composition in Bengali, Hindi or Uriya, Urdu shall be set at the examination, 100 marks shall be assigned to it

4 Different papers shall be prepared for the Pass and Honour candidates who will be examined at the same time The questions set in the papers for Pass candidates shall be taken only from the Pass Course, and the questions set to the candidates for Honours shall be taken from both the Pass and Honour Courses In the papers set to the Honour candidates the questions taken from the Pass Course shall be more difficult than those in the papers set to candidates for a Pass only The papers shall be headed English (*) 1st Pass paper English (*) 2nd Pass paper, English, (*) 1st Honour paper English, (*) 2nd Honour paper English (*) 3rd Honour paper English, (*) 4th Honour paper

5 The papers shall be headed and distributed among the various subjects as follows —

A COURSE

I —English, 1st Pass Paper	*1st half* Poetry 50 marks, Shakespeare s Plays *2nd half*, Poetry, 50 marks, Milton and Tennyson
2nd	*1st half*, Prose, 50 marks Burke *2nd half* Prose 20 marks, Pattison, 30 marks Original Composition
, 1st Honour Paper	Poetry Pass texts
2nd ,, ,,	Prose, Pass texts
, 3rd ,,	Poetry and Prose Honour texts
4th ,, ,,	History of English Language and Literature and Essay
II —Philosophy, 1st Pass Paper	1st half 50 marks *Psychology*— Philosophy and Psychology Scope and Method of Psychology Relation of Psychology to Metaphysics and Physiology Mind, Consciousness Self consciousness Analysis and Classification of Mental Processes and Products Development of Mental Life Laws of Mind Psychology of Cognition Perception and Sensation The Senses and the Nervous System Localisation of Sensation Primary and Secondary Qualities of Body Object of Perception Perception of the different Senses Acquired Perceptions Imagination, Expectation Memory Thinking Conception, Judgment, Reasoning, Generalisation Belief and Knowledge Experience and Reason Self External World Time Space, Substance, Cause, Power *Logic*— Definition and Province of Logic Relation of Logic to Metaphysics and the Special Sciences Thought, Knowledge Truth Science Immediate and Mediate Knowledge Intuitive and Inferential Truths 2nd half, 50 marks *Logic*— Observation and Experiment Analysis and Synthesis Classification and Definition Hypothesis and Explanation Induction, Analogy and Probability The ground of Induction Experimental Methods Deductive Method Relation of Induction to Deduction Demonstration, Syllogism, Functions of Syllogism

* Or whatever the subject may be

II.—Philosophy, 2nd Pass Paper	1st half 50 marks *Psychology*— Psychology of Feeling, Sense feelings Emotions and Sentiments Pleasure and Pain Psychology of the Will Attention and Volition Appetite and Desire Instinct and Habit Voluntary Action Conflict of Motives Deliberation, Choice Freedom of the Will *Ethics*— Scope and Method of Ethics Relation of Ethics to Metaphysics Psychology, Sociology and Politics
II.—Philosophy, 2nd Pass Paper	2nd half, 50 marks *Ethics*— Analysis of the Moral Consciousness Moral Sentiment Moral Judgment the Moral Faculty Springs of Action and their Mutual Relation The Good or Ultimate End of Action Moral Obligation Standards of Right and Wrong Sanctions of Morality The Individual and Society Duties and Virtues
II.—Philosophy 1st Honour Paper	Logic and Psychology (exclusive of Psychology of the Feelings and the Will)
„ 2nd „ „	Ethics and Psychology (of the Feelings and the Will)
„ 3rd „ „	History of Philosophy
„ 4th „ „	Natural Theology
III.—Second Language, e g —	
Sanskrit, 1st Pass Paper	Poetry
„ 2nd „ „	Prose
„ 1st Honour Paper	Poetry
„ 2nd „ „	Prose
„ 3rd „ „	Poetry and Prose
„ 4th „ „	Comparative Philology
IV.—History and Political Economy—	
1st Pass Paper	History
2nd „ „	History and Political Economy
1st Honour Paper	History of England
2nd „ „	Political Economy
3rd „ „	History of Greece and Rome
4th „ „	History of India
V.—Mathematics as in the B Course	

B COURSE

I.—English as in the A Course	
II.—Mathematics, 1st Pass Paper	Statics and Hydrostatics
„ 2nd „	Dynamics and Astronomy
1st Honour Paper	Statics and Hydrostatics
2nd „ „	Dynamics and Astronomy
3rd „	Analytical Geometry
4th „ „	Differential and Integral Calculus
III.—Physics and Chemistry—	
1st Pass Paper	Physics
2nd „	Chemistry
1st Honour Paper	Physics
2nd „ „	Physics and Doctrine of Scientific Method
3rd „ „	Chemistry
4th „ „	(a) Chemistry, time 1½ hours (b) Chemistry, Practical Examination, time 3 hours
IV.—Biology, 1st Pass Paper	Physiology
2nd „ „	Botany or Zoology
„ 1st Honour Paper	Physiology
„ 2nd „ „	Botany and Doctrine of Scientific Method
„ 3rd „ „	Zoology and Doctrine of Scientific Method
„ 4th „ „	Zoology

V.—Geology, 1st Pass Paper	Geology
„ 2nd „ „	Physical Geography or Mineralogy
„ 1st Honour Paper	Geology
„ 2nd „ „	Mineralogy and Physical Geography
„ 3rd „ „	Geology and Doctrine of Scientific Method
„ 4th „ „	Palæontology and Doctrine of Scientific Method

6 The same number of marks, viz 100, shall be given for each paper with the exception of the 4th Honour paper in Chemistry, in which 50 marks shall be given for the half paper in Chemistry and 50 for the Practical Examination In order to pass in the Pass Course in any subject, a candidate must obtain 60 marks

In order to obtain Honours in the First Division in any subject a candidate must obtain 240 marks and in order to obtain Honours in the Second Division in any subjects, a candidate must obtain 160 marks

In order to pass in an Honour subject, a candidate must obtain 100 marks

If a candidate obtains Honours in any subject, no minimum aggregate shall be required but if a candidate does not obtain Honours in any subject, he must, in order to pass obtain 216 marks in the aggregate, and if he has taken up an Honour subject, 60 per cent of the marks obtained in that subject shall be counted towards the aggregate

In order to obtain a special certificate in Original Composition in Bengali Hindi, Urdu or Uriya a candidate must obtain 50 per cent of the marks

"(d) B Sc EXAMINATION

(1) The Examination shall be held in March in the following order—

Monday, English	One paper, Essay from 10 A M to 1 P M
Tuesday, Physics	1st Pass and 1st Honour Paper, from 10 A M to 1 P M Pass Practical Examination and 2nd Honour Paper, from 2 P M to 5 P M
Wednesday, ditto	Honour Practical Examination
Thursday, Chemistry	1st Pass and 1st Honour Paper from 10 A M to 1 P M Pass Practical Examination and 2nd Honour Paper, from 2 P M to 5 P M
Friday, ditto	Honour Practical Examination
Saturday, Mathematics	1st Pass and 1st Honour Paper, from 10 A M to 1 P M 2nd Pass Paper (optional Mathematics) and 2nd Honour Paper, from 2 P M to 5 P M
Monday, ditto	3rd Honour Paper, from 10 A M to 1 P M 4th Honour Paper from 2 P M to 5 P M
Tuesday, Physiology	1st Pass and 1st Honour Paper from 10 A M to 1 P M Pass Practical Examination and 2nd Honour Paper, f 2 P M to 5 P M
Wednesday, ditto	Honour Practical Examination rom
Thursday, Botany	1st Pass and 1st Honour Paper, from 10 A M to 1 Pass Practical Examination and 2nd Honour 2 P M to 5 P M
Friday, ditto	Honour Practical Examination 1 P M
Saturday, Zoology	1st Pass and 1st Honour Paper, from 10 Paper, from Pass Practical Examination and 2nd 2 P M to 5 P M
Monday ditto	Honour Practical Examination 10 A M to 1 P M
Tuesday, Geology	1st Pass and 1st Honour Paper nd Honour Paper, from Pass Practical Examination 2 P M to 5 P M on
Wednesday, ditto	Honour Practical Exar aper from 10 A M to 1 P M
Thursday, Mineralogy	1st Pass and 1st Honour and 2nd Honour Paper, from Pass Practical Exe 2 P M to 5 P M Examination
Friday ditto	Honour Practication in all subjects other than English

(2) There shall be a simple practical Ex and Mathematics

(3) *In all cases where the answers a* *ritten in English, Examiners, in giving marks,* *account shall take the correctness of the English*

(4) One paper shall be set in E ish requiring short essays to be written (a) on some portion of a subject in Physical Sci or Chemistry and (b) on one of the optional subjects taken up by the candidate Ea Essay on the respective subjects must be written in a separate answer book

In the Pass papers in M ematics one half of the marks shall be assigned to easy riders and problems

(5) Different paper shall be prepared for the Pass and the Honour candidates The questions set in the par s for Pass candidates shall be taken only from the Pass course, and the questions set to the candidates for Honours shall be taken from both the Pass and the Honour courses in the papers set to the Honour candidates the questions taken from the

Pass course shall be more difficult than those in the papers set to candidates for a Pass only The papers shall be headed Mathematics, (*) First Pass Paper Mathematics, (*) second Pass Paper Mathematics (*) First Honour Paper Mathematics, (*) Second Honour Paper Mathematics, (*) Third Honour Paper Mathematics (*) Fourth Honour Paper

(6) The papers shall be headed and distributed among the various subjects as follows —

I —English Pass Paper only		(a) Essay on some portion of a subject in Physical Science or Chemistry	100 marks
		(b) Essay on one of the optional subjects taken up by the candidate	100 ,,

In order to pass in the Pass course in any subject a candidate must obtain 33 per cent of the total number of marks allotted to that subject In order to pass the B Sc Examination, a candidate must obtain 40 per cent in the aggregate

In order to pass the B Sc Examination with Honours a candidate must take up and obtain Honours in at least two subjects, Mathematics counting as a double subject

As an exception to the ordinary rule making Mathematics a compulsory subject a candidate, who, after examination in English, Physics and Chemistry and any two of the other subjects, passes in all five and obtains Honours in at least three subjects (English excepted), may obtain the degree of B Sc without taking up Mathematics

In order to obtain Honours in the First Division in any subject a candidate must obtain 60 per cent of the total number of marks allotted to that subject and in order to obtain Honours in the Second Division in any subject, a candidate must obtain 40 per cent of the total number of marks allotted to that subject

In order to *pass* in an Honour subject, a candidate must obtain 30 per cent of the total number of marks allotted to that subject

If a candidate obtains Honours in any two or more subjects, no minimum aggregate shall be required but if a candidate does not obtain Honour in any two subjects, he must

* Or whatever the subject may be.

in order to qualify as a pass candidate, obtain 480 marks in the aggregate and if he has taken up two or more Honour subjects, 55 per cent of the marks obtained in those subjects shall be counted towards the aggregate

(e) M A EXAMINATIONS

1 The examination shall be held in the month of November in the following order —

Monday,	10 A M to 3 P M	1st Paper
Tuesday,	" "	2nd "
Wednesday,	" "	3rd "
Thursday,	" "	4th "
Friday	" "	5th "
Saturday,	" "	6th "

2 One hundred marks shall be allotted to each paper in all branches of the M A Examination, and a Practical Examination in Natural and Physical Science shall be considered equivalent to one paper

The examination in Mental and Moral Science shall be on the subject as defined by the syllabus and shall not necessarily be confined to the books recommended to be used in studying the subject

3 The papers in the different branches shall be headed and distributed as follows —

ENGLISH

1st Paper	Drama (Texts and Criticism)
2nd "	Poetry (Texts and Criticism)
3rd "	Prose (Texts and Criticism)
4th "	General Paper in Literature, together with Taine and Dowden
5th "	Anglo Saxon (Sweet's Primer) Comparative Grammar (Sayce's Introduction), together with Morris and Smith
6th "	Essay on a subject connected with the History or Literature of the English Language (not to be confined to the prescribed text books)

GREEK

1st Paper	Homer Pindar Aristophanes
2nd "	Æschylus, Sophocles Euripides
3rd "	Unseen passages Grammar, Sayce
4th "	Herodotus Thucydides Demosthenes
5th "	Plato Aristotle
6th "	Essay Composition Mahaffy

LATIN

1st Paper	Plautus Terence Catullus Lucretius
2nd "	Virgil Horace Juvenal Persius
3rd "	Unseen passages Grammar Sayce
4th "	Livy, Sallust
5th "	Cicero, Tacitus
6th "	Essay, Composition, Cruttwell

SANSKRIT

1st Paper	Prose, Poetry and Drama
2nd "	Grammar and Rhetoric
3rd "	Manu and Bhagabatgita
4th "	Veda and Upanishad with Vedic Grammar
5th "	Philosophy, or Philosophy and Indian Palæography and Epigraphy
6th "	Essay

ARABIC

1st Paper	Sabai Muallaqah
2nd "	Diwan i Bahauddin Zuhir
3rd "	Hámásáh
4th "	Maqamat i Harin
5th "	Moquddamai i Ibn Khalladun, Prosody, Rhetoric
6th "	Essay

Two unseen passages shall be set at the examination, one in prose and the other in poetry The prose passages shall form part of Pap r V and the poetry passage shall form part of Paper II Such pa sages shall not exceed in difficulty the general standard of the text books prescribed for the examination

PERSIAN

1st Paper	Qasáid i Kháqáni
2nd „	Hadiqa i Sinai
3rd „	Qasáid i Qáani and Arúz i Saifi
4th	Inshai i Abul Fazl and Hadaiq ul Balaghat
5th	Akbarnámah
6th	Essay

Two unseen passages shall be set at the examination one in prose and the other in poetry The prose passages shall form part of Paper V, and the poetry passage shall form part of Paper II Such passages shall not exceed in difficulty the general standard of the text books prescribed for the examination

Candidates are also required to possess a knowledge of Arabic to the extent laid down in the course for the First Examination in Arts

HISTORY

1st Paper	History of England
2nd „	Constitutional History
3rd „	History of selected period
4th „	Political Philosophy
5th	Political Economy
6th „	Essay

PHILOSOPHY

1st Paper	Psychology
2nd „	Logic
3rd „	Ethics and Political Philosophy
4th	Natural Theology and Metaphysics
5th „	History of Philosophy (general)
6th „	Essay

N B—The subject of History of Philosophy (special) shall be grouped each year with the subject to which the special subject prescribed for the year is allied

MATHEMATICS

(GROUP A)

1st Paper	Algebra and Trigonometry, Plane and Spherical
2nd „	Theory of Equations and Analytical Plane Geometry omitting the Higher Plane Curves
3rd	Differential Calculus Integral Calculus (including the elements of the Calculus of Variations) and Differential Equations
4th	Analytical Solid Geometry
5th „	Analytical Statics and Dynamics of a Particle
6th	Hydrostatics and Elementary Hydrokinetic Newton s Principia, Sections I II, III and Astronomy

(GROUP B)

1st Paper	Analytical Plane Geometry and Analytical Solid Geometry
2nd „	Differential Calculus and Integral Calculus including the elements of the Calculus of Variations
3rd „	Analytical Statics
4th „	Dynamics of a Particle and Rigid Dynamics
5th	Hydro mechanics, including the elements of the Theory of sound
6th „	Astronomy and Newton s Principia, sections I II III IX, XI

Candidates shall be required to possess a knowledge of so much of the Theory of Equations Differential Equations Spherical Trigonometry, and Geometrical Optics as is necessary to understand the subjects in Group (B)

NATURAL AND PHYSICAL SCIENCE (A)

1st Paper	Chemistry of the Non metals and Outlines of Theoretical Chemistry
2nd	Chemistry of the Metals
3rd ,	Organic Chemistry
4th 5th and 6th Papers	Practical Examination

NATURAL AND PHYSICAL SCIENCE (B)

1st Paper	Electricity and Magnetism
2nd ,	Ditto ditto
3rd ,	Heat
4th ,,	Subsidiary subjects
5th ,,	Practical Examination in the Principal subjects
6th	Practical Examination in the Subsidiary subjects

NATURAL AND PHYSICAL SCIENCE (C)

1st Paper	Physical Optics
2nd ,,	Physical and Geometrical Optics
3rd ,,	Sound
4th	Subsidiary subjects
5th ,	Practical Examination in the Principal subjects
6th ,,	Practical Examination in the Subsidiary subjects

NATURAL AND PHYSICAL SCIENCE (D)

1st Paper	Anatomy, Histology and Cryptogamic Botany
2nd ,,	Physiology
3rd ,	Classification Structural Botany, Palæo botany
4th ,,	Practical Anatomy and Histology (This will include identification of prepared specimens under the Microscope also making Micro-sections Micro chemical re actions)
5th ,	Identification of Cryptogamic Specimens and making sections for the Microscope
6th ,	Identification of Specimens with the help of Flora Indica or referring them to their Natural Orders

NATURAL AND PHYSICAL SCIENCE (E)

1st Paper	Zoology and Comparative Anatomy
2nd ,,	Comparative Anatomy and Comparative Embryology
3rd ,	Physiology of the nervous system and of the special organs of sense
4th ,,	Physiology of Digestion, Respiration and Circulation, and Physiological Chemistry
5th ,	Practical Examination in Zoology
6th ,	Practical Examination in Physiology

NATURAL AND PHYSICAL SCIENCE (F)

1st Paper	Geology
2nd ,	Palæontology
3rd ,	Mineralogy and Petrology
4th ,,	Crystallography and Inorganic Chemistry
5th ,	Practical Examination in Mineralogy
6th ,	Practical Examination in Geology

4 In order to pass the M A Examination in Languages History or Mental and Moral Philosophy, a candidate must obtain 30 per cent of the marks in each paper with 40 per cent in the aggregate for a third class, 48 per cent for a second class and 60 per cent for a first class and in order to pass the M A Examination in Mathematics or Natural and Physical Science a candidate must obtain 33 per cent in the aggregate for a third class, 45 per cent for a second class, and 60 per cent for a first class, without any minimum percentage in each paper

Proceedings of the Bengal Legislative Council

GOVERNMENT OF BENGAL

LEGISLATIVE DEPARTMENT

Abstract of the Proceedings of the Council of the Lieutenant-Governor of Bengal, assembled under the provisions of the Indian Councils Acts, 1861 and 1892

The Council met in the Council Chamber on Saturday, the 30th March, 1901

Present

The Hon'ble SIR JOHN WOODBURN, K C S I, Lieutenant Governor of Bengal, *presiding*
The Hon'ble MR P NOLAN
The Hon'ble MR C E BUCKLAND, C I E
The Hon'ble MR R B BUCKLEY
The Hon'ble MR F A SLACKE
The Hon'ble MR E N BAKER, C S I
The Hon'ble MR B L GUPTA
The Hon'ble MR R T GREER
The Hon'ble BABU TARINI KUMAR GHOSE
The Hon'ble MAULVI SYED MAHOMED
The Hon'ble DR ASUTOSH MUKHOPADHYAYA, M A, D L, F R A S, F R S E
The Hon'ble BABU BOIKANTA NATH SEN
The Hon'ble BABU SURENDRANATH BANERJEE
The Hon'ble MR H ELWORTHY
The Hon'ble MR G H SUTHERLAND
The Hon'ble MR M S DAS
The Hon'ble MR A M BOSE
The Hon'ble ASIF KADR SAIYID WASIF ALI MIRZA OF MURSHIDABAD

NEW MEMBERS

The Hon'ble MR P NOLAN, the Hon'ble MR R T GREER, the Hon'ble BABU TARINI KUMAR GHOSE, the Hon'ble MR A M BOSE and the Hon'ble ASIF KADR SAIYID WASIF ALI MIRZA OF MURSHIDABAD took their seats in Council

QUESTIONS AND ANSWERS

SALT DEPARTMENT INSPECTORS

The Hon'ble DR ASUTOSH MUKHOPADHYAYA said —

I —Will the Government be pleased to enquire and state if there is any rule or practice which regulates the appointment of Probationary Inspectors in the Orissa Salt Department, their confirmation and their promotion to the office of Superintendent?

II —Will the Government be pleased to enquire and state the circumstances under which Mr F E Ager was appointed a Probationary Inspector in the Orissa Salt Department and promoted to the Superintendentship of the Balasore District?

III —Will the Government be pleased to enquire and state whether it is true that Mr Ager superseded several Inspectors, both European and Indian, who were senior to him and had efficiently served from two to twenty two years?

IV —Will the Government be pleased to enquire and state whether there were any, and, if any, what special circumstances in Mr Ager's case, and whether there have been any similar cases within the last three years?

The Hon'ble MR BAKER replied —

No I —"There is no separate Orissa Salt Department The Bengal Salt Department is of quite recent creation, the scale of establishment including the two probationary Inspectors having been sanctioned only last year No rules for making appointments have been framed, and no particular practice has yet come into existence"

"Taking Nos II, III and IV together, Mr Ager was appointed a Probationary Inspector in March, 1900, with the distinct intention of appointing him to be a Superintendent on the occurrence of a suitable vacancy At the time of his appointment, there were nine Inspectors, all of whom had less than four years' service except two, who were not likely to be promoted to Superintendentships Mr H U Baker to whose vacancy Mr Ager succeeded had been appointed a Superintendent direct"

PLEADERS IN THE SONTHAL PARGANAS ADMITTANCE OF PLEADERS, MUKHTEARS AND THEIR CLERKS INTO OFFICES ATTACHED TO CIVIL COURTS

The Hon'ble BABU BOIKANTA NATH SEN asked —

I —Is the Government aware that, notwithstanding the provision in section 340, Criminal Procedure Code, Act V of 1898, that "every person accused before any Criminal Court may of right be defended by a pleader," accused persons are not allowed, as a rule, to exercise the right in the Criminal Courts of Original and Appellate Jurisdiction in the Sonthal Parganas, and that they are permitted to be defended by pleaders in rare and exceptional cases only?

If so, will the Government be pleased to state whether it approves of the curtailment of the right of an accused person in respect of his defence, and whether it considers the same to be in accordance with law and justice?

II —Is the Government aware that, with the exception of the Deputy Commissioner and the Subdivisional Officers, all other officers presiding over Criminal Courts in the Sonthal Parganas are prohibited, by circular orders issued by local authorities from permitting accused persons to be defended by pleaders without the sanction of their immediate superiors in office?

Have such circular orders by local authorities been issued with the knowledge or approval of the Government, and does the Government consider it proper or just or necessary to restrict the officers presiding over Criminal Courts in the exercise of their discretion in connection with the permission aforesaid?

III.—Will the Government be pleased to state whether, in view of the existing circumstances and conditions of the Sonthal Parganas, it considers that there is any valid reason why accused persons should not be allowed to be defended by pleaders in any case, in the face of the provision in section 340, Criminal Procedure Code?

Does the Government consider the non-application of the Legal Practitioners' Act (Act XVIII of 1879, as amended by Act IX of 1884) to the Sonthal Parganas as a bar to the exercise of the right conferred by the said section 340? If so, will the Government be pleased, by the exercise of the authority given to it by Regulation III of 1899, to declare that the said Legal Practitioners' Act shall be deemed to be in force in the Sonthal Parganas, or otherwise to remove the grievance of the accused persons by issuing the necessary orders or instructions to officers presiding over Criminal Courts in the said Parganas to permit them to be defended in all cases by pleaders, as defined in section 4, clause (r) of the Criminal Procedure Code of 1898?

IV.—Will the Government be pleased to state whether, by its Circular (Judicial) No. 1259J, dated the 13th February, 1901,* issued under the signature of the Hon'ble the Officiating Chief Secretary to the Government of Bengal, the Government intends to prevent the admittance of pleaders, mukhtears, and their clerks in the offices attached to all Civil Courts?

---

* Circular No. 1259J, dated Calcutta, the 13th February 1901.

From—C. E. BUCKLAND, Esq., C.I.E., Offg. Chief Secy. to the Govt. of Bengal.

JUDICIAL.

SIR,

I AM directed to say that the following rule has been issued by the Government for incorporation in the Revenue Officers' Manual:—

"With a view to the better conduct of business in Collectorate offices, the Lieutenant-Governor has been pleased to order that at the entrance of each office room occupied by clerks or muharrirs or copyists shall be placed a wicket gate with a spring. Inside each such office is to be kept a list showing who are the officers entitled to occupy the room. Outside the entrance to the room should be hung in a conspicuous place a board having printed on it, both in English and the vernacular, 'No admittance for the public.' The Collector and the Deputy Collector in charge of a department should visit at unstated times during office hours the room occupied by its subordinates and call the roll, and in the event of his finding any outsiders within the room, the ministerial head of the department should be punished, since he is to be held responsible that the public do not enter the room."

2. The Lieutenant-Governor desires that the above instructions should be followed by all Civil Courts for the better conduct of business in their offices, and I am to request that you will be so good as to issue the necessary orders in the matter.

The Hon'ble MR. BUCKLAND replied:—

To Question No. I:—

"Section 340 of the Code of Criminal Procedure must be read with section 4 (r) of the same Code, which in the case of the Sonthal Parganas considerably limits the application of section 340.

"As the Legal Practitioners' Act is not in force in that district, section 340 is only operative in respect of any person 'appointed with the permission of the Court to act in such proceeding.' Under Government orders of long standing it is left to the discretion of the local officers to determine whether or not in any specific case permission shall be given by the presiding judicial officer to a pleader to appear in that capacity and as next friend of the party whom he advises. The parties therefore are not debarred from exercising any rights which they possess.

"The rights of no accused person have been curtailed, and the standing orders in the Sonthal Parganas the Lieutenant-Governor does not intend to change."

To Question No II —

"The circular orders in question, if issued, have not been reported to Government Government do not propose to interfere with the action of the Commissioner or Deputy Commissioner in the matter"

To Question No III —

"It has long been the settled policy of Government not to allow pleaders to practise without restriction in the Sonthal Parganas Government have therefore no intention of declaring the Legal Practitioners' Act to be in force in that district The fact that this Act is not in force prevents, as has already been explained, section 340 of the Code of Criminal Procedure, conferring a right on parties to be represented by pleaders but Government have no reason to suppose that the local Courts, acting under section 4 (r) of that Code, refuse permission to pleaders to appear and defend accused persons according to the practice which has long been in force"

To Question No IV —

"By the Circular No 1259J, dated the 13th February, 1901, it was intended to prevent all persons from entering the Government offices attached to all Civil Courts except the Government clerks, muharrirs or copyists employed in those Government offices

"Orders will be issued for arrangements to be made, by structural arrangements, counters or otherwise, for the public (including pleaders, mukhtars and their clerks) to have, for legitimate business, means of communication with the Government officials without entering the offices in question"

EXCISE IN MUNICIPALITIES

The Hon'ble MR A M BOSE said —

I —I beg to invite the attention of the Government to the provisions of section 84 of Bengal Act VII of 1878, which empowers the Government, with the sanction of the Governor General in Council, to assign to the Corporation of Calcutta or to any other Municipality all or any of its powers in respect of the granting, withholding, and withdrawal of licenses for the sale of excisable articles, and to enquire if such assignment has up to now been made to any of the Municipalities, and, if so, to which of them? Should no such assignment have been made, will the Government be pleased to take early steps for giving a reality and practical shape to the permissive powers conferred on it by the section referred to?

The Hon'ble MR BAKER replied —

"The provisions of section 84 of Bengal Act VII of 1878 have not been applied in Calcutta, or any other Municipality in Bengal The question was discussed between the Governments of Bengal and of India in 1889, and the conclusion at which both Governments arrived was that no such system could be successfully administered In that conclusion the Lieutenant Governor concurs"

FLOODS IN THE DUM DUM SUB DIVISION

The Hon'ble MR A M BOSE asked —

II —(a) Has the attention of the Government been drawn to the serious suffering and damage caused to the inhabitants of a large number of villages in the neighbourhood of Dum Dum during the heavy rains of September last, owing to the obstruction caused to the flow of water towards the Salt Water lakes by the Bengal Central Railway line, and to the following observations made by Mr Lyall, the Magistrate of the 24 Parganas, after his inspection of the locality in his letter to the Commissioner of the Presidency Division —"I have no hesitation in saying that the culverts between Dum Dum Junction and Dum Dum Cantonment are ridiculously inadequate for the water they have to carry off The difference in the water level is nearly two feet at the openings themselves, and the water is roaring through as in a mill sluice I attribute

a good deal of the unhealthiness of Sinthee (through which I rode) and the insecurity of the crops to the north west of Bengal Central Railway line to this cause, and I think the Bengal Central Railway Company should be called on to provide adequate waterways"?

(b) Is it also the fact that the Sub divisional Officer of Barasat has reported that this portion of the line is a serious obstruction to the drainage of the country?

(c) Will the Government be pleased to state what steps have been taken to remedy the defects pointed out, and with what result?

(d) Will the Government be also pleased, in the interests of people who are frequently too poor and too ignorant and helpless to make a representation on their own behalf, to direct an enquiry and call for a report as to the adequacy or otherwise of the culverts to carry off the water during the rains in other portions of the line referred to?

The Hon'ble MR BUCKLEY replied —

"The attention of Government has been drawn to the effects of the heavy rainfall of September last in the neighbourhood of Dum Dum The water ways were provided to meet normal floods An entirely unprecedented flood, such as that of last year could not be met at any reasonable cost The question of providing increased waterway within reasonable limits is under enquiry"

THE SIBPUR AGRICULTURAL FARM

The Hon'ble MR A M BOSE asked —

III —Is the Government aware of the extremely unhealthy character, through want of drainage and otherwise, of the site occupied by the Sibpur Agricultural classes and the Farm attached thereto, and of the need of making better arrangements for the godown, and providing healthier and more suitable accommodation for the Agricultural Lecturer as well as for the Overseer and the Farm labourers? Have any steps been taken to remedy these defects? If not, will the Government be pleased to make suitable provision for the purpose in the Budget for the next year?

The Hon'ble MR SLACKE replied —

"Government has for some time been aware of the unhealthy nature of the site of the Sibpur Agricultural Farm, and drainage works are now being carried out which will, it is hoped, effect an improvement

"Improvements to the godowns have been sanctioned, and will be carried out in the next financial year

"With regard to improving the quarters of the Agricultural Lecturer, pending the decision of the question whether the Farm is to be removed to another site, no action will be taken

"It is not proposed to make any change in the Overseer's quarters, but with regard to those of the Farm labourers improvements are, it is understood, about to be made"

MID YEAR SALES OF TENURES

The Hon'ble MR SLACKE called attention to the following question asked by the Hon'ble Raja Ranajit Sinha Bahadur, of Nashipur, at the Meeting of Council held on the 21st July, 1900 —

"IV —Having regard to the fact that the dates fixed by Collectors for mid year sales of tenures under Regulation VIII of 1819 are not in accordance with the provisions of section 8, clause 3, of the said Regulation and are not uniform in all the districts on account of the intervention of Durga and Lakhi Puja holidays, will the Government be pleased to issue general instructions enjoining on all the District Officers either to fix the 1st of Agrahan, as provided in the Regulation, as the date of sale, or some other date to be fixed for all the districts upon some uniform calculation?"

and to the following answer which he then gave, *viz* —

"The report called for from the Board on the question has not been yet received, and until it comes, the Lieutenant Governor regrets that the question of the Hon'ble Member cannot be answered"

The Hon'ble MR SLACK then said —

"The report having been received, the answer is as follows —

"Instructions have recently been issued by the Board enjoining on District Officers that path sales should invariably be held on the 1st Jeth and Agrahan or on the first following day on which the Courts are open"

VERNACULAR TEXT BOOKS

The Hon'ble MR A M BOSE asked —

IV —With reference to the new scheme for the preparation of books for vernacular education, published in the Calcutta Gazette of the 13th March, (Part I, page 297), will the Government be pleased to reconsider the innovation introduced therein requiring the authors of vernacular text books, whether in vernacular literature comprising Prose, Poetry, Grammar and Composition, or in Arithmetic, or Euclid, or Historical, Geographical or Science Reader, to submit them, accompanied by a typewritten literal English translation of their respective works? Has the Government taken into consideration the fact that the introduction of this rule will seriously handicap many vernacular authors of repute whose knowledge of English or means may be limited, and that it will keep out a good many desirable candidates and materially reduce the field of selection? Is it intended that the examination of these vernacular text books will be entrusted to any individual or Committee wholly ignorant, or without a competent knowledge, of the vernacular?

The Hon'ble MR SLACK replied —

"The Government is willing to dispense with a translation in the case of the following books only —

Lower Primary	Alphabet and Spelling Book Arithmetic Book
Upper Primary	Literature Book Arithmetic Book
Middle School	Literature Book Arithmetic Book Euclid 1st Book

"With regard to the others a translation will be necessary, and Government does not think this will keep out any desirable candidates It is not intended to entrust the examination of these books to a Committee, or an individual wholly ignorant or without competent knowledge of the vernacular"

CANAL IN FARIDPUR

The Hon'ble MR A M BOSE asked —

V —Will the Government be pleased to state what progress has already been made in the canal now being excavated from the Madhumati to the Kumar River in the district of Faridpur, and when it is likely to be finished? Will it be pleased to take early steps for the completion of the canal?

The Hon'ble MR BUCKLEY replied —

"The work in question can hardly be called a canal It is a connection between two rivers which will only be navigable for about two to three months in the rainy season The work which it is at present proposed to carry out will be completed before the coming rains The scheme is capable of futur development if the traffic which follows the route is sufficient to justify further expenditure"

WANT OF WATER IN FARIDPUR VILLAGES

The Hon'ble MR A M BOSE asked —

VI —Is the Government aware that in the greater part of the bil tract in Faridpur, specially in such villages as Woolpur, Karpara, Bathari, Nankel hari, &c, within the jurisdiction of thana Gopalgunge, there is very great

scarcity of drinking water during the hot months from March till June, causing considerable suffering to the people, the available supply being virtually a kind of liquid mud? Will it be pleased to direct that proper measures may be taken to mitigate this suffering?

The Hon'ble MR. BAKER replied:—

"Government has no special information on the subject, but a report will be called for."

DRINKING WATER IN VILLAGES.

The Hon'ble MR. A. M. BOSE said:—

VII.—I have the honour to enquire if it would be practicable to have a statement prepared showing the progress that has been made, district by district, within the last three years in the making of arrangements by District Boards and otherwise for supplying drinking water to villagers, together with a description of the requirements of the people in different parts of each district? If so, will the Government be pleased to place this statement on the table?

The Hon'ble MR. BAKER replied:—

"A summary of the work done by District Boards in providing for the supply of drinking water is given in columns 1—7 of Form IV attached to the Annual Report on the working of District Boards in Bengal. Copies of the Reports for the last three years will be laid on the table."

THE PROVINCIAL EXECUTIVE SERVICE.

The Hon'ble BABU SURENDRANATH BANERJEE said:—

I.—I have the honour to invite the attention of the Government to the memorial presented by the Indian Association for the improvement of the position and prospects of the members of the Provincial Executive Service, and to enquire what measures, if any, have been taken with a view to secure this important object?

The Hon'ble MR. BUCKLAND replied:—

"The memorial has been carefully considered, and matured proposals have been submitted to the Government of India."

JUDICIAL BRANCH OF THE PROVINCIAL SERVICE.

The Hon'ble BABU SURENDRANATH BANERJEE asked:—

II.—(a) Has the attention of the Government been directed to the grievances of the members of the Judicial Branch of the Provincial Service as described in the columns of the *Statesman* and other newspapers? If so, will the Government be pleased to state what steps it has taken to remedy them?

(b) Is it the fact that there is a marked disparity in the matter of promotion between the members of the Executive Branch and those of the Judicial? And is it the case that (i) while generally speaking a Munsif when he is 38 or 39 years of age counts only five or six years of service, and is able to earn only a salary of Rs. 200 a month, a Deputy Magistrate of that age expects to get Rs. 500 a month with about sixteen years of service behind him, (ii) that while a Deputy Magistrate can reasonably expect to attain to the Rs. 400 grade after only ten years of service at the comparatively early age of 35, a Munsif hardly ever attains to that status till he is 48 years of age and has served fifteen or sixteen years? Is not this disparity due to the present mode of recruitment of the Munsifs at the age of 32 or 33 when the Deputy Magistrate is generally an officer of ten years' standing?

(c) Is it the case that under the present conditions of service a Munsif cannot and does not attain to the rank of a Subordinate Judge before his fifty-second year, and his period of service in that capacity is thus reduced to two to three years?

(d) Does the Government consider the present state of things at all conducive to the efficient administration of justice? If not, will the Government be pleased to take early steps with a view to remedy it? If it be deemed inexpedient to alter the mode of recruitment of the Judicial Branch, will the Government be pleased to consider favourably the suggestion to create a Rs 500 grade in the rank of Munsif or take such other steps as the Government may in its wisdom think fit to improve the status of the Service?

The Hon'ble Mr BUCKLAND replied —

"A scheme for the improvement of the Judicial Branch of the Provincial Service has been submitted to the Government of India

"The remainder of the Hon'ble Member's questions are very like those put on the 21st July, 1900 by the Hon'ble Babu Boikunta Nath Sen, and the same answer is now given viz —'Most of the information asked for is already available in the Bengal Quarterly Civil List, an authoritative publication of Government moreover, in contravention of Rule 9 of the Rules as to the asking of questions in this Council, the questions of the Hon'ble Member are of an argumentative character'"

DETECTIVE POLICE

The Hon'ble BABU SURENDRANATH BANERJEE said —

III —I have the honour to call attention to the following remarks passed by a Divisional Bench of the High Court consisting of Justices Ameer Ali and Pratt in a recent case of murder alleged to have been committed at Bogra —

'We desire to express our regret that the other perpetrators of the cruel and outrageous crime have escaped punishment It is pretty clear from the medical testimony and other circumstances that the crime could not possibly have been committed without the combination of a number of people The fact that the other persons concerned in the crime have escaped their just punishment is in our opinion, due to the Police There seemed to have been no endeavour made to trace the movements of men who were accused or to place them in such a position as would enable the others to find out the connection of the different accused with each other We know that the Police in this country, generally speaking, do not possess the detective faculty So long as they can obtain a confession and if there are a number of accused turn the person confessing into an approver, they seem satisfied with the result It is not for this Court to teach the Police how to do their work But we cannot help observing that in any other civilised country without any resort to ill treatment or oppression effective steps would have been taken in the course of the investigation, or during the enquiry before the committing Magistrate, to bring home the crime to the other perpetrators

Will the Government be pleased to consider the propriety of creating a Detective Department for each Division, manned by trained detectives, for enquiry into cases of crime which the ordinary Police are not able to cope with?

The Hon'ble Mr BUCKLAND replied —

"Government have the subject under consideration"

EXTENDED EMPLOYMENT OF NATIVES IN THE CUSTOMS

The Hon'ble BABU SURENDRANATH BANERJEE said —

IV —(a) I have the honour to call attention to the following remarks of the Government of Bengal in the letter of the Indian Association regarding the wider employment of natives of India in the higher offices in the minor Civil Service —

'Customs —There are conditions under which at present no ordinary native of Bengal would be able to discharge the duties (connected with the Preventive Service) without constant and unavoidable ... and that is the reason why natives have not in practice been appointed No application from a native for appointment to the Preventive Service appears to have been received

(b) Is the Government aware that there is now a Bengali Christian, who is employed as a Preventive Officer at the Port of Chittagong, and that he is the senior Preventive Officer at that Port?

(c) Is it the case that a vacancy having recently occurred among Preventive Officers attached to the Customs Department in Calcutta, this Bengali officer applied for the post and was strongly recommended by the Collector of Customs at Chittagong, but that his application was rejected?

(d) Having regard to this case and the willingness of natives of Bengal to be employed in the Preventive Service, will the Government be pleased to consider the propriety of giving them a trial?

The Hon'ble MR BAKER replied —

"The passage quoted in the question had reference to the Port of Calcutta, and not to the minor ports in which the Preventive establishments are comparatively small and unimportant, and the local conditions are different

"Government has no information as to the facts stated in the second and third parts of the question

"The rules already permit of the employment of natives of India in the Preventive Service, but the Lieutenant Governor agrees in the view expressed by the Government of India that 'there are practical objections, from the point of view of the public interests and the wishes of natives themselves, to the appointment of a native, save under exceptional circumstances, to be a Preventive Officer'"

MR PENNELL'S CASE

The Hon'ble BABU SURENDRANATH BANERJEE said —

V —(a) With reference to the suspension of Mr Pennell, late District and Sessions Judge of Noakhali, will the Government be pleased to state whether it consulted the Law Officers of the Crown before suspending him?

(b) If it did not, then having regard to the strong differences of opinion expressed in the newspaper press as to the legality of the suspension, will the Government be pleased to consider the propriety of doing so now?

(c) Will the Government be pleased to state what further action it proposes to take with regard to Mr Pennell, and whether he will be tried under Act XXXVII of 1850?

VI —I have the honour to call attention to the following observations made by Mr Pennell in his judgment in the murder case recently disposed of by him —

"Mr Corbett was nominally punished with the stoppage of his promotion for one year No sooner were the Government orders issued than he was transferred from the undesirable station of Backergunge to Ranchi which is well known as a sanitarium and he has remained there ever since Further, the last Civil List shows that he has been put back over the heads of all the Police officers of his year, with the exception of Mr Justice Stevens son, who were confirmed before him'

Will the Government be pleased to state if the statements made in the last sentence of the above extract are true? If so, how is it possible to reconcile them with the stoppage of Mr Corbett s promotion?

VII —I have the honour to call attention to the following extract from the judgment of Mr Pennell in the murder case —

"An expression of the Lieutenant Governor s severe displeasure was conveyed to Mr Bradley whose conduct in the opinion of the Governor General in Council amounted to little short of persecution, and was a flagrant abuse of the authority with which as a Police officer he was entrusted Between the first and second of these verbal castigations, Mr Bradley was appointed to officiate as District Superintendent of Police of Muzaffarpur, the prise district of Bengal in succession to a very senior officer who is Mr Bourdillon s brother in law and there Mr Bradley has remained up to date'

Are the statements made in the above extract substantially true? If so, how is it possible to reconcile a communication of the displeasure of the Government with Mr Bradley being permitted to retain Police charge of what is described as "a prize district of Bengal"?

VIII.—Has the attention of Government been called to the following observations made by Mr Pennell in his judgment in the murder case?—

'The Police Department is the most genteel' of 'the refuges for the destitutes in the Indian Empire and that there is hardly a man in high place out here who has not got in that department some relative of whom perhaps he may not be very proud, but whom he has no wish to have on his hands

The Hon'ble MR BUCKLAND replied —

"Government decline at present to answer any question regarding Mr Pennell or his judgment"

RECRUITMENT FOR THE HIGHER POLICE APPOINTMENTS

The Hon'ble BABU SURENDRANATH BANERJEE said —

IX.—Will the Government be pleased to lay on the table a statement showing the names of Assistant and District Superintendents of Police who are related to high officials in the Covenanted or the Provincial Service, and the circumstances of their admission into it, whether by nomination or competition?

The Hon'ble MR BUCKLAND replied —

"The statement asked for cannot be given The Police Service has been recruited in various methods since 1861 Since 1893 the Service has been recruited entirely by competition, partly in London and partly in India, with the occasional promotion of deserving Inspectors"

POLICE SUB-INSPECTOR OSMAN ALI OF NOAKHALI

The Hon'ble BABU SURENDRANATH BANERJEE asked —

X.—Is it the case that a Police officer, named Osman Ali, has, for 20 years, been stationed in the Noakhali district? Are there any rules regulating the transfer of Police Officers? If so, were these rules applied to Osman Ali? If not, why not?

The Hon'ble MR BUCKLAND replied —

"The Police Sub-Inspector referred to has served in the Noakhali district during his whole service of 26 years, except a period of three months and twelve days in the Backergunge district There are rules in the Police Code regarding the transfer of police officers Ordinarily an officer is not kept at a station for more than five years, except for special reasons There is no limit to the time which a Sub-Inspector may serve continuously in a district It has been ascertained that Osman Ali has been at no thana in the district for more than five years, and at the Sadar thana since 3rd March, 1899"

BENGAL FINANCIAL STATEMENT FOR 1901-1902

The Hon'ble MR BAKER laid on the table the Financial Statement for 1901-1902, with explanatory notes He said —

"I beg to lay on the table the Financial Statement for 1901-1902, together with the usual appendices and accounts

"It may be convenient for Members if I endeavour to state briefly those features of the budget which are likely to be of general interest The year which is just about to close has been one of more than usual prosperity in Bengal In March, 1900, we estimated the probable revenue of the year at Rs 4,69,74,000 It has exceeded this figure by Rs 13,68,000 The cash balance with which the year opened also exceeded that on which we then

calculated by Rs 3,12,000 The expenditure of the year has been practically just what we estimated it at, being better by the comparatively trifling sum of Rs 26,000 The result has been that we find ourselves at the beginning of 1901 1902 with a cash balance of 42 lakhs of rupees, or 22 lakhs more than we are required by the rules to maintain There is no advantage in hoarding this sum, and it has been decided to apply it in carrying out some of the many useful projects involving expenditure which have been suggested, elaborated, and only too often pigeonholed for want of funds These are set forth in the body of the budget in their proper places, but I will enumerate some of the most important

"In the first place, we propose to set apart a sum of Rs 4,80,000 for improving the financial position of District Boards, by assigning them a sum approximately equal to 10 per cent on the collections of Public Works Cess It has long been felt that the resources of the Board are not elastic enough to enable them to discharge their duties efficiently, especially in the very important matter of roads And though it is not permitted to us, under the existing system of Provincial Finance, to permanently alienate any part of the Provincial Revenue, we shall do what we can, now that funds are available

"We also propose to give further assistance to District Boards and Municipalities in two ways Firstly, we take over, as a Provincial charge, the cost of maintaining the plague inspection camps at Chausa, Manwa and elsewhere which have hitherto been paid for by local bodies Secondly we have increased the budget allotment for grants in aid of plague expenditure by local bodies by Rs 2,15,000

"Then, we have made a provision of Rs 1,2[illegible],000 for a Provident Fund for and *gurus* teachers in primary schools This is a new proposal, the details of which are being worked out in the Education Department, and which will require the sanction of higher authorities before it is carried out We hope in this way to effect a substantial improvement in the position of these indispensable servants of the public

"Then, we provide Rs 1,40,000 for expenditure on schemes for improving the position and prospects of the Provincial Civil Service in both the Judicial and Executive Branches This matter, reference to which was made in to day's proceedings, has formed the subject of a good deal of agitation in the Press, and though some of the statements put forward seem to me to be too highly coloured, yet we are satisfied that a case has been made out for a substantial measure of improvement Here again, I would remind those interested that any scheme will require the previous sanction of the Government of India and the Secretary of State, and it is not in our power to hold out any definite or specific promise, though we shall certainly do the best we can

"Then, we increase the grant of the Public Works Department by Rs 8,38,000, raising their total allotment to Rs 45,88,000 The greater part of this increase is earmarked for particular works, including the acquisition of land for the extension of the High Court, the completion, approximately of the General Hospital, and the completion of the works for the protection of Darjeeling against landslips I should have liked to see a larger grant allotted to this Department if it had been possible

"The remainder of our surplus we propose to expend on increased building grants for the Deaf and Dumb School the Diocesan Girls' School and other institutions, on the establishment of an experimental dairy farm at Pusa, on the development of the Veterinary Department, on the provision of additional space required for Christian and Muhammadan cemeteries, and various other projects of minor importance

"In allotting these funds, we have been careful not to commit ourselves to too large a proportion of recurring charges, *i e*, to expenditure which is not incurred once for all, but has to be repeated and provided for in following years

" These, I think, are all the features of interest to which I need allude on the present occasion The Financial Statement will in the ordinary course be discussed at the next Meeting of Council on April 12th, and I hope that any Member who desires to bring forward any point in the course of that discussion, will as usual give us notice three or four days before hand "

EXPLANATORY NOTES ON THE BENGAL FINANCIAL STATEMENT FOR 1901 1902

PART I—General Review

ACCOUNTS OF 1899 1900

IN the revised estimates for 1899 1900, as shown in last year's Financial statement the opening balance was taken at Rs 31,16,000, the receipts of the year at Rs 4,71,07,000, the expenditure at Rs 4,67,17,000, and the closing balance at Rs 35,06,000 The actual accounts have turned out rather more favourable The receipts improved by Rs 3,26 347, chiefly under Land Revenue, Stamps (Non judicial), Provincial Rates, and Irrigation The expenditure was greater by Rs 14,448, and the opening balance was also slightly better than had been estimated The year closed with a balance of Rs 38,18,388

REVISED ESTIMATE FOR 1900 1901

2 The budget estimate for 1900 1901, as passed by the Government of India, assumed that the year would open with a credit balance of Rs 35,06,000, that the total revenue would amount to Rs 4,69,74,000, and the total expenditure to Rs 4,79,82,000, so that the year would close with a balance of Rs 24,98,000 The latest estimate available for the accounts of the year shows that the total receipts will probably be Rs 4 83,42,000, which is better than was originally expected by Rs 13,68,000, and that the expenditure will be Rs 4,79,56,000, being a decrease of Rs 26,000 the result is a net improvement of Rs 13,94,000, and as there is an increase of Rs 3,12,000 in the expected amount of the opening balance, the total improvement on the original estimate is Rs 17,06,000

3 Of the improvement on the receipt side Rs 2 25,000 is under Stamps, chiefly from non judicial stamps, Rs 5,50,000 under Excise, owing to better settlements and increased sales of opium and ganja, due partly to the improved condition of the people and partly to a fall in the retail price of the latter drug, Rs 3,27,000, under Jails, due to special supplies to the Military Department for the troops sent to the South African War and the China Expedition, and also to better prices obtained from sale of mustard oil which is one of the chief industries of the Jails, and Rs 1,48,000 under Marine due to increased pilotage receipts in Calcutta There are also small increases under Land Revenue (Rs 89,000), Provincial Rates (Rs 47 000) due to better collection of arrears, Customs (Rs 50,000), Forests (Rs 76,000) due specially to increased sale of sleepers in the Tista and Buxa Divisions, and Scientific and other Minor Departments (Rs 62,000) on account of larger supplies of cinchona and quinine to the Medical Depots and the public Against these increases there are decreases of Rs 43,000 under Assessed Taxes, Rs 20,000 under Law and Justice—Courts of Law due to smaller receipts from Pleadership Examination fees, and Rs 28,000 under Civil Works, ferry receipts

4 The net decrease of expenditure is Rs 26,000, which is made up of an increase of Rs 12,91,000 under certain heads and a decrease of Rs 13,17,000 under others There were special increases of Rs 4,11,000 under Jails, due chiefly to larger outlay on raw materials to meet the requirements of the Military Department, and to increase in the price of mustard seed, of Rs 3,50,000 under Civil Works, owing to heavy repairs to the damages done to the roads, &c, in Darjeeling by landslips, and of Rs 4,09,000 under Contributions from Provincial to Local, owing to larger allotments to Local

Funds for the construction and maintenance of Provincial works and larger grants for plague charges Against these increases there are decreases of Rs 69,000 under I and Revenue, of Rs 92,000 under Provincial Rates, owing to the adjustment of the recoveries on account of the cost of collection of arrear cesses, and arrear contribution for pension of the cess collecting establishment, of Rs 1,50 000 under Police in District Executive Force, and Railway Police, of Rs 1,80,000 under Education on account of savings under salaries, furniture and apparatus, and boarding charges, and in the grant for training of teachers, of Rs 1,56,000 under Medical owing to savings in salaries in consequence of many officers being recalled for military duty and to smaller expenditure on account of bedding and medical stores in the General and Campbell Hospitals, of Rs 1,80,000 under Famine Relief owing to the full provision not having been required, and of R 72,000 under Irrigation—Major Works, and Rs 1,69 000 under Minor Works and Navigation, owing to transfer of about two lakhs to the Civil Buildings Branch to meet the cost of repairs to damages done by the landslip in Darjeeling

BUDGET ESTIMATE 1901 1902

7 The budget estimate for 1901 1902, as passed by the Government of India, adopts Rs 42 01 000 as the opening balance and provides for receipts aggregating Rs 4,81 98,000, and charges Rs 5,01,02,000, leaving a closing balance of Rs 20,00,000, which is the minimum prescribed by the Secretary of State Compared with the budget estimate for 1900 1901, the total receipts for 1901 1902 show an increase of Rs 12,24,000 while, as compared with the revised estimate, there is a falling off of Rs 1,41,000 This reduction is due to smaller receipts (Rs 2 000) expected from smaller supplies of jail manufactures to the Military Department, and smaller pilotage receipts (Rs 60,000) under Marine, while Scientific and other Minor Departments and Irrigation, Major works are estimated to bring in revenue smaller by Rs 43,000 and Rs 32,000, respectively On the other hand, increases are expected under Land Revenue from settlements, and under Provincial Rates from revaluations On the expenditure side the total grant is Rs 5,04,02,000 against Rs 4,79,82 000, the budget estimate for 1900 1901, and Rs 4,79,06,000, the revised estimate for the year The increase over the budget for the current year is Rs 24,20,000, of which Rs 21,30,000 is for the following special provisions —

	Rs
Improvement of the Executive and Judicial Branches of the Provincial Service	1,40 000
Contributions to Provident Funds for gurus and teachers in primary schools	1 2 000
Building grants for Deaf and Dumb and other schools	1 00 000
Dairy Farm at Pusa	46 000
Plague Inspection Camps	65 000
Increased provision for plague expenditure and grants in aid	2 15 000
Special grants to District Boards	4 80 000
Increased grant for Civil Works by Public Works Department	8,38,000
Ditto ditto by Civil Department for Burial grounds, Christian and Muhammadan	1,21,000
Total	21,30 000

There is also an increase of Rs 2,46,000 under Land Revenue chiefly for Surveys and Settlements and for larger outlay on improvements of Government estates, of Rs 58 000 under Stamps for the higher rate of discount allowed on the sale of non judicial stamps, of Rs 1,53,000 under Law and Justice (Courts) for increase in the pay of District Judges, and in process serving and other establishments and on account of smaller deductions for probable savings, of Rs 1,17,000 under Jails partly on account of increased grant for rations and hospital charges owing to the increase in Jail population, and partly for larger outlay on raw materials for manufactures, of Rs 91,000 under Police for the re organization of the Calcutta Police recently sanctioned, for the annual increased grant of Rs 28,000 for the gradual substitution of sub inspectors

for head constables for investigating work and for increased grants under Village Police for dafadar chaukidars in the Orissa Division in consequence of the resumption of chakran lands, and of Rs 62,000 under Superannuations for progressive increase under Pensions and Gratuities Against these increases there are decreases of Rs 1,58,000 under Irrigation and of Rs 4,40,000 under Famine Relief, no expenditure being anticipated under the latter head

PART II —Detailed Remarks on the Budget for 1901 1902

RECEIPTS

6 *Land Revenue* —The total collections under this head in 1899 1900 were Rs 4,12,01,234, and the estimate for 1901 1902, including Rs 3,50,000 for recoveries on account of the Bihar survey charges, as passed by the Government of India, is Rs 4,12,86,000

7 The adjustments between Imperial and Provincial will probably result in a net transfer of Rs 18 23,000 to Imperial in 1901 1902, as shown below —

	Rs
Fixed contribution to Imperial Revenues under the terms of the Provincial Contract	14,19,000
Add payable to Imperial Revenue —	
Contribution to Assam Administration for transfer of the South Lushai Hills	3,75,000
Compensation for duty on Shahjehanpur rum issued to Bengal from the North Western Provinces under bond	2,000
For transfer of Provincial Museum	19 000
For transfer of Statistical Department of the Bengal Secretariat to the office of the Director General of Statistics	15 000
Compensation to the Assam Administration on account of the realisation in Bengal of income tax from the Assam Bengal Railway	13,000
Compensation to the Central Provinces Administration on account of the realisation in Bengal of Income Tax from the Bengal Nagpur Railway	16 000
Total	18 59,000
Deduct to be recovered from Imperial —	
Special assignment for the resumed chaukidari lands in Orissa	36 000
Net sum to be transferred to Imperial Funds	18 23,000

8 The estimated Provincial share of Land Revenue is arrived at as follows —

	Revised Estimate 1900 1901	Estimate 1901 1902
	Rs	Rs
Gross Land Revenue	4,12 00 000	4,12,86 000
Deduct 12 per cent on estimated collections from Government estates (Provincial)	6,58,000	6,60,000
Deduct on account of recoveries of Bihar Survey and Settlement charges (Imperial)	5,44 000	3 50,000
Total deduction	12,02,000	10 10,000
Net amount divisible between Imperial and Provincial	3 99,98 000	4,02,76,000
Provincial share of above	99,99,000	1,00,69,000
Add 12 per cent on collections from Government estates	6,58,000	6,60,000
Total Provincial	1,06 57,000	1,07 29,000
Deduct on account of adjustments	18,00,000	18,23,000
Total Provincial share	88,57,000	89,06,000

9 *Stamps* —The budget estimate of the total revenue from Stamps for 1900 1901 was passed by the Government of India for Rs 1,82,00,000 The actuals in 1899 1900 amounted to Rs 1,82,78,888, and the returns from the Comptroller General show that the receipts during the first ten months of 1900 1901 exceeded those of the corresponding period of the preceding year by Rs 1,35,000 In view of these figures, both the revised estimate for 1900 1901 and the estimate for 1901 1902 have been placed at Rs 1,85,00,000 The Provincial share is three fourths of this sum, and amounts to Rs 1,38,75,000

10 *Excise* —The revenue from Excise for 1900 1901 was estimated at Rs 1,10,00,000 The actuals of 1899 1900 amounted to Rs 1,39,65,275, and the figures of the first 10 months of 1900 1901 show an increase of Rs 6,16,000 over the actuals of the corresponding period of the preceding year Both the revised estimate for 1900 1901 and the estimate for 1901 1902 have been passed for Rs 1,47,00,000 The Provincial share, one half, is Rs 73,50,000

11 *Provincial Rates* — The actual collections of the Public Works Cess in 1899 1900 amounted to Rs 46,58,921, and the receipt of the first nine months of the current year show an increase of Rs 40,000 over those of the corresponding period of last year The revised estimate for the current year has accordingly been placed at Rs 47,00,000, and the estimate for next year has been taken at Rs 48,40,000 The estimate of receipts under "General rates for the management of private estates" is Rs 1,48,000

12 *Customs* — The original estimate of Provincial receipts for 1900 1901 was Rs 2,20,000 The actual receipts in 1899 1900 amounted to Rs 2,35,532, and those in the first nine months of 1900 1901 show an increase of Rs 43,280 over those of the corresponding period of the previous year In view of these figures, both the revised estimate for 1900 1901 and the estimate for 1901 1902 have been placed at Rs 2,70,000 The increase is under overtime fees

13 *Assessed Taxes* —The budget estimate of receipts from Income tax for 1900 1901 was passed by the Government of India for Rs 52,86,000 The actual collections of last year amounted to Rs 52,16,588, and those of the 12 months ending 31st January were Rs 51,85,000 Both the revised estimate for 1896 97 and the estimate for 1897 98 have been placed at Rs 52,00,000 The Provincial share of one half is Rs 26,00,000

14 *Forest* —The receipts of the Forest Department are now estimated at Rs 12,00,000 for 1900 1901 and Rs 11,75,000 for 1901 1902 against Rs 11,38,912, the actuals of 1899 1900 The receipts have been entered at Rs 36,000 above the actuals of 1899 1900, as additional revenue is expected from the reserve forests proposed to be constituted in the Chittagong Division This includes Rs 62,000 from the sale of sal sleepers extracted by departmental agency, Rs 4,85,000 from sales of other timber, Rs 2,92,000 from firewood and charcoal, Rs 70,000 from bamboos and Rs 2,22,000 from other minor produce (including Rs 29,000 from mica in the Hazaribagh Division, Rs 12,000 from *sabai* grass in the Singhbhum Division, and Rs 9,000 from wax and honey in the Sundarbans Division)

15 *Interest* —The receipts under this head have been entered at Rs 3,67,000 for 1901 1902, thus—

		Rs
Interest on advances to cultivators		36 000
Do	on drainage and embankment advances	77 000
Do	on loans to notabilities	6 000
Do	on loans to municipalities and other local authorities	1 82 000
Do	on Government securities	14,000
Miscellaneous		52 000
	Total	3 67 000

16 *Law and Justice —Courts of Law* —The receipts from Magisterial fines declined up to 1897 98 In 1898 99 they showed a small increase, but in 1899 1900 they declined again In the current year they showed a small increase which may not continue in 1901 1902 The estimate has been placed at Rs 8,01,000 against Rs 8,10,000, the revised estimate for the current year

17 *Law and Justice —Jails* —The estimate under this head is Rs 11,28,000 against Rs 13,50,000, the revised estimate for 1900 1901, and Rs 11,59,773,

the actuals of 1899 1900 The increase in 1899 1900 and 1900 1901 was due to special supplies to the Military Department for the troops sent to the South African War and the China Expedition

18 *Marine* —The budget estimate of total receipts for 1900 1901 was Rs 11,32,000 This has been raised to Rs 12,80,000 in the revised estimate, with reference to the actuals of the first 10 months of the current year, which amounted to Rs 10 40,?, owing to the unusually high receipts under Calcutta Pilotage The pilotage receipts are of a fluctuating character, depending on tonnage of vessels arriving and departing from the Port, and the estimate for 1901 1902 has been placed at Rs 12,20 000

19 *Education* —The estimate under this head amounts to Rs 7,35,000 against Rs 7,00 000 the estimate for 1900 1901 The increase is due to the inclusion of receipts from the Reformatory Schools which have been transferred to this head from Jails

20 *Medical* —The estimate under this head is Rs 2,10,000 against Rs 2,20 000, the revised estimate for 1900 1901, and Rs 2,35,672, the actuals of 1899 1900 Last year, the two years' contribution of the Calcutta Municipality for the maintenance of the Campbell Hospital was credited, and hence the total receipts were high There were larger receipts in Lunatic Asylums in 1900 1901

21 *Scientific and other Minor Departments* —The estimate for 1901 1902 amounts to Rs 2,23,000 against Rs 2,06,000, the revised estimate for 1900 1901, and Rs 2,05,849, the actuals of 1899 1900 The increase compared with the actuals of 1899 1900 is due to an anticipated increase in the receipts from the sale of cinchona and its preparations

22 *Superannuation receipts* —The estimate of Provincial receipts for 1901 1902 amounts to Rs 65,000 against Rs 56,000, the revised estimates for 1900 1901 The estimate for next year includes a special receipt of Rs 10,000 for contributions of Medical officers lent to Municipalities, District Boards and Local bodies

23 *Miscellaneous* —The receipts under this head fluctuate largely from year to year The estimate for 1901 1902 based on past actuals has been placed at Rs 7,18,000 against Rs 7,01 000, the budget estimate for 1900 1901, and Rs 7,35,850, the actuals of 1899 1900

24 *Irrigation—Major Works (Direct receipts)* —The budget estimate for 1900 1901 was Rs 17,18,000, and the revised estimate is taken at Rs 17,50,000 The increase is in the Sone Canals The estimate for 1901 1902 has been placed at Rs 17,18,000, as the collections under this head are uncertain and depend on rainfall

25 *Irrigation—Minor Works and Navigation* —The estimate of receipts under Public Works Department for 1901 1902 is Rs 6,58,000 The budget and revised estimates for 1900 1901 are Rs 6,39,000 and Rs 6,44,000, respectively The increase is under Navigation receipts of the Calcutta and Eastern Canals

26 *Civil Works* —The estimate of receipts in charge of the Public Works Department is Rs 1,88,000 against Rs 1,73,000, the budget estimate, and Rs 2,00,000, the revised estimate for 1900 1901 The actuals in 1899 1900 were Rs 2,26,694 and included the Government share of profits of the Darjeeling Himalayan Railway which are payable after the close of the year and the receipts of 1900 1901 and 1901 1902 are adversely affected by the landslips of 1899 and 1900

EXPENDITURE

27 *Refunds and Drawbacks* —The total Provincial expenditure in 1901 1902 is estimated at Rs 1,84 000 against Rs 1,84,000, the budget estimate for 1900 1901, and Rs 1,78,224, the actuals of 1899 1900 The actuals for 1899 1900 included a special payment made in March, 1900, on account of capitalised value of the Government revenue for the land taken up for the Hajipur Katihar extension of the Bengal, North Western and Tirhut State Railways in the district of Bhagalpur Larger provision has been made under Land Revenue to provide for any special payments such as those made in the last three years, and under Stamps, Excise and Customs owing to the anticipated increase in revenue

28 *Assignments and Compensations* —The actual charges in 1899 1900 amounted to Rs 1,54,877, and in the revised estimate for 1900 1901 the budget estimate of Rs 2,00 000 has been reduced to Rs 1,55,000, as the full amount of claims budgetted for has not been paid during the year The estimate for 1901 1902 has been framed for Rs 1,75,000 which provides for the payment of arrears

29 *Land Revenue* —The total Provincial expenditure for 1900 1901 was originally estimated at Rs 40,06,000, but in the revised estimate this has been reduced to Rs 39,37,000, owing to large savings under charges of District Administration, in consequence of the absence of officers on deputation and long leave out of India The estimate for 1900 1901 is Rs 43,02,000, as shown below —

	Actuals 1899 1900	Budget, 1900-1901	Revised estimate, 1900 1901	Budget, 1901 1902.
	Rs	Rs	Rs	Rs
(1) Charges of district administration	31,00,660	31,68,000	30,26,000	32 51,000
(2) Management of Government estates	5 07,694	5,00,000	5 30,000	5,67,000
(3) Survey and settlement	2 88 816	2 45,000	2,93,000	3,94,000
(4) Land Records and Agriculture	84,654	93,000	88,000	90,000
Total	39 81 824	40 06 000	39 37,000	43,02 000

The increase under (1) is for revision of tauzi establishments in several districts, and for increase of establishment in others, but is chiefly due to the provision of Rs 50,000, being one half of the grant of one lakh set apart for improving the emoluments of the Executive Branch of the Provincial Service Small additions have also been made under subdivisional establishment, partition establishment, process serving establishment and survey of waste lands establishment in accordance with the requirements of the local officers The increase under (2) is proportionate to increased collections expected and for larger grants for improvements

30 *Stamps* —The estimate of expenditure for 1901 1902 amounts to Rs 7,54,000 against Rs 6,77,000, the budget estimate for the current year, and Rs 6,47,499, the actuals of 1899 1900 The increase is chiefly under charges for the sale of general stamps owing to the higher rate of discount allowed on sale of non judicial stamps from 1st April, 1900, and also under "Stamp paper supplied from Central Stores," the estimate under this head being Rs 3,37,000 against Rs 3,02,322, the actuals of 1899 1900 The Provincial share is three fourths and amounts to Rs 5,66,000

31 *Excise* —The total expenditure for 1901 1902 is estimated at Rs 7,44,000 against Rs 7,01,000, the budget grant for 1900 1901 The budget provides Rs 50,000 for improving and strengthening the district Preventive establishments

32 *Provincial Rates* —The total provision for 1901 1902 is Rs 1,43,000 against Rs 1,52,000, the budget estimate for the current year, and Rs 60,000, the revised estimate for the year The savings in 1900 1901 are partly due to smaller expenditure on valuation and re valuation establishment, and partly to no allowance having been made in the estimate for recoveries on account of the cost of collection of arrear cesses and refunds of Road Cess which are adjusted in the accounts by reduction of charges under this head. The estimate for next year includes larger grants for valuation and re valuation work in several districts

33 *Customs* —The estimate of expenditure for 1901 1902 amounts to Rs 9,78,000 against Rs 9,32,000, the budget estimate for 1900 1901 The increase is chiefly due to provision being made for larger overtime allowances both for Calcutta and Chittagong

34 *Forests* —The budget grant for 1901 1902 is Rs 6,90,000 against Rs 5,89,000, the estimate for 1900 1901, and Rs 5,80,000, the revised estimate for the year The estimate includes Rs. 71,000 for departmental operations for the supply of timber, fuel and bamboos, Rs 19,000 for completing the construction of a new steamer sanctioned for use in the Sunderbans Division, Rs 74,000 under Communications and Buildings, Rs 28,500 for

continuance of the survey of the forests in the Singhbhum Division, Rs 9,500 on sowing and planting, and Rs 15,000 for fire protection

35 *General Administration* —The estimate under this head amounts to Rs 17,11,000 against Rs 17,17,000, the revised estimate for 1900 1901 The increase in the revised estimate for 1900 1901 is due to the Chief Commissioner of Assam having drawn his pay for three months in Calcutta The budget for next year includes a lump grant of Rs 18,000 to be placed at the disposal of the Board of Revenue for keeping the Collectorate records in good order while a reduction of Rs 15,000 has been made under Civil Secretariat for the transfer of the Statistical Department to the office to the Director General of Statistics

36 *Law and Justice—Courts of Law* —The estimate under this head for 1900 1901 was Rs 91,70,000, but in the revised estimate it has been reduced to Rs 91,20,000, since savings are expected under High Court owing to no arrangement having been made during the absence on furlough of one of the Judges, and also under Process serving Establishments of District Judges The estimate for 1901 1902 has been passed for Rs 94,13,000, and includes provision for the salaries of the full sanctioned number of High Court Judges, larger grant for copying establishment in the High Court for making copies for parties, for increase in the pay of the Superintendent and Remembrancer of Legal Affairs, and for increase in the pay of District Judges A special provision of Rs 90,000 has also been made for improvement of the Subordinate Judicial Service and the Executive branch of the Provincial Service

37 *Jails* —The estimate for 1901 1902 amounts to Rs 24,86,000 against Rs 23,69,000, the budget estimate for 1900 1901, and Rs 24,53,7?9, the actuals of 1899 1900 The increase is due to larger grants for rations and hospital charges in consequence of the increase in the jail population and to the high price of food grains There is also an increased provision of Rs 52,000 for Jail manufactures

38 *Police* —The following table compares the estimates of expenditure under this head —

	Actuals 1899 1900.	Estimate 1900 1901	Revised estimate 1900 1901	Estimate 1901 1902.
	Rs	Rs	Rs	Rs
Presidency Police	7,94 871	8 26,000	8 30 000	8 51,000
Municipal Police	52 096	50 000	50 000	49 000
Superintendence	1,54,752	1,58,000	1,48,000	1,52,500
District Executive Force	47,07 717	48,48 500	47,22,000	49,11 200
Village Police	15 884	46 000	37,000	50 000
Special Police	1 40 2?7	1,46,700	1,50,000	1 52 500
Railway Police	1,31,043	1,54 500	1,38 000	1,5? 900
Cattle pounds	2,692	3,300	1 0 0	1,600
Refunds	739	1,000	8 000	1,300
Total	60 00,051	62,34,000	60,84,000	63,25 000

The actuals of the first eight months of 1900 1901 indicate that there will be savings under District Executive Force which was rather overestimated in the budget, and under Village Police owing to the Chaukidari Act not having been introduced in the district of Puri The estimate for 1901 1902 is Rs 63,25,000 Under Presidency Police provision has been made for the full sanctioned strength and for increased provision for feed and keep of horses and for rents, rates and taxes Under District Executive Force provision has been made for the substitution of sub inspectors for head constables as investigating officers in accordance with the recommendation of the Police Commission, for four probationers in excess of the present scale, and for cooks for Police Hospitals in 35 districts Under Village Police provision has been made for dafadar chaukidars in consequence of the resumption of chakran lands

39 *Marine* —The estimate for 1901 1902 is Rs 10,11,000 against Rs 9,61,000, the sanctioned estimate for 1900 1901, and Rs 9,42,524, the actuals of 1899 1900 The increase is under (*a*) repairs of vessels, as heavy repairs are expected to be carried out, under (*b*) pilotage and pilot establishment owing to larger payments to free list pilots, the expenditure under which head varies according to the number and tonnage of vessels visiting the

ports, under (c) overtime allowances of the Assistant Shipping Master, and under (d) subsidies to steamer companies for a new service between Chittagong and Cox's Bazar

40 *Education*—The grant for expenditure under the direct control of the Education Department was Rs 29 80,000 in the budget estimate for 1900 1901 This has been reduced to Rs 28,00,000 in the revised estimate partly in consequence of the absence of several officers on furlough and appointment of men on lower pay, partly owing to smaller boarding charges in the Civil Engineering College, and partly on account of the grant of Rs 16,000 for the training college for teachers in connection with the Kurseong School not having been fully utilised The estimate for 1901 1902 provides for a total expenditure of Rs 32,04,000, which includes Rs 72,000 for Reformatory Schools transferred from the Jail Department, Rs 16,000 for the Kurseong Training College for teachers, and the following additional charges —

(1) Appointment of two additional Foremen Instructors, one additional Professor and additional Instructive staff for the Civil Engineering College	16,000
(2) Establishment, &c for B and C classes (Industrial and Commercial) in certain high schools in connection with the bifucation of studies	14,000
(3) Purchase of models, &c for the introduction of Model Freehand Drawing in the Entrance Examination	2 000
(4) Improvement of the present system of training of teachers	8,000
(5) Contribution towards the cost of the construction of a new building for the Deaf and Dumb School at Calcutta, for the Diocesan Girls' School at Darjeeling, and other building grants	1,00,000
(6) Contribution to Provident Fund for teachers of primary schools	1,25 000
Total	2 65,000

41 *Medical*—The original budget grant for 1900 1901 was Rs 22,26,000, but in the revised estimate this has been reduced to Rs. 20,70,000 The decrease is due to changes of officers and to the recall of many officers to military duty The grants to Municipalities and District Boards in 1900 1901 for plague measures amounted to—

	Rs	Rs.
Patna Municipality	15 000	
Bihar "	20 000	
Dinapore "	4 000	
Gaya "	5 000	
Chapra	5 000	
Monghyr "	10 000	
Shahebgunj "	1 000	
		60,000
Patna District Board	70,000	
Gaya "	10 000	
Monghyr "	4 000	
		84,000

Of these, the grants to Municipalities aggregating Rs 60,000 will be adjusted under this head, while those to District Boards, under Contributions The grant for 1901 1902 amounts to Rs 24,85,000, and includes Rs 5,65,000 for plague measures, *i e*, Rs 65,000 for Inspection Camps, Rs 1,00,000 for inspection charges at maritime ports, Pilgrim Camps, and other direct expenditure by Government, and Rs 4,00,000 for grants to Municipalities and District Boards in aid of the cost of local preventive measures Provision has been made for increase in the pay of the Chemical Examiner and increased grant for diet and clothing of patients in the General Hospital and Leper Asylum

42 *Scientific and other Minor Departments*—The estimate for 1901 1902 is Rs 5,22,000, against Rs 4,71,000, the budget grant for 1900 1901, and Rs 4,44,375, the actuals of 1899 1900 The increase is mainly due to a provision of Rs 46,000 having been made for the establishment of a dairy farm at Pusa The estimate also includes a grant of Rs 7,500 to the Indigo Association and larger grants for supplies and services, and purchase of models and specimens, &c, for the Veterinary Institution and the appointment of two Veterinary Inspectors, while on the other hand the charges for the main tenance of the Economic and Art Section of the Provincial Museum have been omitted in consequence of its transfer to the control of the Government of India

43 *Superannuation*—The charges under this head show a progressive increase year by year owing to the increase in the claims to pensions The estimate for 1901 1902 is Rs 23,62,000, against Rs 22,86,000, the revised estimate for 1900 1901, and Rs 22,13,172, the actuals of 1899 1900

44 *Famine Relief*—A provision of Rs 4,40,000 was made in the budget for 1900 1901 for expenditure on famine relief works and gratuitous relief, in the Chota Nagpur and Orissa Divisions The actual expenditure adjusted in the first ten months of the current year, however, shows that the expenditure in the Civil Department during the year will be Rs 2,58,000, and in the Public Works Department, Rs 2,000 The total revised estimate in the current year has accordingly been placed at Rs 2,60,000 No outlay is anticipated for next year

45 *Irrigation—Minor Works in charge of the Public Works Department*—The estimate for 1901 1902 is Rs 14,00,000 against Rs 15,03,000, the budget grant for 1900 1901, and Rs 11,08,956, the actuals of 1899 1900 A provision of Rs 75,600 has been made for the bhil route between the Kumar and Madhumati rivers, and Rs 62,200 and Rs 31,100 for Capital expenditure in Orissa and Sone Canals, respectively The grant for Agricultural and Drainage works has been placed at Rs 7,21,600 against Rs 6,46,865, the actuals of 1899 1900

46 *Civil Works in charge of the Public Works Department*—The Provincial expenditure for 1901 1902 is Rs 45,88,000, which is distributed thus —

	Rs
Original Works	22 44 000
Repairs	15 60,000
Establishment	7 60 570
Tools and Plant	23,430
Total	45 88 000

The allotment includes the following grants —

	Rs
Certificate Office Chapra	15,000
Constructing a masonry building for the accommodation of the Deputy Magistrates and the office of the Excise Income tax and Certificate Departments, Comilla	29,000
Constructing a new and separate building for the accommodation of those offices of the Collector and Magistrate of Bhagalpur which are now located in a hired building, and erecting a new court-room for the Joint and the Honorary Magistrate	38 000
Constructing a new Commissioner s office Cuttack	38 000
Constructing a new court building to accommodate two Subordinate Judges and two Munsifs at Monghyr	38,000
Additions and alterations to the Civil Court buildings at Bhagalpur	19,500
Construction of treble Munsifis at Satkhira and Bagerhât	44 000
Construction of a new Sub-divisional Court at Gumla	32 000
Ditto of a new Sub-divisional residence at Gumla	11,000
Carried over	2,64,500

	Rs
Brought forward	2 64 500
Acquisition of land for the extension of the High Court	2,50 000
Construction of a new building for the Patna City School	37,900
Re construction of the Presidency General Hospital	2 50 000
Construction of a central Lunatic Asylum at Berhampore	1,25 000
Ditto of a ward for female lunatics in the Lunatic Asylum, Bhawanipur	25,100
Addition to Sumbhu Nath Pandit's Hospital	29,000
Construction of new roads	1,26 700
Ditto of feeder roads	53,500
Re-construction of Terai bridges	25 000
Special repairs, Darjeeling Town	2,50,000
Total	14 36 700

47 *Civil Works in charge of the Civil Department*—The grant for 1901 1902 is Rs 2,76,000 against Rs 1,16,000, the revised estimate for the current year Provision has been made for re grants of Rs 30,000 and Rs 5,000 to the Patna and Muzaffarpur Municipalities, respectively, for the construction of hospitals, which have not been drawn during the current year, of Rs 5,000 to the Nadia Municipality for repairs to embankments, and of Rs 1,21,000 for acquisition of lands for extensions of Christian and Muhammadan burial grounds

48 *Contributions from Provincial to Local*—The original estimate for the current year, amounting to Rs 9,91,000, has been raised to Rs 14,00,000 in the revised estimate, in order to provide (1) for grants to the newly created District Boards in Chota Nagpur Division, (2) for special grants to meet plague preventive measures, as stated in paragraph 41 above and for larger grants to the District Boards for the construction and maintenance of Provincial Public Works The estimate for 1901 1902 is Rs 15,00,000, and includes a provision of Rs 4,80,000 for improving the financial position of District Boards
